Knossos And The Prophets Of Modernism:

Knossos and the Prophets of Modernism Cathy Gere, 2009-05-15 In the spring of 1900 British archaeologist Arthur Evans began to excavate the palace of Knossos on Crete bringing ancient Greek legends to life just as a new century dawned amid far reaching questions about human history art and culture With *Knossos and the Prophets of Modernism* Cathy Gere relates the fascinating story of Evans's excavation and its long term effects on Western culture After the World War I left the Enlightenment dream in tatters the lost paradise that Evans offered in the concrete labyrinth pacifist and matriarchal pagan and cosmic seemed to offer a new way forward for writers artists and thinkers such as Sigmund Freud James Joyce Giorgio de Chirico Robert Graves and Hilda Doolittle Assembling a brilliant talented and eccentric cast at a moment of tremendous intellectual vitality and wrenching change Cathy Gere paints an unforgettable portrait of the age of concrete and the birth of modernism

Material Spirituality in Modernist Women's Writing Elizabeth Anderson, 2020-03-19 For Virginia Woolf H D Mary Butts and Gwendolyn Brooks things mobilise creativity traverse domestic public and rural spaces and stage the interaction between the sublime and the mundane Ordinary things are rendered extraordinary by their spiritual or emotional significance and yet their very ordinariness remains part of their value This book addresses the intersection of spirituality things and places both natural and built environments in the work of these four women modernists From the living pebbles in Mary Butts's memoir to the pencil sought in Woolf's urban pilgrimage in *Street Haunting* the Christmas decorations crafted by children in H D's autobiographical novel *The Gift* and Maud Martha's love of dandelions in Brooks's only novel things indicate spiritual concerns in these writers' work Elizabeth Anderson contributes to current debates around materiality vitalism and post secularism attending to both mainstream and heterodox spiritual expressions and connections between the two in modernism How we value our spaces and our world being one of the most pressing contemporary ethical and ecological concerns this volume contributes to the debate by arguing that a change in our attitude towards the environment will not come from a theory of renunciation but through attachment to and regard for material things

[Troy on Display](#) Abigail Baker, 2019-10-03 This book explores what visitors saw at the Trojan exhibition and why its contents including treasure plain pottery and human remains captured imaginations and divided opinions When Schliemann's Trojan collection was first exhibited in 1877 no one had seen anything like it Schliemann claimed these objects had been owned by participants in the Trojan War and that they were tangible evidence that Homer's epics were true Yet these objects did not reflect the heroic past imagined by Victorians and a fierce controversy broke out about the collection's value and significance Schliemann invited Londoners to see the very unclassical objects on display as the roots of classical culture Artists poets historians race theorists bankers and humourists took up this challenge but their conclusions were not always to Schliemann's liking Troy's appeal lay in its materiality visitors could apply analytical techniques from aesthetic appreciation to skull measuring to the collection and draw their own conclusions This book argues for a deep examination of museum exhibitions

as a constructed spatial experience which can transform how the past is seen This new angle on a famous archaeological discovery shows the museum as a site of controversy where hard evidence and wild imagination came together to form a lasting image of Troy *The Heraldic World of Lawrence Durrell* Bruce Redwine,2022-03-02 Lawrence Durrell s position as one of the twentieth century s leading novelists is continually being enlarged and revised This book presents unusual and unorthodox explorations of Alexandria the city at the heart of Durrell s writing his family relationships his biographer Michael Haag and his affinity with such diverse writers as Rilke and Virgil In particular it offers an insight into Durrell s emotions and sensibilities in elaborating his Sicilian Carousel and a penetrating and totally unique reading of Durrell s Alexandria Quartet in the light of the art and landscape of ancient Egypt *Authorial Ethics* Robert Hauptman,2011-02-22 *Authorial Ethics* is a normative study that deals with the many ways in which writers abuse their commitment to truth and integrity It is divided by academic discipline and includes chapters on journalism history literature art psychology and science among others Robert Hauptman offers generalizations and theoretical remarks exemplified by specific cases Two major abrogations are inadvertent error and purposeful misconduct which is subdivided into falsification fabrication and plagiarism All of these problems appear in most disciplines although their negative impact is felt most potently in biomedical research and publication Professor Mary Lefkowitz the classicist provides an incisive foreword *Cretomania* Alexandre Farnoux,2017-07-05 Since its rediscovery in the early 20th century through spectacular finds such as those by Sir Arthur Evans at Knossos Minoan Crete has captured the imagination not only of archaeologists but also of a wider public This is shown among other things by its appearance and uses in a variety of modern cultural practices from the innovative dances of Sergei Diaghilev and Ted Shawn to public and vernacular architecture psychoanalysis literature sculpture fashion designs and even neo pagan movements to mention a few examples *Cretomania* is the first volume entirely devoted to such modern responses to and uses of the Minoan past Although not an exhaustive and systematic study of the reception of Minoan Crete it offers a wide range of intriguing examples and represents an original contribution to a thus far underexplored aspect of Minoan studies the remarkable effects of Minoan Crete beyond the narrow boundaries of recondite archaeological research The volume is organised in three main sections the first deals with the conscious unconscious and coincidental allusions to Minoan Crete in modern architecture and also discusses archaeological reconstructions the second presents examples from the visual and performing arts as well as other cultural practices illustrating how Minoan Crete has been enlisted to explore and challenge questions of Orientalism religion sexuality and gender relations the third focuses on literature and shows how the distant Minoan past has been used to interrogate critically more recent Greek history *The Ecstatic and the Archaic* Paul Bishop,Leslie Gardner,2018-03-15 The word archaic derives from the Greek *arkhaios* which in turn is related to the word *arch* meaning principle origin or cause the notion of ecstasy or *ekstasis* implies standing outside or beyond oneself a self transcendence How these two concepts are articulated and co implicated constitutes the core question underlying this

