Islamophobia In America The Anatomy Of Intolerance:

Islamophobia in America C. Ernst, 2013-03-20 Islamophobia in America offers new perspectives on prejudice against Muslims which has become increasingly widespread in the USA in the past decade The contributors document the history of anti Islamic sentiment in American culture the scope of organized anti Muslim propaganda and the institutionalization of this kind of intolerance *The rise of global Islamophobia in the War on Terror* Naved Bakali, Farid Hafez, 2022-09-06 The War on Terror ushered in a new era of anti Muslim bias and racism Anti Muslim racism or Islamophobia is influenced by local economies power structures and histories However the War on Terror a conflict undefined by time and place with a homogenised Muslim Other framed as a perpetual enemy has contributed towards a global Islamophobic narrative This edited international volume examines the connections between interpersonal and institutional anti Muslim racism that have contributed to the growth and emboldening of nativist and populist protest movements globally It maps out categories of Islamophobia revealing how localised histories conflicts and contemporary geopolitical realities have textured the ways that Islamophobia has manifested across the global North and South At the same time it seeks to highlight activism and resistance confronting Islamophobia **Islamic Education in the United States and the Evolution of Muslim**

Nonprofit Institutions Sabith Khan, Shariq Siddiqui, 2017-10-27 This book is a novel and ambitious attempt to map the Muslim American nonprofit sector its origins growth and impact on American society Using theories from the fields of philanthropy public administration and data gathered from surveys and interviews the authors make a compelling case for the Muslim American nonprofit sector s key role in America They argue that in a time when Islamic schools are grossly misunderstood there is a need to examine them closely for the landscape of these schools is far more complex than meets the eye

Thomas, 2015-09-15 Exploring the

experience of Muslims in America following 9 11 this book assesses how anti Muslim bias within the U S government and the larger society undermines American security and democracy In the aftermath of the events of September 11 2001 Muslims in America have experienced discrimination and intolerance from the U S government and American citizens alike From religious and ethnic profiling to hate crimes intolerance against Muslims is being reinforced on multiple levels undercutting the Muslim community s engagement in American society This text is essential for understanding how the unjust treatment of American Muslims following September 11 has only served to alienate the Muslim community and further divide the United States Authored by an expert analyst of policy for 20 years this book explores the prejudice against Muslims and how the actions of the U S government continue to perpetuate fear and stereotypes within U S citizens The author posits that by respecting the civil rights of Muslims the government will lead by example in the acceptance of American Muslims improving homeland security along with the lives of Muslims living in the United States The Myth of Middle East Exceptionalism Mojtaba Mahdavi, 2023-02-28 More than a decade after the birth of contemporary social movements in the Middle East and North Africa scholars are asking what these movements have achieved and how we should evaluate their lasting legacies The quiet encroachments of MENA counterrevolutionary forces in the post Arab Spring era have contributed to the revival of an outdated Orientalist discourse of Middle East exceptionalism implying that the region s culture is exceptionally immune to democratic movements values and institutions This volume inspired by critical post colonial decolonial studies and interdisciplinary perspectives of social movement theories gender studies Islamic studies and critical race theory challenges and demystifies the myth of MENA Exceptionalism Composed of three sections the book first places MENA in the larger global context and sheds light on the impact of geopolitics on the current crises showing how a postcolonial critique better explains the crisis of democratic social movements and the resilience of authoritarianism The second section focuses on the unfinished projects of contemporary MENA social movements and their quest for freedom social justice and human dignity Contributors examine specific cases of post Islamist movements the Arab youth student and other popular non violent movements In the final section the book problematizes the exceptionalist idea of gender passivity and women s exclusion which reduces the reality of gender injustice to some eternal and essentialized Muslim MENA mindset Contributors address this theory by placing gender as an independent category of thought and action demonstrating the quest for gender justice movements in MENA and providing contexts to the cases of gender injustice to challenge simplistic ahistorical and culturalist assumptions *American Political Culture* Michael Shally-Jensen, Mark J. Rozell, Ted G. Jelen, 2015-04-28 This all encompassing encyclopedia provides a broad perspective on U S politics culture and society but also goes beyond the facts to consider the myths ideals and values that help shape and define the nation Demonstrating that political culture is equally rooted in public events internal debates and historical experiences this unique three volume encyclopedia examines an exceptionally broad range of factors shaping modern American politics including popular belief political action and the

