Collective Securitization and Crisification of EU Policy Change Christian Kaunert, Sarah Léonard, 2022-08-22 This book represents the first attempt to evaluate the first two decades of the EU counterterrorism policy It aims to assess the collective securitization process in EU counterterrorism evaluating this as a process between a construction of security threats and the development of supranational governance through crisification Compared to the lack of shared perception of the terrorist threat and the virtual absence of counterterrorism cooperation amongst European states in the 1970s and 1980s the existence of EU wide debates legislative instruments and practical cooperation nowadays is particularly remarkable The chapters in this volume explore this change and seek to explain it by drawing upon the concept of collective securitization The book posits that EU counterterrorism needs to be analysed as a process driven by collective securitization as part of an ongoing process of crisification that leads to increased supranational governance The book is both extremely relevant and timely for readers outside the area of research for several reasons First of all EU counterterrorism is often argued to be at the forefront of the EU s response to new security threats The EU acquis on the Area of Freedom Security and Justice AFSJ has grown significantly over the last years Consequently it is crucial and very timely to examine EU counterterrorism exactly 20 years after the first significant measures were adopted in the wake of 9 11 The chapters in this book were originally published in the journal Global Affairs *Library of Congress Subject*

majority states in different regions of the world *The Caliphate* Hugh Kennedy, 2016-07-07 What is a caliphate Who can be caliph And how are contemporary ideologues such as ISIS reviving and abusing the term today In the first modern account of a subject of critical importance today acclaimed historian Hugh Kennedy answers these questions by chronicling the rich history of the caliphate from the death of Muhammad to the present At its height the caliphate stretched from Spain to China and was the most powerful political entity in western Eurasia In an era when Paris and London boasted a few thousand inhabitants Baghdad and Cairo were sophisticated centres of trade and culture and the Umayyad and Abbasid caliphates were distinguished by extraordinary advances in science medicine and architecture By ending with the recent re emergence of caliphal ideology within fundamentalist Islam *The Caliphate* underscores why it is crucial that we understand this form of Islamic government before groups such as ISIS distort its practice completely *Towards an Islamic Lunisolar Calendar* Hisham Abad, 2021-04-10 The Calendar was invented in ancient times to allow nations to pace their economic and social activities with climatic seasons Throughout the history of civilizations much depended on organizing and administering an accurate calendar Hunter gatherers needed the calendar to predict the migrations of herds of wild animals As humanity advanced farming communities required calendars to predict the coming of rain or the time of the flooding of rivers Traders and seafaring communities needed to map the best time of the year to tackle the dangers of seas when sailing far from home In contemporary times of globalization calendars have become even more critical in optimizing the complex supply chains of local and global production cycles Oral traditions ascertain that the Arabs of the Arabian Peninsula used a rudimentary lunisolar calendar called in the literature the Arabian Calendar Like with all nations the lunisolar Arabian Calendar helped the Arabs organize their meager resources in the best ways possible For example research showed that the Hajj season and its pan Arabian markets were scheduled to coincide with the date harvesting season peaking from July to September The abundance of the date harvest available in this period along with assigning the concept of inviolability to the Arabian months spanning this season allowed them to travel across Arabia to Mecca to trade in the pan Arabian markets and to participate in the religious rituals of their pilgrimage the Hajj It is asserted in this book that Prophet Muhammad followed the lunisolar Arabian Calendar all his life At the end of the tenth year after he migrated from Mecca to Medina and during his Farewell Pilgrimage the Quran sternly abolished the process of intercalation i.e. the Nasi the very process which allowed the Arabs to organize their various economic and religious activities When Caliph Umar ibn al-Khattab initiated the Hijri Calendar seven years after Prophet Muhammad's death i.e. in 17 AH he founded it as purely lunar which meant its months were allowed to float within the solar year Caliph Umar is famous for his zeal in protecting the fundamental Islamic principle of monotheism This I show was the reason for introducing the Hijri Calendar as purely lunar because the Nasi i.e. Quraysh's method of intercalation was hopelessly entangled with the polytheistic religion of Quraysh the Prophet's tribe and the guardian of the holy places in Mecca and its environs The harmful effects of following the purely lunar Hijri Calendar were realized from early on But the

prohibition of Nas inhibited the early Islamic caliphs from reforming the Hijri Calendar This book explores the history of the Arabian Calendar and its intimate connection with the Hijri Calendar The main findings of this book are as follows 1 The main aij shrines in Macca are aligned in the direction of sunrises and sunsets of the Summer Solstice day 2 Quraysh intercalated its Arabian Calendar by forcing the Summer Solstice SS Day to occur within the 11th month of the Arabian Calendar Shaww l The Nas month was added when the onset of the SS was about to transfer to into the 11th month Dh l Qa da 3 The onset of the SS day was determined through the sunset alignment along the line joining the posts of al Wos and al Aqaba Jamar t and also by observing the sun rising from behind the peak of mount Thab r from the location of the sacrificial altar of pre Islamic Mina 4 The Prophet arrived in his migration from Mecca to Med na on the Days of sh r which corresponded to the dates of 8th of Rab I the 10th of the Hebrew month Tishri and to the 23rd of September 632 5 The epoch of the Hijri Calendar must be adjusted back by two days from the epoch used so far 6 The Farewell Pilgrimage occurred in autumn on September 4 632 CE not in spring on March 11 632 CE *Astronomical Phenomena for the Year ...* ,2011
