**Is Voting for Young People?** Martin P. Wattenberg, 2020-04-08 In 2016 Hillary Clinton managed to win the Democratic nomination despite losing young voters to Bernie Sanders by a margin of 73 to 26 percent The fact that senior citizens were four times more likely to vote in the primaries than young people enabled her to survive her lack of youth appeal But in the general election Clinton's problems with young people turned into her Achilles heel Young people failed to come out to vote as much as she needed or to support her in sufficient numbers when they did vote What will happen in 2020 another history making election Already in late 2019 journalists were referring to the generation gap as the most important divide among Democratic voters Is Voting for Young People explores the reasons why young people are less likely to follow politics and vote in the United States as well as in many other established democracies no matter who the candidates are or what the issues may be This brief accessible and provocative book suggests ways of changing that New to the Fifth Edition For the first time since its original 2006 publication the entire text has been updated with the most recent available data and analysis A new chapter has been added Young People and Politics in the Trump Era New chapter opening vignettes illustrate one of the key points in each chapter *The Routledge Handbook of Elections, Voting Behavior and Public Opinion* Justin

dynamics of non conventional forms of civic and political activism this volume attempts to understand the impact of non conventional forms of political participation on voting behaviour The internal domestic conditions of the country as well as its role in the international arena have dramatically changed since 2013 and are constantly evolving due to the domestic societal and political cleavages and the regional problems in the Middle East Yet the papers in the book reflect upon the significance of occupygezi nowadays demonstrating not only its importance in questioning the link between the patrimonial state and its citizens but also for stimulating participatory behaviours The chapters originally published as a special issue in Turkish Studies

Young People's Voting Behaviour in Europe Nicola Maggini, 2016-10-31 This book uses various concepts of age to examine young people's voting behaviour in six European countries between 1981 and 2000 It addresses questions such as what are the determinants of voting choices among young people and to what extent are these factors different from those of adults Through an innovative approach aimed at studying party choice with a strong empirical orientation the author argues that age is less important in influencing voting choices than having been young and socialized to politics in a given historical period Ultimately values and political factors explain young people's voting choices more than social identities which marks a change from previous generations This book will appeal to students and scholars in comparative politics electoral behaviour party politics and political sociology
