Islamism And Its Enemies In The Horn Of Africa:

Islamism and Its Enemies in the Horn of Africa Alex De Waal, 2004 Militant Islam is a powerful force in the Horn of Africa and the U S war on terrorism has thrown the region and its politics into the international spotlight Since the 1990s when a failed U S military mission was called in to maintain order Islamist organizations with heavy sponsorship from Saudi Arabia have multiplied and established much needed health and education services in the region However despite the good that they are clearly providing these organizations are labeled terrorist by the U S Islamist extremists have been found to be responsible for the deadly embassy bombings in Kenya and Tanzania and the attack on an Israeli jet in Mombasa Since September 11 2001 global effort has been concentrated on bringing these groups to their knees Focusing on how Islamist movements have been viewed post 9 11 and how the U S agenda is being translated into local struggles in the region this book is an important step toward understanding the complex dynamics that enfold the region Contributors are Roland Marchal A H Abdel Salam M A Mohamed Salih and Alex de Waal *Islamism and Its Enemies in the Horn of Africa* Alexander De Waal, 2004 A hard hitting and sober analysis of Islamic groups and their role in international politics

Islamism in the Modern World W. J. Berridge, 2018-12-13 Islamism in the Modern World is an accessible student oriented introduction to the debates surrounding the historic origins of contemporary Islamism It explores controversies surrounding contemporary Islamists indebtedness to various European and Islamic thinkers as well situating debates concerning the relationship between political Islam violence and democracy in an historic context W J Berridge explores the continuities discontinuities and the impacts of long term social economic and political change on the nature of Islamism as an ideology Readers are encouraged to subject the claims of current commentators to the scrutiny of historical analysis exploring the complexities of the relationship between Islamist and European thinkers whether classical Renaissance or modern liberal fascist or Marxist The book understands political Islam in the longue dur e comparing medieval early modern and modern Islamist thinkers as well as discussing the compatibility of Islamism and indeed Islam itself with supposedly Western values such as democracy feminism and human rights Each chapter contains a short bibliography of relevant primary and secondary sources as well as excerpts from key sources and a glossary of Arabic terms making this the ideal introduction to the subject for history students *Bureaucratizing Islam* Ann Marie Wainscott, 2017-09-14 How have states in the Middle East and North Africa responded to the War on Terror While much scholarship has focused on terrorism in the region there is need for critical studies of Middle Eastern states counter terrorism policies This book addresses that need by investigating Morocco s unique approach to counter terrorism the bureaucratization of religion Morocco s strategy is unique in the degree to which it relies on reforms that seek to make the country s religious institutions into tools for rewarding loyalty and discouraging dissent from religious elites Through these measures they have limited opposition through an enduring form of institutional control accommodating some of the country s most virulent critics This book will be of great use to researchers and scholars

of Middle Eastern politics and it will also appeal to those policymakers interested in security studies and counter terrorism policies The Oxford Handbook of Islam and Politics John L. Esposito,Emad El-Din Shahin,2016 The Oxford Handbook of Islam and Politics with contributions from prominent scholars and specialists provides a comprehensive analysis of what we know and where we are in the study of political Islam **Terrorism and Counter-Terrorism in Africa** H.