institutions of power and authority Readers will see how political culture is shaped by the attitudes opinions and behaviors of Americans and how it affects those things in return The set also addresses the issue of American exceptionalism and examines the nation s place in the world both historically and in the 21st century Essays cover pressing matters like congressional gridlock energy policy abortion politics campaign finance Supreme Court rulings immigration crime and punishment and globalization Social and cultural issues such as religion war inequality and privacy rights are discussed as well Perhaps most intriguingly the encyclopedia surveys the fierce ongoing debate between different political camps over the nation s historical development its present identity and its future course By exploring both fact and mythology the work will enable students to form a broad yet nuanced understanding of the full range of forces and issues affecting and affected by the political process

German Perspectives on Right-Wing Extremism Johannes Kiess, Oliver Decker, Elmar Brähler, 2016-05-20 This book discusses right wing extremism by analysing Germanophone research on this topic for the first time in English including unique survey data from Germany and Austria Highlighting how questions of terminology can become complicated when country cases are compared the authors analyse theoretical and methodological issues in relation to the question of right wing extremism In Anglo American academia the term is often associated with fairly rare phenomena in the form of extremist political groups whereas in Germany the term is often applied to a wide range of attitudes behaviours and parties including those which operate more within the mainstream political sphere Covering an array of sub fields such as right wing terrorism iconography of the extreme right and the Germanophone discussion on the differentiation of right wing populism and right wing extremism the authors account not only for the centrality of right wing extremist attitudes in Germanophone research but also point at its often overlooked relevance for the phenomenon in general Offering an important insight into the nuanced definition of right wing extremism across Europe and enhancing both international debate and cross country comparative research this book will be of interest to students and scholars researching extremism German politics and European politics more generally

The Oxford Handbook of Islam and Women Asma Afsaruddin, 2023 The Oxford Handbook of Islam and Women offers authoritative contributions from well known scholars whose sophisticated and cutting edge research explores the diversity of Muslim women s lives and their accomplishments challenging common stereotypes that are particularly prevalent in the West

Religious Persecution and Political Order in the United States David T. Smith, 2015-11-12 This book explains why the United States a country that values religious freedom has persecuted some religious minorities while protecting others It explores the experiences of Mormons Jehovah s Witnesses Jews Catholics and Muslims arguing that the state will persecute a religion if it sees it as a political threat

No God but Man Atiya Husain, 2024-12-16 Reconceptualizing the relationship between race and Islam in the United States No God but Man theorizes race as an epistemology using the FBI s post 9 11 Most Wanted Terrorist list and its posters as its starting point Atiya Husain traces the origins of the FBI wanted poster form to the work of nineteenth century