edited collection which examines both the present day and antiquity in order to trace the insistent presence of the ecstatic amid the archaic Presented in three parts the contributors to this diverse book take the concept of the archaic in an entirely new direction Part I Ecstasy and the psychological covers topics including Jung Freud ancient psychotherapy desire and theatre Part II Ecstatic archaic history considers Ludwig Klages Orestes and Dionysus Finally Part III Ancient ecstatic in other worlds examines Luo Guanzhong's Three Kingdoms and Enki at Eridu The collection offers a distinctive contextualisation of the dimension of the archaic in relation to the ecstatic experience The Ecstatic and the Archaic will appeal to readers interested in the relationship between ancient and postmodern worlds and in how the past manifests itself in the present It will be of great interest to academics and students of Jungian and post Jungian ideas classical religions and the history of ideas as well as practitioners of analytical psychology and psychoanalysis

Ruin Memories Bjørnar Olsen, Þóra Pétursdóttir, 2014-04-24 Since the nineteenth century mass production consumerism and cycles of material replacement have accelerated increasingly larger amounts of things are increasingly victimized rapidly and made redundant At the same time processes of destruction have immensely intensified although largely overlooked when compared to the research and social significance devoted to consumption and production The outcome is a ruin landscape of derelict factories closed shopping malls overgrown bunkers and redundant mining towns a ghostly world of decaying modern debris normally omitted from academic concerns and conventional histories The archaeology of the recent or contemporary past has grown fast during the last decade This development has been concurrent with a broader popular artistic and scholarly interest in modern ruins in general *Ruin Memories* explores how the ruins of modernity are conceived and assigned cultural value in contemporary academic and public discourses reassesses the cultural and historical value of modern ruins and suggests possible means for reaffirming their cultural and historic significance Crucial for this reassessment is a concern with decay and ruination and with the role things play in expressing the neglected unsuccessful and ineffable Abandonment and ruination is usually understood negatively through the tropes of loss and deprivation things are degraded and humiliated while the information knowledge and memory embedded in them become lost along the way Without even ignoring its many negative and traumatizing aspects a main question addressed in this book is whether ruination also can be seen as an act of disclosure If ruination disturbs the routinized and ready to hand to what extent can it also be seen as a recovery of memory as exposing meanings and presences that perhaps are only possible to grasp at second hand when no longer immersed in their withdrawn and useful reality Anybody interested in the archaeology of the contemporary past will find *Ruin Memories* an essential guide to the very latest theoretical research in this emerging field of archaeological thought

Influential Buildings in History Simon Unwin, 2016-07-07 Even the most inventive and revolutionary architects of today owe debts to the past often to the distant past when architecture really was being invented for the first time Architects depend on their own imaginations for personal insights and originality but their ideas may be stimulated consciously or subliminally by particularly powerful buildings from history The Ten Most Influential Buildings in History Architecture s Archetypes identifies ten architectural archetypes that have been sources of inspiration for architects through the centuries Each archetype is analysed through distinctive examples following the methodology established by the author in his previous books The variety of lines of enquiry each archetype has provoked in latter day architects are then explored by analysing their work to reveal ideas inspired by those earlier buildings Archetypes have a timeless relevance In adopting this approach The Ten Most Influential Buildings in History is as pertinent to contemporary practice as it is to understanding buildings from antiquity and offers insights into the bridges of influence that can operate between the two
