**Recorded Music in American Life** William Howland Kenney, 1999-07-08 Have records compact discs and other sound reproduction equipment merely provided American listeners with pleasant diversions or have more important historical and cultural influences flowed through them Do recording machines simply capture what's already out there or is the music somehow transformed in the dual process of documentation and dissemination How would our lives be different without these machines Such are the questions that arise when we stop taking for granted the phenomenon of recorded music and the phonograph itself Now comes an in depth cultural history of the phonograph in the United States from 1890 to 1945 William Howland Kenney offers a full account of what he calls the 78 rpm era from the formative early decades in which the giants of the record industry reigned supreme in the absence of radio to the postwar proliferation of independent labels disk jockeys and changes in popular taste and opinion By examining the interplay between recorded music and the key social political and economic forces in America during the phonograph's rise and fall as the dominant medium of popular recorded sound he addresses such vital issues as the place of multiculturalism in the phonograph's history the roles of women as record player listeners and performers the belated commercial legitimacy of rhythm and blues recordings the hit record phenomenon in the wake of the Great Depression the origins of the rock and roll revolution and the shifting place of popular recorded music in America's personal and cultural memories Throughout the book Kenney argues that the phonograph and the recording industry served neither to impose a preference for high culture nor a degraded popular taste but rather expressed a diverse set of sensibilities in which various sorts of people found a new kind of pleasure To this end Recorded Music in American Life effectively illustrates how recorded music provided the focus for active recorded sound cultures in which listeners shared what they heard and expressed crucial
