Irrungen Wirungen German Edition:

Fontane's Landscapes James N. Bade, 2009 Aimed primarily at English speaking undergraduate students of German literature but also with graduate students and a general readership in mind this book deals with the literary landscapes in Theodor Fontane's best known novels *Schach von Wuthenow* 1882 *Irrungen Wirungen* 1888 and *Effi Briest* 1895 It is an illuminating introduction to one of Europe's finest novelists It is an excellent idea to guide readers through the novels by way of focusing on the landscapes James Bade brings an enormous amount of material into the discussion and is always detailed and precise The book reads very well and enriches the Fontane literature publisher website *Theodor Fontane and the European Context*, 2021-12-28 On the centenary of Fontane's death and at the turn of the century these essays take a new look at this supreme chronicler of Prussia and of the Germany that emerges after 1871 Written by scholars from different countries and disciplines they focus on novels and theatre reviews from the perspectives of philosophy sociology comparative literature and translation theory and in the contexts of topography and painting Connections and crosscurrents emerge to reveal new aspects of Fontane's poetics and to produce contrasting but complementary readings of his novels He appears in the company of predecessors and contemporaries such as Scott Thackeray Saar Ibsen Turgenev but also in that of writers he has rarely if ever been seen beside such as E T A Hoffmann Stendhal Trollope Henry James and Edith Wharton Beckett and Faulkner The historical novel and the social position of women are each a recurring focus of interest Fontane emerges as receptive to other voices as a precursor of developments in modern narrative and confirmed as the novelist who brings the nineteenth century German novel closest to the broad traditions of European realism **The Changing Image of Theodor Fontane** Helen Chambers, 1997 Wide ranging survey of the criticism devoted to Theodor Fontane with particular emphasis on more recent theoretical trends This study of the literary scholarship on Fontane's narrative works is the first to present a systematic review of the ever growing body of criticism on Germany's major realist novelist Significant developments in Fontane criticism are traced in historical context from their beginnings in contemporary commentary to the present day The author places special emphasis on scholarship since 1980 analysing the influence of new literary critical trends in this period she also considers the effect upon traditional literary criticism of feminism psychoanalysis and comparatist approaches and the fresh developments in reception history translation and media studies *The Oxford Guide to Literature in English Translation* Peter France, 2000 Translation has been a crucial process in world culture over the past two millennia and more In the English speaking cultures many of the most important texts are translations from Homer to Beckett the Bible to Freud Although recent years have seen a boom in translation studies there has been no comprehensive yet convenient guide to this essential element of literature in English Written by eminent scholars from many countries the Oxford Guide to Literature in English Translation meets this need and will be essential reading for all students of English and comparative literature It highlights the place of translation in our culture encouraging awareness of the issues raised making the translator more

visible Concentrating on major writers and works it covers translations out of many languages from Greek to Korean from Swahili to Russian For some works e g Virgil s Aeneid which have been much translated the discussion is historical and critical showing how translation has evolved over the centuries and bringing out the differences between versions Elsewhere with less familiar literatures the Guide examines the extent to which translation has done justice to the range of work available The Guide is divided into two parts Part I contains substantial essays on theoretical questions a pioneering outline of the history of translation into English and discussions of the problems raised by specific types of text e g poetry oral literature The second much longer part consists of entries grouped by language of origin some are devoted to individual texts e g the Thousand and One Nights or writers e g Ibsen Proust but the majority offer a critical overview of a genre e g Chinese poetry Spanish Golden Age drama or of a national literature e g Hungarian Scottish Gaelic There is a selective bibliography for each entry and an index of authors and translators

The Stechlin Theodor Fontane, 1995 Theodor Fontane 1819 98 widely regarded as Germany s most significant novelist between Goethe and Thomas Mann pioneered the German novel of manners and upper class society following a trend in European fiction of the period The Stechlin is Fontane s last book and his political testament Like Effi Briest his great work on the place of women in Bismarck s empire it is set at the apex of the Wilhelmine era both in Berlin and on the estate of a Prussian Junker on the shores of Lake Stechlin It is a significant historical and cultural document probably the finest chronicle of the life style of the German upper classes in the late nineteenth century Fontane portrays the best in the life and ways of the passing Prussian aristocrats while describing his hopes for the future of Germany and its nobility which were never to be fully realized Although this novel has been translated into many languages it has never before been available in English this edition thus fills an important gap in the significant works of European literature accessible to English readers

Enumerations Andrew Piper, 2018-08-29 For well over a century academic disciplines have studied human behavior using quantitative information Until recently however the humanities have remained largely immune to the use of data or vigorously resisted it Thanks to new developments in computer science and natural language processing literary scholars have embraced the quantitative study of literary works and have helped make Digital Humanities a rapidly growing field But these developments raise a fundamental and as yet unanswered question what is the meaning of literary quantity In Enumerations Andrew Piper answers that question across a variety of domains fundamental to the study of literature He focuses on the elementary particles of literature from the role of punctuation in poetry the matter of plot in novels the study of topoi and the behavior of characters to the nature of fictional language and the shape of a poet's career How does quantity affect our understanding of these categories What happens when we look at 3 388 230 punctuation marks 1 4 billion words or 650 000 fictional characters Does this change how we think about poetry the novel fictionality character the commonplace or the writer's career In the course of answering such questions Piper introduces readers to the analytical building blocks of computational text analysis and brings them to bear on fundamental concerns of literary scholarship This book will be essential reading for anyone interested in Digital Humanities and the future of literary study

Theodor Fontane: The Major Novels Alan Bance, 1982 In this 1982 book Professor Bance sets the novels of Theodor Fontane in the context of nineteenth century Europe in order to demonstrate that his oeuvre can be seen in terms of a tension between a desire to present the facts and a desire to assert some transcendent poetic truth

Perspectives on Literature and Translation Brian Nelson, Brigid Maher, 2013-10-15 This volume explores the

relationship between literature and translation from three perspectives the creative dimensions of the translation process the way texts circulate between languages and the way texts are received in translation by new audiences The distinctiveness of the volume lies in the fact that it considers these fundamental aspects of literary translation together and in terms of their interconnections Contributors examine a wide variety of texts including world classics poetry genre fiction transnational literature and life writing from around the world Both theoretical and empirical issues are covered with some contributors approaching the topic as practitioners of literary translation and others writing from within the academy International Guide to Literature on Film Tom Costello, 1994 A research tool for students of literature film and media studies with a listing of some 7 500 film treatments of literature done between 1930 and 1990 worldwide An alphabetical author index provides form of work nationality literary and film titles publication date and director The film ind The German People Robert Harry Lowie, 1980 The Modern German Novel Harvey Waterman Hewett-Thayer, 1924 *Space in Theodor Fontane's Works* Michael James White, 2012 The novels of Theodor Fontane 1819 1898 Germany's most important Realist have long been appreciated for the symbolism of their represented worlds In this study Michael White examines the significance of space and spatial experience across Fontane's oeuvre providing analyses of non fiction prose and less well known novels alongside major works and poetry The study reveals not only a complex and varied spatial symbolism but also that space itself is a thematic concern in Fontane's writing His texts portray human beings relationships with their worlds and how and to what end they invest their environment with meaning Fontane's novels and travel writings emerge as profoundly reflexive discourses on art and its function for the individual Michael J White completed his Ph D at St Andrews and now teaches German at the Institut de la formation des ma tres Universit d Artois
