Islam Without Extremes A Muslim Case For Liberty:

Islam without Extremes: A Muslim Case for Liberty Mustafa Akyol, 2011-07-18 A provocative manifesto for an interpretation of Islam that synthesizes liberal ideas and respect for the Islamic tradition From furious reactions to the cartoons of Prophet Muhammad to the suppression of women news from the Muslim world begs the question is Islam incompatible with freedom With an eye sympathetic to Western liberalism and Islamic theology Mustafa Akyol traces the ideological and historical roots of political Islam The years following Muhammad s passing in 632 AD saw an intellectual war of ideas rage between rationalist flexible schools of Islam and the more dogmatic rigid ones The traditionalist school won out fostering perceptions of Islam as antithetical to modernity However through his careful reexamination of the currents of Muslim thought Akyol discovers a flourishing of liberalism in the nineteenth century Ottoman Empire and the unique Islamo liberal synthesis of present day Turkey Only by accepting a secular state he powerfully asserts can Islamic societies thrive Persuasive and inspiring Islam without Extremes offers a desperately needed intellectual basis for the reconcilability of Islam and religious political economic and social freedoms Minding their Place Antonia Bosanquet, 2020-08-25 Antonia

Bosanquet s Minding Their Place is the first full length study of Ibn al Qayyim s d 751 1350 collection of rulings relating to non Muslim subjects A k m ahl al dhimma It offers a detailed study of the structure content and authorial method of the work arguing that it represents the author s personal composition rather than a synthesis of medieval rulings as it has often been understood On this basis Antonia Bosanquet analyses how Ibn al Qayyim s presentation of rulings in A k m ahl al dhimma uses space to convey his view of religious hierarchy She considers his answer to the question of whether non Muslims have a place in the Abode of Islam how this is defined and how his definition contributes to Ibn al Qayyim s broader theological world view **If the Oceans Were Ink** Carla Power, 2024-09-04 A welcome nuanced look at Islam combat s the

dehumanizing stereotypes of Muslims that are all too common Mandatory reading The Washington Post PULITZER PRIZE FINALIST NATIONAL BOOK AWARD FINALIST An eye opening story of how Carla Powers and her longtime friend Sheikh Mohammad Akram Nadwi found a way to confront ugly stereotypes and persistent misperceptions that were cleaving their communities Their friendship between a secular American and a madrasa trained sheikh had always seemed unlikely but now they were frustrated and bewildered by the battles being fought in their names Both knew that a close look at the Quran would reveal a faith that preached peace and not mass murder respect for women and not oppression And so they embarked on a yearlong journey through the controversial text A journalist who grew up in the Midwest and the Middle East Power offers her unique vantage point on the Quran s most provocative verses as she debates with Akram conversations filled with both good humor and powerful insights Their story takes them to madrasas in India and pilgrimage sites in Mecca as they encounter politicians and jihadis feminist activists and conservative scholars Armed with a new understanding of each other s worldviews Power and Akram offer eye opening perspectives destroy long held myths and reveal startling connections

Beyond Secularism and Jihad? Peter D. Beaulieu, 2012-07-13 Peter D Beaulieu examines the challenge posed by and to modernity and historic Islam as they encounter one another He compares the Western separation of Church and state with the unitary Islamic State and explores the proposed cultural and societal principles of the Second Vatican Council as potentially influencing long term events in both arenas Beaulieu s research is comprehensive and richly documented yet offers an accessible triangular inquiry into the mosque the manger and modernity By restoring a place at the table for Trinitarian Christianity alongside the engulfing monotheism of Islam and the alternative skepticism of Western rationalism this inquiry broadens the pallet of inter religious and intercultural contact points *Beyond Secularism and Jihad* provides balanced attention to the differences as well as the similarities between Christianity Islam and modernity An emerging theme

