**(Neu-) Bewertung von Integrated Assessment Modellen im Kontext des Klimawandels** Sebastian Brun, 2019 Der zehnte Band der vorliegenden Schriftenreihe untersucht die Themenbereiche der Risikobewertung und der intergenerationellen Verteilung der Lasten im Bereich der Konomie des Klimawandels Nach einer Einführung in die Thematik des Klimawandels und der Konomie des Klimawandels wird das gängige Modell erweitert um eine tiefere Analyse in den beiden genannten Bereichen zu erlauben Intensiv werden die Möglichkeit permanenter Schäden und die damit verbundenen Probleme der Pfadabhängigkeit untersucht Zu diesem Zweck werden Monte Carlo Simulationen eingesetzt und die hier ermittelten Strategien dann in einer Kreuzanalyse unter den jeweils anderen Bedingungen getestet **Vierteljahrshefte zur Wirtschaftsforschung** Deutsches Institut für Wirtschaftsforschung, 2005 **Bibliographic Guide to Business and Economics** New York Public Library. Research Libraries, 1990 *Das Schweizer Buch*, 1999 **German books in print**, 1995 **Kredit und Kapital** Werner Ehrlicher, Helmut Lipfert, 1999 Issues in European Integration and Economic Inequalities Alexander Kadow, 2015-04-01 Unequal Europe Jason Beckfield, 2019-02-18 The Euro crisis of 2009 2012 vividly demonstrated that European Union policies matter for the distribution of resources within and between European nation states Throughout the crisis distributive conflicts between the EU's winners and losers worsened and are still reverberating in European politics today In *Unequal Europe* Jason Beckfield demonstrates that there is a direct connection between European integration and the increase in European income inequality over the past four decades He places the recent crisis into a broader sociological political and economic perspective by analyzing how European integration has reshaped the distribution of income across the households of Europe Using individual and household level income survey data combined with macro level data on social policies and case studies of welfare reforms in EU and non EU states Beckfield shows how European integration has re-stratified Europe by simultaneously drawing national economies closer together and increasing inequality among households Explaining how where and why income inequality has changed in the EU *Unequal Europe* answers the question who wins and who loses from European integration European Integration in the World Economy Hans-Jürgen Vosgerau, 2013-04-17 Hans Jtlrgen Vosgerau The world economy has been subjected to extreme changes during the last three years These changes affect not only trade flows financial transfers and movements of people but also the institutional framework The ongoing process of European integration has to be viewed in this global context and that is what the present volume tries to do for six important problem areas viz the field of Money Currency and International Stabilization Federal Tax Systems and the European Community the area of International Factor Mobility the International Debt Problem the Econometrics of International Trade and aspects of International Political Economy In each chapter an effort is made to direct attention to the connections between international economic transactions of various kinds and the political and legal institutions which constitute the organizational framework The 26 contributions are revised versions of papers

originally presented at the Second Konstanz Symposium on International Economics and Institutions which was organized by the Long term Research Programme Sonderforschungsbereich Internationalization of the Economy on October 1 and 2 1990 The majority of contributions are reports on research conducted in the Sonderforschungsbereich during the preceding years and in most cases supplemented by comments from invited guests In addition there are some important papers contributed by colleagues from outside most of whom have close cooperative relations with members of the Sonderforschungsbereich

**Laursen: the political economy pa.** Finn Laursen,1995-07-13      **Limits and Problems of European Integration**

Ernst B. Haas,2014-10-05 by B LANDHEER The Grotius Seminarium has as its purpose the study of international problems under the aspect of living and cooperating in one world Its Conference of May 30 June 2 1961 on Limits and Problems of European integration attempted to view European integration within the framework of this general goal as is somewhat implied in its title The limits of European integration lie in the necessity of fitting it in the wider framework of international cooperation while its problems lie in the various interpretations and concretizations of its own goals about which there are a number of different viewpoints It could be stated that the European is faced with three sets of problems the creation of a more unified world as a global problem the regional integration of Europe and thirdly the continuation of more strictly national interests It is not justified to assume that these three circles of interest are automatically complementary they are often antagonistic and a philosophy of integration would have to arrive at a structural presentation of those various values and of their interrelatedness While it is obviously not possible for a small Conference to give those problems their full weight it is nevertheless hoped that the essays combined in this volume raise a number of relevant questions and contribute to the elaboration of some more concrete problems      For Another Europe Guglielmo Carchedi,2001 In this innovative work

Guglielmo Carchedi argues that only an analysis centered on class as the basic unit of social life with production and distribution of value understood as the bedrock of the economy can throw light on the internal contradictions of European economic integration Two specific themes emerge from this radical approach First familiar topics such as competition and social policy economic and monetary union the Common Agricultural Policy and immigration are treated in an original manner Second subjects usually ignored in the standard textbooks for instance the role of interest groups in the Union's decision making process are shown to be of crucial importance in understanding the economics of the European Union This work therefore provides both an introduction to and a critique of the European project The book's central message however is that another sort of Europe is possible one based on the erosion of economic polarization on the abolition of Europe's imperialist relations with the Third World and on the creation of truly democratic institutions of self determination

**Development in Turbulent Times** Paul Dobrescu,2019 This open access book explores the most recent trends in the EU in terms of development progress and performance Ten years after the 2008 economic crisis and amidst a digital revolution that is intensifying the development race the European Union and especially Central and Eastern Europe are

ardently searching for their development priorities Against this background by relying on a cross national perspective the authors reflect upon the developmental challenges of the moment such as sustainable development reducing inequality ensuring social cohesion and driving the digital revolution They particularly focus on the relation between the less developed Eastern part of the EU and its more developed Western counterpart and discuss the consequences of this development gap in detail Lastly the book presents a range of case studies from different areas of governance such as economy and commerce health services education migration and public opinion in order to investigate the trends most likely to impact the European Union s medium and long term development      Territorial and Social Inequalities in Europe Martin Heidenreich,2023-10-29

This book examines social inequalities in Europe especially those caused by economic factors It starts with the paradox of European inequality where on the one hand even total income inequality in Europe is significantly lower than in most parts of the world but on the other Europe is also characterised by profound and durable inequalities within the continent It discusses inequalities caused by the exclusion of marginalised groups from the labour market with considerable and sometimes increasing differences between central and peripheral regions pronounced wealth and labour market inequalities and significant rates of persistent poverty deprivation educational poverty low wages and unemployment The book also discusses broader territorial inequalities which are the basis for divisions between Northern and Southern Europe East and West between qualified and unqualified employees younger and older people men and women and migrants and non migrants The book raises questions about the winners and losers of the social transformations linked to the introduction of the Euro the Eastern enlargement of the EU and the financial and Eurozone crises It is based on a comprehensive analysis of a European wide microdata set on income and living conditions EU SILC The empirical research material which is the first to deploy this data in a comprehensive manner consists of detailed empirical analyses of social divisions and Europeanisation processes in 30 European countries It analyses and explains the transformation of the previously dominant national spaces into a European social space This topical book is of interest to academics and students in the fields of sociology and comparative social sciences along with those studying European regional geography anthropology international relations and international politics      **Essays in European Integration and Economic Inequalities** Alexander Hendrik Kadow,2012

**Exploring Inequality in Europe** Martin Heidenreich,2016-06-24 Europe has become a dominant frame for the generation regulation and perception of social inequalities This trend was solidified by the current economic crisis which is characterized by increasing inequalities between central and peripheral countries and groups By analysing the double polarization between winners and losers of the crisis the segmentation of labour markets and the perceived quality of life in Europe this book contributes to a better understanding of patterns and dynamics of inequality in an integrated Europe
