Kord,2016-07-25 Zombies werewolves and chainsaw wielding maniacs are tried and true staples of horror films But none can match the visceral dread evoked by a child with an innocent face and a diabolical stare Cinema s evil children attack our cherished ideas of innocence and our innocent bystander status as the audience A good horror film is a scary ride a devil child movie is a guilt trip This book examines 24 international films with discussions of another 100 that in effect indict viewers for crimes of child abuse and abandonment greed social and ecological negligence and political and war crimes and for persistent denial of responsibility for them all For 75 years evil children have ritually rebuked audiences and in playing on our guilt established a horror subgenre that might be described as a blood spattered rampage on an ethical mission *Historical Dictionary of Horror Literature* Mark A.

Empire of Sacrifice Jon Pahl,2010-01-05 It is widely recognized that American culture is both exceptionally religious and exceptionally violent Americans participate in religious communities in high numbers yet American citizens also own guns at

rates far beyond those of citizens in other industrialized nations Since 9 11 United States scholars have understandably discussed religious violence in terms of terrorist acts a focus that follows United States policy Yet according to Jon Pahl to identify religious violence only with terrorism fails to address the long history of American violence rooted in religion throughout the country's history In essence Americans have found ways to consider blessed some very brutal attitudes and behaviors both domestically and globally In *Empire of Sacrifice* Pahl explains how both of these distinctive features of American culture work together by exploring how constructions along the lines of age race and gender have operated to centralize cultural power across American civil or cultural religions in ways that don't always appear to be religious at all Pahl traces the development of these forms of systemic violence throughout American history using evidence from popular culture including movies such as *Rebel without a Cause* and *Reefer Madness* and works of literature such as *The Narrative of the Life of Frederick Douglass* and *The Handmaid's Tale* to illuminate historical events Throughout Pahl focuses an intense light on the complex and durable interactions between religion and violence in American history from Puritan Boston to George W Bush's Baghdad

The Literary Monster on Film Abigail Burnham Bloom, 2014-01-10 Many monsters in Victorian British novels were intimately connected with the protagonists and representative of both the personal failings of a character and the failings of the society in which he or she lived By contrast more recent film adaptations of these novels depict the creatures as arbitrarily engaging in senseless violence and suggest a modern fear of the uncontrollable This work analyzes the dichotomy through examinations of Shelley's *Frankenstein* Stoker's *Dracula* H Rider Haggard's *She* Stevenson's *Strange Case of Dr Jekyll and Mr Hyde* and Wells's *The Island of Dr Moreau* and consideration of the 20th century film adaptations of the works

[Cultural Crossroads in the Ancient Novel](#) Marília P. Futre Pinheiro, David Konstan, Bruce Duncan MacQueen, 2017-12-04 The protagonists of the ancient novels wandered or were carried off to distant lands from Italy in the west to Persia in the east and Ethiopia in the south the authors themselves came or pretended to come from remote places such as Aphrodisia and Phoenicia and the novelistic form had antecedents in a host of classical genres These intersections are explored in this volume Papers in the first section discuss mapping the world in the novels The second part looks at the dialogical imagination and the conversation between fiction and history in the novels Section 3 looks at the way ancient fiction has been transmitted and received Space as the locus of cultural interaction and exchange is the topic of the fourth part The fifth and final section is devoted to character and emotion and how these are perceived or constructed in ancient fiction Overall a rich picture is offered of the many spatial and cultural dimensions in a variety of ancient fictional genres

American Horror Fiction and Class David Simmons, 2017-09-15 In this book Simmons argues that class as much as race and gender played a significant role in the development of Gothic and Horror fiction in a national context From the classic texts of Edgar Allan Poe and Nathaniel Hawthorne right through to contemporary examples such as the novels of Stephen King and Stephenie Meyer's *Twilight* Series class remains an ever present though understudied element This study

will appeal to scholars of American Studies English literature Media and Cultural Studies interested in class representations in the horror genre from the nineteenth century to the present day
