Islamic Jurisprudence C.G. Weeramantry, 1988-09-19 Islamic jurisprudence is a much misunderstood system The misunderstanding is due to lack of information and to centuries of prejudice This book seeks to present information not at present available in a single work on the pioneering efforts of Islamic jurists to develop a comprehensive body of human rights principles and practice as well as a corpus of international law principles The attempt to develop such international law principles long anticipated any similar work in other legal or cultural systems Human rights doctrine based upon the Qu ran and the Sunna of the Prophet was expressed in terms which will strike the reader as surprisingly modern In international law Islamic treatises anticipated the work of Grotius by eight centuries It is hoped that this systematic exposition not attempted before in such detail will help considerably in reducing misunderstanding and the resulting tensions as well as being of considerable value to the Islamic world The work will be of interest not only to lawyers but also to philosophers historians sociologists political scientists and students of international affairs

The Origins of Islamic Jurisprudence Harald Motzki, 2021-10-01 The current view among Western scholars of Islam concerning the early development of Islamic jurisprudence was shaped by Joseph Schacht s famous study on the subject published 50 years ago Since then new sources became available which make a critical review of his theories possible and desirable This volume uses one of these sources to reconstruct the development of jurisprudence at Mecca virtually unknown until now from the beginnings until the middle of the second Islamic century New methods of analysis are developed and tested in order to date the material contained in the earliest compilations of legal traditions more properly As a result the origins of Islamic jurisprudence can be dated much earlier than claimed by Schacht and his school

Jurisprudence - 3rd Edition Imran Ahsan Khan Nyazee, 2019-08-29 Islamic jurisprudence or *usul al fiqh* provides the foundation for any meaningful study of Islamic law The present book has been in the field for more than a decade and has received a positive response from many quarters It is used as a textbook in a number of university courses Over the years however students have shown an eagerness to know more They have raised many questions whose answers the book did not provide A catalogue of the questions asked and those not asked gave rise to the need to revise the book The present third edition of the book has therefore been revised and three chapters at the end have been completely rewritten **A History**

of Islamic Law N. Coulson, 2017-07-12 Lawyers according to Edmund Burke are bad historians He was referring to an unwillingness rather than an inaptitude on the part of early nineteenth century English lawyers to concern themselves with the past for contemporary jurisprudence was a pure and isolated science wherein law appeared as a body of rules based upon objective criteria whose nature and very existence were independent of considerations of time and place Despite the influence of the historical school of Western jurisprudence Burke's observation is generally valid for Middle East studies Muslim jurisprudence in its traditional form provides an extreme example of a legal science divorced from historical considerations Law in classical Islamic theory is the revealed will of God a divinely ordained system preceding and not preceded by the Muslim state controlling but not controlled by Muslim society There can thus be no relativistic notion of the law itself evolving as an historical phenomenon closely tied with the progress of society The increasing number of nations that are largely Muslim or have a Muslim head of state emphasizes the growing political importance of the Islamic world and as a result the desirability of extending and expanding the understanding and appreciation of their culture and belief systems Since history counts for much among Muslims and what happened in 632 or 656 is still a live issue a journalistic familiarity with present conditions is not enough there must also be some awareness of how the past has molded the present This book is designed to give the reader a clear picture But where there are gaps obscurities and differences of opinion these are also indicated **Islamic Jurisprudence, Islamic Law, and Modernity** Mohammad H. Fadel, 2023-08-01 Mohammad Fadel's scholarship on Islamic law and legal history ranges from medieval institutions and the history of Islamic legal interpretation to urgent problems relating to the modern reception and re-assessment of Islamic legal doctrine Fadel's intellectual concerns

focus primarily on the compatibility of the Islamic legal tradition with modern liberal political arrangements but in his research and writing he also delves into the realm of premodern Islamic legal thought and institutions His Rawlsian approach leads him to a political reading of the Islamic legal tradition which he accomplishes by teasing out jurists assumptions about politics economics and the domestic sphere Fadel s readings of Islamic legal sources suggest that Islamic law remains relevant to a society in which legitimate disagreements over law and morality seem intractable At the same time from the Rawlsian perspective he adopts Fadel reminds us that premodern Muslim jurists formulated Islamic law also under conditions of substantial controversy over matters of law and morality as well as over questions of religion politics theology and metaphysics The studies gathered together in this volume adroitly illustrate Fadel s interest in Islamic law as a domain of Islamic political thought and as a framework that might be deployed in today s pluralistic and secularized societies

