IRRECONCILABLE DIFFERENCES Geoff Cook,2022-07-18 The surprise news of Caroline and Dominic s impending divorce has provoked a variety of contrasting reactions from family members Expressions of amazement and regret could have been expected but there are those who take a more sceptical and sanguine view Caroline s father Len a retired police inspector swears he saw it coming After all his daughter was always too good for the man she married He has told her so on numerous occasions She just needed to look at Charlie her father in law to see that Dominic was the unfortunate flawed offspring of dysfunctional parents For former used car trader Charlie the prospect of that devious snob Len contriving to restrict his access to the grandchildren is just too much to stomach The arrogant copper has always gone out of his way to demonstrate his superiority and belittle Charlie s Cockney background and life choices Time for a reckoning Over the years the pent up hatred of the two men for each other has been contained under a veneer of civility As the truth behind the break up of the marriage surfaces their paranoia takes a sinister turn Ignoring the pleas of their long suffering wives both men seek to gain the upper hand by involving family and friends in a clandestine attempt to dig up dirt on each other But raking over the past takes an unexpected twist as their quest to find skeletons in the cupboards uncovers treacherous liaisons awakes dormant emotions and rekindles old animosities Chaos comes thick and fast when paper tigers gain their stripes and innocent people start dying

California. Court of Appeal (1st Appellate District). Records and Briefs California (State)., *Joint Fact-Finding in Urban Planning and Environmental Disputes* Masahiro Matsuura, Todd Schenk, 2016-10-04 The days of rationalist scientific management and deference to official data are behind us The credibility of experts and the information they provide are regularly challenged officials are routinely provided with conflicting sets of facts as they plan and make decisions and decision makers and stakeholders alike are largely skeptical that technical information will adequately account for the various interests and concerns and lead to the right outcomes They struggle to reconcile technical information with other forms of knowledge and differing interests priorities and perspectives Issues like climate change are complicating matters even further as scientists and technicians must increasingly acknowledge the uncertainty and potential fallibility of their findings and highlight the dynamic nature of the systems they are explaining This book examines how groups looking to plan and make decisions in any number of areas can wade through the imperfect and often contradictory information they have to make fair efficient wise and well informed choices It introduces an emerging and very promising approach called joint fact finding JFF Rather than each stakeholder group marshaling the set of facts that best advance their respective interests and perspectives while discrediting the contradictory facts others provide groups are challenged to collaboratively generate

shared sets of facts that all parties accept This book introduces readers to the theory of JFF the value it can provide and how they can adopt this approach in practice It brings together writings from leading practitioners and scholars from around the world that are at the forefront of the JFF approach to science intensive policymaking urban planning and environmental dispute resolution The first set of chapters outlines the concept of JFF and situates it within other bodies of theory and practice The second set of case based chapters elucidates how JFF is being applied in practice This book delivers a new perspective to scholars in the field of public policy urban planning environmental studies and science and technology studies as well as public officials technical experts policy consultants and professional facilitators *Ethnic Bargaining* Erin K.

Jenne,2014-05-30 *Ethnic Bargaining* introduces a theory of minority politics that blends comparative analysis and field research in the postcommunist countries of East Central Europe with insights from rational choice Erin K Jenne finds that claims by ethnic minorities have become more frequent since 1945 even though nation states have been on the whole more responsive to groups than in earlier periods Minorities that perceive an increase in their bargaining power will tend to radicalize their demands she argues from affirmative action to regional autonomy to secession in an effort to attract ever greater concessions from the central government The language of self determination and minority rights originally adopted by the Great Powers to redraw boundaries after World War I was later used to facilitate the process of decolonization Jenne believes that in the 1960s various ethnic minorities began to use the same discourse to pressure national governments into transfer payments and power sharing arrangements Violence against minorities was actually in some cases fueled by this politicization of ethnic difference Jenne uses a rationalist theory of bargaining to examine the dynamics of ethnic cleavage in the cases of the Sudeten Germans in interwar Czechoslovakia Slovaks and Moravians in postcommunist Czechoslovakia the Hungarians in Romania Slovakia and Vojvodina and the Albanians in Kosovo Throughout she challenges the conventional wisdom that partisan intervention is an effective mechanism for protecting minorities and preventing or resolving internal conflict **California. Court of Appeal (2nd Appellate District). Records and Briefs California (State)., *The New American Zionism* Theodore Sasson,2023-11-21 In *The New American Zionism* Theodore Sasson challenges the conventional view of waning American Jewish support for Israel Instead he shows that we are in the midst of a shift from a mobilization approach which first emerged with the new state and focused on supporting Israel through big centralized organizations to an engagement approach marked by direct and personal relations with the Jewish state Today growing numbers of American Jews travel to Israel consume Israeli news and culture and focus their philanthropy and lobbying in line with their personal political viewpoints As a result American Jews find Israel more personally meaningful than ever before Yet at the same time their ability to impact policy has diminished as they no longer speak with a unified voice **(Un)avoidable Conflict in Ukraine** Cristian Nitoiu,2025-06-26 Taking a conceptual approach to European Russian relations in the post Cold War era this book

traces how each side's ideal self came into conflict with fault lines in international politics Russia's 2022 full scale invasion of Ukraine is not only a symptom of conflict taking over the European continent but also a point of no return that will be difficult to roll back Could the state of conflict on the European continent have been avoided To understand the nature and evolution of conflict with Russia this book presents a theoretically informed discussion of the way relations between the European Union EU and Russia deteriorated beyond repair during the more than three decades since the collapse of the Soviet Union First the book develops the concept of ideal self of states and international organisations like the EU which posits that a series of ideal perceptions about how the self should act in the world order drives the behaviour of states and their policymakers Second the book turns to the study of fault lines or spaces of divergence in the world order that harbour the potential for conflict With these two theoretical toolkits the book shows how leaders in the EU and Russia by February 2022 came to view conflict as a feasible preferable and possibly the only option available to them Even though neither the EU nor Russia had desired conflict both made little effort to avoid it As a result the European continent has sleepwalked into conflict with the potential for that conflict to spill over from Europe and escalate beyond a point of no return between the West and its global challengers *Informational Bulletin* Wisconsin.