Solomon,2015-05-12 Traditional counter terrorism approaches with their emphasis on the military are failing This is seen in the fact that there is an average of three terrorist attacks per day in Africa This study calls for more holistic solutions with an emphasis on development and better governance to curb the scourge of terrorism *Foreign Intervention in Africa after the Cold War* Elizabeth Schmidt,2018-10-22 In Foreign Intervention in Africa after the Cold War interdisciplinary in approach and intended for nonspecialists Elizabeth Schmidt provides a new framework for thinking about foreign political and military intervention in Africa its purposes and its consequences She focuses on the quarter century following the Cold War 1991 2017 when neighboring states and subregional regional and global organizations and networks joined extracontinental powers in support of diverse forces in the war making and peace building processes During this period two rationales were used to justify intervention a response to instability with the corollary of responsibility to protect and the war on terror Often overlooked in discussions of poverty and violence in Africa is the fact that many of the challenges facing the continent today are rooted in colonial political and economic practices in Cold War alliances and in attempts by outsiders to influence African political and economic systems during the decolonization and postindependence periods Although conflicts in Africa emerged from local issues external political and military interventions altered their dynamics and rendered them more lethal Foreign Intervention in Africa after the Cold War counters oversimplification and distortions and offers a new continentwide perspective illuminated by trenchant case studies *Islam and Politics Around the World* John L. Esposito,Emad El-Din Shahin,2018-08-01 Islam has become a potent political force around the world since it reemerged in the late 1960 s and 1970 s as a religio political alternative to failed nationalist ideologies In countries throughout the world individuals and movements have attempted to reconstruct the political economic and social dimensions of their societies along Islamic lines taking different approaches to the shari a and to the questions of whether and how to establish an Islamic state Islam and Politics Around the World is a comprehensive and analytical examination of Islam and politics in a rapidly changing and globalizing world Its case studies provide overviews of the development and interaction of Islam and politics in North America Europe and the Middle East and across Asia and Africa Taken together these essays provide readers with an illuminating and in depth overview of the state of political Islam today Foreign Intervention in Africa Elizabeth Schmidt,2013-03-25 Foreign Intervention in Africa chronicles the foreign political and military interventions in Africa from 1956 to 2010 during the periods of decolonisation and the Cold War as well as during the periods of state collapse and the global war on terror In the first two periods the most significant intervention was extra continental The USA the Soviet Union China Cuba and the

former colonial powers entangled themselves in countless African conflicts During the period of state collapse the most consequential interventions were intra continental African governments sometimes assisted by powers outside the continent supported warlords dictators and dissident movements in neighbouring countries and fought for control of their neighbours resources The global war on terror like the Cold War increased foreign military presence on the African continent and generated external support for repressive governments In each of these cases external interests altered the dynamics of Africa s internal struggles escalating local conflicts into larger conflagrations with devastating effects on African peoples

Comparing Peace Processes Alpaslan Özerdem,Roger Mac Ginty,2019-03-18 This book offers a comparative survey of 18 contemporary peace processes conducted by leading international scholars There is no standard model of peace processes and all will vary according to the context type of conflict timing national and global economic climate and factors like natural disasters Therefore making comparisons between peace processes is difficult but it is beneficial indeed imperative and is the principal motivation behind this volume What works in one context may not work in another but it can be modified and adapted to fit another context The book is structured to maximise comparison between processes and the case studies chosen are topical and span the major regions of the world The concluding chapter systematically compares the case studies around 11 variables that cover the conflict context peace process procedures the responsiveness of the peace process to demands and levels of participation and inclusion Each peace process is then given a numeric score according to each of these variables and the book thereby reaches judgements on whether each case can be termed a success or a failure This book will be essential reading for students of peace studies conflict resolution war and conflict studies security studies and IR

Ethnic Politics and State Power in Africa Philip Roessler,2016-12-15 This book models the trade off that rulers of weak ethnically divided states face between coups and civil war Drawing evidence from extensive field research in Sudan and the Democratic Republic of the Congo combined with statistical analysis of most African countries it develops a framework to understand the causes of state failure

Terror and Territory Stuart Elden,2009 Today s global politics demands a new look at the concept of territory From so called deterritorialized terrorist organizations such as al Qaeda to U S led overthrows of existing regimes in the Middle East the relationship between territory and sovereignty is under siege Unfolding an updated understanding of the concept of territory Stuart Elden shows how the contemporary war on terror is part of a widespread challenge to the connection between the state and its territory Although the importance of territory has been disputed under globalization territorial relations have not come to an abrupt end Rather Elden argues the territory sovereignty relation is being reconfigured Traditional geopolitical analysis is transformed into a critical device for interrogating hegemonic geopolitics after the Cold War and is employed in the service of reconsidering discourses of danger that include failed states disconnection and terrorist networks Looking anew at the war on terror the development and application of U S policy the construction and demonization of rogue states events in Lebanon Somalia and Pakistan and the