is natural law which is universal and intrinsic to all mankind and not confined to competing theologies Neglected in the West that it helped create natural law might contribute to the needed grammar for dialogue between the citizens in the West and the followers of Islam Freedoms Delayed Timur Kuran,2023-07-20 According to diverse indices of political performance the Middle East is the world s least free region Some believe that it is Islam that hinders liberalization Others retort that Islam cannot be a factor because the region is no longer governed under Islamic law This book by Timur Kuran author of the influential Long Divergence explores the lasting political effects of the Middle East s lengthy exposure to Islamic law It identifies several channels through which Islamic institutions both defunct and still active have limited the expansion of basic freedoms under political regimes of all stripes secular dictatorships electoral democracies monarchies legitimated through Islam and theocracies Kuran suggests that Islam s rich history carries within it the seeds of liberalization on many fronts and that the Middle East has already established certain prerequisites for a liberal order But there is no quick fix for the region s prevailing record of human freedoms **The Oxford Handbook of the Sociology of the Middle East** Armando Salvatore,Sārī Ḥanafī,Kieko Obuse,2022 The Oxford Handbook of the Sociology of the Middle East integrates the study of the social dynamics in the Middle East within history culture and politics The volume transcends a purely regional perspective to investigate the global nature of these dynamics and their impact on the life of people in the region It provides a comprehensive perspective in connecting the vexed state society relations in the region with movements of transformation and the affirmation of rights and creativity in the public arenas **Muhammad's Military Expeditions** Ayman S. Ibrahim,2024 The Arabic Muslim literature on Muhammad s maghazi is bountiful Since this book focuses on Muhammad s maghazi a survey of this literature is important not only to establish the centrality of the topic in Islamic thought but also to relay the uniqueness and contribution of this book To that end in this chapter I will first explore that which classical Muslim narrators wrote on Muhammad s maghazi and the ways they used the accounts to reflect Allah s support for Muhammad and the believers In the second section I will examine discussions by modern and contemporary Muslims relaying how they interpret the accounts of the maghazi In particular I will discuss their articulation of the motivations and results of Muhammad s military campaigns The first two sections of this chapter will thus establish the centrality of the maghazi as a literary genre as well as its importance among Muslims past and present In the third section I take the discussion to non Muslim scholarship I explore briefly early views on Muhammad and his career by non Muslims before I focus on works and arguments of key Western scholars from the nineteenth century until our present day **The Sons of Pigs and Apes** Neil J. Kressel,2012 The frightening resurgence of antisemitism in the Muslim world *We Refuse to Be Enemies* Sabeeha Rehman,Walter Ruby,2021-04-20 For readers of The Faith Club Sons of Abraham and The Anatomy of Peace a call for mutual understanding and lessons for getting there We Refuse to Be Enemies is a manifesto by two American citizens a Muslim woman and Jewish man concerned with the rise of intolerance and bigotry in our country along with resurgent white

nationalism Neither author is an imam rabbi scholar or community leader but together they have spent decades doing interfaith work and nurturing cooperation among communities They have learned that through face to face encounters people of all backgrounds can come to know the Other as a fellow human being and turn her or him into a trusted friend In this book they share their experience and guidance Growing up in Pakistan before she immigrated to the United States Sabeeha never met a Jew and her view was colored by the Israeli Palestinian conflict In his youth Walter never met a Muslim and his opinion was shaped by Leon Uris s Exodus Yet together they have formed a friendship and collaboration Tapping their own life stories and entering into dialogue within the book they explain how they have found commonalities between their respective faiths and discuss shared principles and lessons how their perceptions of the Other have evolved and the pushback they faced They wrestle with the two elephants in the room the Israeli Palestinian conflict and polarizing material in their holy texts and history And they share their vision for reconciliation offering concrete principles for building an alliance in support of religious freedom and human rights As members of the two largest minority faith communities in America we must stand together at a portentous moment in American history Neither of our communities will be able to prosper in an America characterized by xenophobia and bigotry Sabeeha Rehman and Walter Ruby **An Islamic Jihad of Nonviolence** Salih Sayilgan,2019-01-21 Today Islam is often associated with violence more so than other world religions In the center of this reception of Islam is the concept of jihad which has been distorted by many On the one hand there are some Muslims who take jihad as a reference point for their violent crimes against innocent people On the other hand the concept is intentionally used to promote fear against Islam and its adherents This study challenges these presentations of jihad by exploring the late Muslim theologian Said Nursi s jihad of nonviolence The book shows how Nursi s teaching concerning nonviolent struggle reconciliation and religious tolerance has much in common with Nelson Mandela Mahatma Gandhi as well as Martin Luther King Jr *Human Rights and Relative Universalism* Marie-Luisa Frick,2019-01-31 This book argues that human rights cannot go global without going local This important lesson from the winding debates on universalism and particularism raises intricate questions what are human rights after all given the dissent surrounding their foundations content and scope What are legitimate deviances from classical human rights law and where should we draw red lines Making a case for balancing conceptual openness and distinctness this book addresses the key human rights issues of our time and opens up novel spaces for deliberation It engages philosophical reasoning with law politics and religion and demonstrates that a meaningful relativist account of human rights is not only possible but a sorely needed antidote to dogmatism and polarization Beyond War David Rohde,2013-04-18 A groundbreaking look at America s role in the Middle East from the Pulitzer Prize winning author of A Rope and a Prayer Distilling eleven years of expert reporting for the New York Times Reuters and the Atlantic two time Pulitzer Prize winner David Rohde presents an incisive look at the calamitous privatization of the war on terror Beyond War is a clarion call for change in American policies and attitudes toward a rapidly

