Restoring Your Historic House Scott T Hanson, 2023-06-01 Although there are other books about renovating old houses this is the first that prioritizes the identification and preservation of the historic character defining features of a house as a starting point in the process. That is the purpose of this book to describe and illustrate a best practices approach for updating historic homes for modern life in ways that do not attempt to turn an old house into a new one. The book also suggests many ways to save money in the process without settling for cheap or inappropriate solutions. Scott Hanson is a historic building preservation professional and has 40 years experience rehabilitating historic houses. He has illustrated this authoritative book with hundreds of step by step photos illustrations charts and decision making guides. Interspersed throughout are photo essays of 13 restored historic houses representing a range of periods and architectural styles Italianate Victorian Queen Anne Federal Colonial Colonial Revival Greek Revival Ranch Adobe Craftsman Shingle and Rustic. With interior and exterior photography by David Clough these multi page features show what can be achieved when a historic home is renovated with a desire to preserve or restore as much historic character as possible.
