Ethnic Groups of South Asia and the Pacific James B. Minahan, 2012-08-30 This comprehensive guide to the Pacific and South Asia provides detailed and enlightening information about the many ethnic groups of this increasingly important region of the world. Ideally suited for high school and undergraduate students studying subjects such as anthropology, geography, and social studies, *Ethnic Groups of South Asia and the Pacific* provides clear, detailed, and up-to-date information on each major group in South Asian and Pacific Island countries, including India, Nepal, Indonesia, Pakistan, Singapore, Australia, Tonga, Samoa, and the Solomon Islands. Organized alphabetically by ethnic group, each entry provides an introduction followed by accessible descriptions of the origins, early history, cultural life, political life, and modern history of the ethnicity. Alternate names, major population centers, primary languages, and religions, and other important characteristics of each group are also covered. Beyond being a valuable resource for student research, this book will be enlightening and entertaining for general readers interested in South Asia and the Pacific.

Cultural Analysis and the Navigation of Complexity Lisa Kaye Brandt, 2007 The complexities involved in social dilemmas and ecological troubles today challenge scientists to conduct analyses of cultural phenomena that push the boundaries of disciplines and blur the line between theory and practice. Problems are not so much to be solved as they are to be explained, predicted, and navigated.

Luther P. Gerlach, Ph.D., Professor Emeritus of Anthropology at the University of Minnesota, has exercised immense influence on social science policy and practice to accomplish these challenges. Professor Gerlach is highly regarded within and beyond anthropology for two areas of outstanding research: groundbreaking work on social movements and pioneering studies of local/global environmental conflict, i.e., the conflict between local social, political, and economic control versus global ecological and economic interdependence. This volume's Preface traces Professor Gerlach's intellectual biography, and the peer-reviewed chapters indicate the far-reaching impact he and his research continue to have on academic and applied science. Topics cover theories and methods as well as timely case studies in global climate policy, language, and social movements; environmental and ecosystem management; public debate, environmental justice, and risk construction; complexity theory and organizations; cultural expression and archaic hunting methods; energy use; political economy and witch killings; public health.

Mixing It Wendy Webster, 2018-02-02 During the Second World War, people arrived in Britain from all over the world as troops, war workers, nurses, refugees, exiles, and prisoners of war, chiefly from Europe, America, and the British Empire. Between 1939 and 1945, the population in Britain became more diverse than it had ever been before. Through diaries, letters, and

interviews *Mixing It* tells of ordinary lives pushed to extraordinary lengths Among the stories featured are those of Zbigniew Siemaszko deported by the Soviet Union fleeing Kazakhstan on a horse drawn sleigh and eventually joining the Polish army in Scotland via Iran Iraq and South Africa and Johnny Pohe the first Maori pilot to serve in the RAF who was captured and eventually murdered by the Gestapo for his part in the Great Escape This is the first book to look at the big picture of large scale movements to Britain and the rich variety of relations between different groups When the war ended awareness of the diversity of Britain's wartime population was lost and has played little part in public memories of the war *Mixing It* recovers this forgotten history It illuminates the place of the Second World War in the making of multinational multiethnic Britain and resonates with current debates on immigration **Africa's Gift to the World** W.D.