The Formation of Islamic Law Wael B. Hallaq, 2016-12-05 The fourteen studies included in this volume have been chosen to serve several purposes simultaneously At a basic level they aim to provide a general if not wholly systematic coverage of the emergence and evolution of law during the first three and a half centuries of Islam On another level they reflect the different and at times widely divergent scholarly approaches to this subject matter These two levels combined will offer a useful account of the rise of Islamic law not only for students in this field but also for Islamicists who are not specialists in matters of law comparative legal historians and others At the same time however and as the Introduction to the work argues this collection of distinguished contributions illustrates both the achievements and the shortcomings of paradigmatic scholarship on the formative period of Islamic law

The Islamic Worldview Azizah al-Hibri, 2015 Is practicing Islam in the American Diaspora identical to its practice in other countries or must a new Islamic jurisprudence be developed that takes into account the culture customs and laws of this country This is the central question around which world renowned Islamic scholar Dr Azizah al Hibri bases her analysis of Islamic Jurisprudence This book revisits traditional Islamic jurisprudence to develop a modern understanding of Islam with respect to gender marriage family and governance

Source Methodology in Islamic Jurisprudence Taha Jabir Al-Alwani, Anas. S. Al-Shaikh-Ali, Yusuf Talal DeLorenzo, 2003 Usul Al Fiqh is a science which is deeply embedded in the Islamic experience and one which thanks to its methods and concerns helped generate an empirical trend in Muslim culture in turn benefiting western thinking Itself a creation of influences from within and without Al Usul often called The Philosophy of Islam invites both reason and revelation to work for the harmony and well being of human society Although the science of Al Usul is mainly concerned with legal matters its range and the arsenal of tools it uses makes it attractive to students of Islamic Jurisprudence as well as to other scholars of Islamic Knowledge and culture The difficulties it poses are inevitable This book however attempts to simplify this Most important method of research ever devised by Islamic thought during its most creative period and bring it to the understanding and appreciation of the modern learner while underscoring its importance and relevance to the world of Islam today

Formation of the Islamic Jurisprudence Labeeb Ahmed Bsoul, 2018-04-07 Islamic jurisprudence has undergone many historical changes since the time of Prophet Muhammad and researchers have divided its development into several historical stages In Formation of the Islamic Jurisprudence Labeeb Ahmed Bsoul presents the history of Islamic jurisprudence from its earliest period Drawing upon a wide variety of Arabic primary sources to provide an inclusive unbiased view of the history of jurisprudence this book covers all the main centers of legal scholarship in the Islamic world addressing not only the four well

known Sunni legal schools but also defunct Sunni and sectarian legal schools Bsoul makes intellectual history the center of attention recognizing the contributions of women to legal scholarship and avoids attributing academic developments to the events of political history This book presents a new reading and understanding as Bsoul critically assesses the history development and impact of Islamic jurisprudence in the Muslim world *Islamic Jurisprudence on the Regulation of Armed Conflict* Nesrine Badawi,2019-10-01 In *Islamic Jurisprudence on the Regulation of Armed Conflict* Text and Context Nesrine Badawi argues against the existence of a true interpretation of the rules regulating armed conflict in Islamic law In a survey of formative and modern seminal legal works on the subject the author sheds light on the role played by the sociopolitical context in shaping this branch of jurisprudence and offers a detailed examination of the internal deductive structures of these works