social scientist Adolphe Quetelet specifically his overvalued type of human called average man Husain argues that this notion of the human continues to structure wanted posters as well as much contemporary social scientific thinking about race Focusing on the curious representations on the Most Wanted Terrorist list that range from Muslims who lack a race category on their posters to the 2013 addition of Black revolutionary Assata Shakur Husain demonstrates the ongoing influence of the average man and its relevance even today proposing a counterweight to the category by engaging Shakur's turn to Islam in the 1970s in the legal context In doing so Husain shows the limitations of race as an analytical category altogether *The Mechanisms of Racialization Beyond the Black/White Binary* Bianca Gonzalez-Sobrinho, Devon R. Goss, 2020-05-21 This book focuses on the mechanisms that undergird the operation of racialization and works to empirically define the specific mechanisms by which racialization outside of black white paradigm operates The contributors highlight the advantages and benefits of using case studies from outside of the black white racial boundary in the social scientific study of racism racial identity racial meaning and racial representation Their contributions can be grouped into three specific areas of focus the investigation of the relationship between racialization and the state the interplay between racialization and identities and the role of racialization in the media Taken together the book lays out a roadmap for future study of racialization and the study of race beyond the racial categories of black and white Serving as a guiding point to future research this book will be of interest to all scholars of race and those seeking to understand the ideologies actions interactions structures and social practices associated with racialization This book was originally published as a special issue of *Ethnic and Racial Studies* **Suburban Islam** Justine Howe, 2018 In *Suburban Islam* Justine Howe explores the rise of third spaces created by educated middle class American Muslims to challenge their exclusion from the American mainstream and to enact visions for American Islam different from those they encounter in their local mosques Howe shows how third spaces have shaped not just the development of American Islam but are also reshaping the rich religious landscape of America's suburbs To Be Honest Sarah Beth Kaufman, William G. Christ, Habiba Noor, 2022-03-15 *To Be Honest* is a play script and series of essays reflecting on the ways Muslims are perceived and spoken of in America With funding from a Mellon Foundation grant several professors conducted more than two hundred hours of qualitative interviews in Texas with people across religious and political spectrums Their conversations confirm expected polarizations and reveal new troubling perspectives *To Be Honest* is a documentary theater script born from these interviews which were used to help create monologues that give a face to the nuanced complexity of what is rarely said aloud The monologues touch on non Muslim millennials' understandings of Islam racism's intersection with Islamophobia the fatigue of activist Muslims the impact of intervention in the Middle East on U.S. military veterans feminist readings of the hijab the Trump presidency and more Six essays contextualize the script's underlying themes and provide material for further study In these polarizing times *To Be Honest* illuminates the striking reality that Americans have vastly different experiences with Islam from evangelicals who work to convert Muslims with the

aim of helping them achieve peace to Muslim youth who struggle to make sense of why society dissects their religion Students scholars readers and theatergoers will come away with insights that allow them to move beyond limited views of Islam by listening to and engaging with others To Be Honest is an important script for staging and a valuable tool for dialogue across ideological perspectives Converting to Islam Amy Melissa Guimond,2017-06-16 This text aims to discover the shared lived experiences of white American female converts to Islam in post 9 11 America It explores the increasingly hostile social climate faced by Muslim Americans as well as the spiritual social physical and mental integration of these women into the Muslim American population In the United States rates of conversion to Islam are rapidly increasing alongside Islamophobic sentiment and hate crimes against Muslims For a period of time there was a lull in this negative sentiment However in light of the Paris terror attacks the increased prominence of ISIS ISIL and the influx of refugees from Syria anti Muslim rhetoric is once again on the rise This volume analyzes how a singular collection of female converts have adapted to life in the United States in the shadow of 9 11 *Social Informatics* Steffen Staab,Olessia Koltsova,Dmitry I. Ignatov,2018-09-19 The two volume set LNCS 11185 11186 constitutes the proceedings of the 10th International Conference on Social Informatics SocInfo 2018 held in Saint Petersburg Russia in September 2018 The 30 full and 32 short papers presented in these proceedings were carefully reviewed and selected from 110 submissions They deal with the applications of methods of the social sciences in the study of socio technical systems and computer science methods to analyze complex social processes as well as those that make use of social concepts in the design of information systems **Brown Threat** Kumarini Silva,2016-11-01 What is brown in and beyond the context of American identity politics How has the concept changed since 9 11 In the most sustained examination of these questions to date Kumarini Silva argues that brown is no longer conceived of solely as a cultural ethnic or political identity Instead after 9 11 the Patriot Act and the wars in Iran Iraq and Afghanistan it has also become a concept and indeed a strategy of identification one rooted in xenophobic imperialistic and racist ideologies to target those who do not neatly fit or subscribe to ideas of nationhood Interweaving personal narratives ethnographic research analyses of popular events like the Miss America pageant and films and TV shows such as the Harold and Kumar franchise and Black ish Silva maps junctures where the ideological political and mediated terrain intersect resulting in an appetite for all things brown especially South Asian brown by U S consumers while political and nationalist discourses and legal structures immigration emigration migration outsourcing incarceration conspire to control brown bodies both within and outside the United States Silva explores this contradictory relationship between representation and reality arguing that the representation mediates and manages the anxieties that come from contemporary global realities in which brown spaces like India Pakistan and the Middle East pose key economic security and political challenges to the United States While racism is hardly new what makes this iteration of brown new is that anyone or any group at any time can be branded as deviant as a threat *British Muslims in the Neoliberal Empire* William Baryllo,2025-02-25 More than twenty