wars continuing in Afghanistan and Iraq Terror and Territory demonstrates how a critical geographical analysis informed by political theory and history can offer an urgently needed perspective on world events Islam compiled from Wikipedia entries and published by Dr Googelberg, *Responding to Conflict in Africa* J. Boulden, 2013-05-14 Using nine case studies and an overview of recent changes at the institutional level the purpose of this book is to examine the issues and experiences associated with the increased level of activity between the United Nations and regional organizations in their efforts to address conflict in Africa *Islamism: Religion and Ideology* Wilyam Shar?f, 2009 The book is a critique of Islamic fundamentalism modernist rationalism and imperialism It argues that there is a firm relationship between Islamism and the religion of Islam and that Muslims today need a new Islamic discourse **Securing Africa** Malinda S. Smith, 2016-04-01 This meticulously researched forcibly argued and accessibly written collection explores the many and complex ways in which Africa has been implicated in the discourses and politics of September 11 2001 Written by key scholars based in leading institutions in Canada the United States the Middle East and Africa the volume interrogates the impact of post 9 11 politics on Africa from many disciplinary perspectives including political science sociology history anthropology religious studies and cultural studies The essays analyze the impact of 9 11 and the war on terror on political dissent and academic freedom the contentious vocabulary of crusades clash of civilizations barbarism and Islamofascism alternative genealogies of local and global terrorism extraordinary renditions to black sites and torture human rights and insecurities collapsed states and the development security merger and anti terrorism policies from George W Bush to Barack Obama This is a much needed meditation on historical and contemporary discourses on terrorism **Sudan's Unfinished Democracy** Willow Berridge, Alex de Waal, Justin Lynch, 2022-08-01 This book tells the story of the Sudanese revolution of 2019 of how it succeeded in bringing down the long standing rule of President Omar al Bashir and of the troubled transitional civilian led government that was installed in his place It sets the scrupulously non violent uprising in its historical context showing how the protesters drew upon the precedents of earlier civic revolutions and adapted their practices to the challenges of the al Bashir regime The book also explores how that regime was brought to its knees through its inability to manage the intersecting economic and political crises caused by the secession of South Sudan and the loss of oil revenue alongside the uncontrolled expansion of a sprawling security apparatus The civilian protesters called for and expected a total transformation of Sudanese politics but they found themselves grappling with a still dominant cabal of generals who had powerful regional backers and a strong hold over the economy Internally divided and faced with a deepening economic crisis the civilian government led by Prime Minister Abdalla Hamdok has found itself in office but with less and less real power unable to change the conduct of political business as usual *Major Issues in Islam* Harvey J. Sindima, 2017-11-02 This book explores matters that have negatively affected the public image and led to distorted depictions of Islam from the late nineteenth century to the present The areas of uneasiness and debate among Muslims and non Muslims alike include Islamic

values and identity in the post caliphate era after colonialism and now under Western hegemony There is anxiety about the place of Shari'a in the light of Western law and the state secularism democracy human rights the equality of women and the place of Islamic education in transmitting Islamic values as secular education dominates societies There are apprehensions over the relation between religion and politics as in the rise of Muslim Brotherhoods Wahhabism Islamism al Qaeda and Islamic State In non Muslim countries concerns are about the status of Muslim marriage polygamy divorce and interest in business Every topic is examined through the Noble Qur'an and the Hadith classical writings and linguistic analysis *The Routledge Handbook of Terrorism Research* Alex Peter Schmid, 2011 This volume is a monumental collection of definitions conceptual frameworks paradigmatic formulations and bibliographic sources which is now being revised and updated as a resource for the expanding community of researchers on the subject of terrorism *Peace Clan* Peter M. Sensenig, 2016-03-02

What happens when North American Mennonite Christians arrive in Islamic Somalia The answer according to Peter Sensenig is that something new emerges a peace clan From the first schools and medical work in the 1950s up to the educational partnerships of the present day Somalis and Mennonites formed a surprising friendship that defied conventional labels Peace Clan is the story of two deeply traditional communities as they encounter change How can Somalis apply the profound peacemaking resources of their culture and faith in a society fragmented by violence And how can modernizing Mennonites make sense of their peace convictions in the context of civil war and military intervention In struggling with these questions over the course of six decades Somalis and Mennonites held a mirror up to one another The author shows how the common quest to transform enmity brings out the best in both communities and suggests what a fruitful partnership might look like in the present challenges Students academics and lay readers alike will find on these pages a compelling invitation to join the peace clan
