Overcoming Orientalism Tamara Sonn, 2021-05-28 Since John Esposito published his first book nearly 40 years ago he has been guiding readers beyond misleading and dangerous stereotypes of Muslims. The essays in this volume highlight the contributions of scholars from a variety of disciplines who like Esposito present Islam as a multi-faceted and dynamic tradition embraced by communities in globally interconnected but substantially diverse contexts over the centuries.

Understanding World Religions David Whitten Smith, Elizabeth Geraldine Burr, 2014-08-21 *Understanding World Religions* introduces students to major worldviews including Hindu, Buddhist, Muslim, Jewish, Christian, Native American, and Marxist through the lens of justice and peace. The second edition has been updated and revised throughout. After an introduction to key themes in studying world religion, chapters help students explore major traditions today. Each chapter takes a similar approach, examining several dimensions of each tradition: experiential and emotional, social and institutional, narrative or mythic, doctrinal and philosophical, practical and ritual, and ethical and legal. Chapters feature profiles of major peacemakers or groups to bring the traditions to life. Profiles range from Gandhi and Martin Luther King to Thich Nhat Hanh and Dorothy Day. Further chapters explore liberation theologies, active nonviolence, and just war theory. The second edition features a broader framework than the first edition and includes new material on non-religious ethical norms, Islamophobia, colonial evangelization, religion in China, and an updated examination of the Israel-Palestine conflict. *Understanding World Religions* remains a powerful introduction to major worldviews with an emphasis on practical connections to peace and justice.

The Fires of Spring Shelly Culbertson, 2016-04-19 Turkey, Iraq, Qatar, Jordan, Egypt, and Tunisia. The Arab Spring all started when a young Tunisian fruit seller set himself on fire in protest of a government official confiscating his apples and slapping his face. The aftermath of that one personal protest grew to become the Middle East movement known as the Arab Spring, a wave of disparate events that included protests, revolutions, hopeful reform movements, and bloody civil wars. *The Fires of Spring* is the first book to bring the post-Arab Spring world to light in a holistic context. A narrative of author Shelly Culbertson's journey through six countries of the Middle East, *The Fires of Spring* tells the story by weaving together a sense of place, insight about issues of our time, interviews with leaders, history, and personal stories. Culbertson navigates the nuances of street life and peers into ministries, mosques, and women's worlds. She delves into what Arab Spring optimism was about and at the same time sheds light on the pain and dysfunction that continues to plague parts of the region. *The Fires of Spring* blends reportage, travel memoir, and analysis in this complex and multifaceted portrait. *World Religions* Thomas A. Robinson, Hillary P. Rodrigues, 2014-11-11 This masterful survey of world religions presents a clear and concise portrait of the history, beliefs, and practices of Eastern and Western religions. The new edition contains added material and has been revised throughout. The authors, both respected scholars of world religions, have over fifty years of combined teaching experience. Their book is accessibly written for introductory classes and can be easily adapted for one or two semester courses.

**Creating Spaces of Hope** Caroline Seymour-Jorn,2020-12-15 An exploration of how young artists imagine and

maintain hope in post revolutionary Egypt Creating Spaces of Hope explores some of the newest most dynamic creativity emerging from young artists in Egypt and the way in which these artists engage contest and struggle with the social and political landscape of post revolutionary Egypt How have different types of artists studio artists graffiti artists musicians and writers responded personally and artistically to the various stages of political transformation in Egypt since the January 25 revolution What has the political or social role of art been in these periods of transition and uncertainty What are the aesthetic shifts and stylistic transformations present in the contemporary Egyptian art world Based on personal interviews with artists over many years of research in Cairo Caroline Seymour Jorn moves beyond current understandings of creative work primarily as a form of resistance or political commentary providing a more nuanced analysis of creative production in the Arab world She argues that in more recent years these young artists have turned their creative focus increasingly inward to examine issues having to do with personal relationships belonging and inclusion and maintaining hope in harsh social political and economic circumstances She shows how Egyptian artists are constructing spaces of hope that emerge as their art or writing becomes a conduit for broader discussion of social political personal and existential ideas thereby forging alternative perspectives on Egyptian society its place in the region and in the larger global context The Woman Question in Islamic Studies Kecia Ali, 2024-09-17 The interconnected ways that sexism functions in academic Islamic studies and how to shift professional norms toward parity Despite remarkable shifts in the demographics of Islamic studies in recent decades the field continues to be dominated by men who often relegate other scholars and their work particularly research on gender to its periphery while treating subfields in which men predominate as more rigorous and central In The Woman Question in Islamic Studies Kecia Ali explores the interconnected ways that sexism functions in academic Islamic studies Examining publications citations curricula and media representations Ali finds that despite the growth and depth of scholarship on Islam and gender men continue to overlook women s scholarship even in work that purports to discuss gender issues Moreover media and social media dynamics make talking about Islam and Muslims for broader audiences especially fraught for scholars who are not men particularly when the topic is gender or sexuality Combining broad surveys with more focused analyses of a smaller set of texts Ali shows that textbooks and syllabi continue to exclude women as historical actors and scholars and to marginalize gender and sexuality as subject matter Finally she provides a Beginner s Guide to Eradicating Sexism in Islamic Studies offering practical strategies to help scholars avoid common pitfalls in their own work and contribute to broader professional transformations