years after 9 11 what has changed for Muslims in the West From the occupation of lands the world has entered a new era the occupation of minds State strategies have evolved to offer a dangerous gamble to people from post colonial diasporas remain at the margins or silently blend in for the sake of an illusory liberation From power hungry Muslim politicians in elite private clubs to politically apathetic social media influencers multi million pound neo colonial humanitarian charities Muslim far right sympathisers and Muslim white supremacists this new form of colonialism Metacolonialism has effectively turned the oppressed into the new oppressors Under the promise of financial stability and representation it has effectively put God for sale at the cost of people s culture ethics identity and faith However in the wake of the new Roaring Twenties marked by social justice movements Muslims in Britain have crafted creative responses inspired by their faith in order to resist heal and flourish despite minimal resources and support Informal and independent from institutions they have established pioneering alternatives in the fields of mental health community organizing the protection of the environment heritage the arts and more Since leadership divides they have undertaken a duty of stewardship considering the world and humanity as one ecosystem that one needs to care for future generations This work is both a diagnosis and a toolbook looking at the initiatives that reshape public debates and offer working ideas for building a fair and just society

Muslim American Politics and the Future of US Democracy Edward E. Curtis IV,2019-12-03 Reveals the important role of Muslim Americans in American politics Since the 1950s and especially in the post 9 11 era Muslim Americans have played outsized roles in US politics sometimes as political dissidents and sometimes as political insiders However more than at any other moment in history Muslim Americans now stand at the symbolic center of US politics and public life This volume argues that the future of American democracy depends on whether Muslim Americans are able to exercise their political rights as citizens and whether they can find acceptance as social equals Many believe that over time Muslim Americans will be accepted just as other religious minorities have been Yet Curtis contends that this belief overlooks the real barrier to their full citizenship which is political rather than cultural The dominant form of American liberalism has prevented the political assimilation of American Muslims even while leaders from Eisenhower to Obama have offered rhetorical support for their acceptance Drawing on examples ranging from the political rhetoric of the Nation of Islam in the 1950s and 1960s to the symbolic use of fallen Muslim American service members in the 2016 election cycle Curtis shows that the efforts of Muslim Americans to be regarded as full Americans have been going on for decades yet never with full success Curtis argues that policies laws and political rhetoric concerning Muslim Americans are quintessential American political questions Debates about freedom of speech and religion equal justice under law and the war on terrorism have placed Muslim Americans at the center of public discourse How Americans decide to view and make policy regarding Muslim Americans will play a large role in what kind of country the United States will become and whether it will be a country that chooses freedom over fear and justice over prejudice

Islam and Papal Power in Late Medieval and Early Modern Europe Kate Waggoner Karchner,2025-03-19

Islam and Papal Power in Late Medieval and Early Modern Europe traces the influential history of another book Riccoldo da Montecroce's *Contra legem Sarracenorum*. Around 1301 a Dominican missionary named Riccoldo da Montecroce wrote a treatise on the Qur'an arguing against the validity of the Muslim faith. Over the next two hundred years Europeans read, copied, translated, and circulated Riccoldo's work more than any other text on Islam. This study overviews and contextualizes that popularity in order to analyze Christian understandings of Islam in early modern Europe. Analysing the thirty-four surviving manuscript copies, this book studies the way the text was transcribed, the notes that readers made in the margins, and the contexts in which it was copied. Critically, this book also puts the transmission analysis into the broader context of major European historical developments. This context reveals that *Contra legem* became a tool for Europeans who linked fear of the Ottoman Empire to instability within the Church. Specifically, readers used Riccoldo's descriptions of the dangers of the Qur'an to conflate the Ottoman Empire with a broader Islamic threat to Christian society. Such positioning helped readers to substantiate the divine authority of the western Church and especially the papacy as a bulwark against this threat. This book will be of interest to scholars working on interreligious dialogue and Christian-Muslim relations in medieval and early modern Europe and the Mediterranean. It will appeal to historians of religion, scholars of late medieval and early modern thought, and students of pre and early modern history at the upper undergraduate and graduate levels.
