TO OUR CUSTOMER

Thank you for purchasing an ISEKI tractor.

This operator's manual provides the information necessary for operating and maintaining your tractor safely and properly.

The contents are mainly composed of the following 2 items:

Safety instructions: Essential items which you should observe while operating the tractor.

Technical instructions: Items which are necessary to operate, adjust and maintain the tractor properly.

Before starting to operate the machine for the first time, you should read this manual thoroughly and carefully until you are sufficiently familiar with the operation in order to do jobs safely and properly. The manual should be regarded as part of the tractor and should be kept in a handy place so you can refer to it when required. You should refer to it from time to time to refresh your understanding of the machine.

Your dealer has performed the pre-delivery service on your new machine. They will discuss with you the operating and maintenance instructions given and instruct you in the proper and varied applications of this machine. Call on them when you have a question, or need equipment related to the use of your tractor.

Paragraphs in the manual and labels on the machine are of great importance about safe operation to avoid accidents. Always keep precautions in mind and follow them during operation.

**Be sure to wear
personal protective equipment
during operation**

In some of the illustrations used in this operator's manual, guards may have been removed for explanation. Never operate with these panels and guards removed. If the removal of a shield is necessary to make a repair, it must be replaced before operation.

If you use a trailer, use a proper one which suits your tractor. Improper trailer may cause serious accidents. Never attempt to haul beyond the tractor's capacity.

Follow strictly the instructions outlined in the operator's manual for the tractor or trailer unless all instructions have been followed.

All information, illustrations, and specifications contained in this manual are based on information available at the time of publication. The right is reserved to make changes without notice.