changing Middle East Rohde argues that using lethal force is necessary at times but economic growth and Muslim moderates not American soldiers will eradicate militancy in the long term Vast mistakes have been made but it is not too late By scaling back our ambitions focusing on economics and working with Muslim moderates we will achieve more **The Oxford Handbook of Criminology** Alison Liebling, Shadd Maruna, Lesley McAra, 2017 Beginning with the history of criminology this updated and revised edition deals with topics as diverse as policing substance abuse juvenile crime statistics prisons victims and organised crime in Britain **Contemporary Politics in the Middle East** Beverley Milton-Edwards, 2018-01-16 The fourth edition of this dynamic and popular text provides a comprehensive introduction to contemporary politics in the Middle East Fully revised and updated throughout it features a new chapter on the Arab Spring and its aftermath plus a wide range of vibrant case studies data questions for class discussion and suggestions for further reading Purposefully employing a clear thematic structure the book begins by introducing key concepts and contentious debates before outlining the impact of colonialism and the rise and relevance of Arab nationalism in the region Major political issues affecting the Middle East are then explored in full These include political economy conflict political Islam gender the regional democracy deficit and ethnicity and minorities The book also examines the role of key foreign actors such as the USA Russia and the EU and concludes with an in depth analysis of the Arab uprisings and their impact in an era of uncertainty **The Anthropology of Complex Economic Systems** Niccolo Leo Caldararo, 2013-11-14 Today we live in what Ulrich Beck has aptly characterized as a risk society shaped by intensifying crises outside of our control and seemingly outside of our comprehension The master narrative that was supposed to lead us to secular salvation economics has proved to be a large part of the problem rather than the much anticipated solution In *The Anthropology of Complex Economic Systems* Niccolo Caldararo offers a much more radical and challenging answer that the fundamental assumptions on which the modern science of economics has been erected are false and that it is through the medium of anthropology particularly the relatively neglected field of economic anthropology that an alternative and sound basis for both the understanding of economic behavior and for the shaping of economic futures can be constructed Caldararo not only challenges the foundational assumptions of conventional economic theory but situates economic behavior something quite different and universal amongst human beings in both a historical and an ecological context Contemporary discussions of sustainability especially in the field of development studies have oddly neglected to look to anthropology Economic anthropology is the repository of a vast store of wisdom both about actual alternative and workable economic systems and about their evolution By drawing on this source Caldararo builds a model of the evolution of human economies which stir up substantial debate shows how economic anthropology provides a tool for the interrogation of economic theory and ties economics to ecology It has been the rupture of this fundamental relationship that lies at the basis of much of our present crisis and the unsustainable economic patterns that humans have created By bringing together in a new configuration economic anthropology ecology and culture history Caldararo not only proposes a new model

of human social evolution but equally importantly creates a methodology for speaking to and against our present economic and environmental situation
