- Try This: Turn off location tracking for apps or devices that don't need it.

Tip #3: Investigate Privacy Settings on Internet Connected Devices

- Review the privacy settings on apps and games together. Make sure you know what information is being shared and limit it to only what's necessary.
- Try This: Visit [Google's Safety Center](https://www.google.com/safetycenter/) to learn about safely navigating the internet.
- <https://www.google.com/safetycenter/>

Tip #4: Identify and Ignore Clickbait

- Help kids recognize and avoid online quizzes, clickbait, and anything that requests unnecessary personal information. Protecting privacy and online security is essential.
- Try This: Visit [CyberNews](https://www.cybernews.org/) to learn how to spot fake news and online traps.

Tip #5: Review and Update Passwords

- Help create strong, unique passwords that combine phrases, numbers, and special characters. Teach them to **keep passwords private** and update them regularly.
- Try This: Test the strength of passwords using [How Secure is My Password?](https://www.security.org/how-secure-is-my-password/)
- <https://www.security.org/how-secure-is-my-password/>

Tip #6: Taking the Next Step

- Post these tips in a visible place at home.
- Revisit these tips whenever you use a new app, website, or device.
