Islamophobia And The Politics Of Empire:

Islamophobia and the Politics of Empire Deepa Kumar, 2012 Islamophobia examines the origins of the ongoing assault on Muslims and Arabs in the U S and the war on terror

Islamophobia and the Politics of Empire Deepa Kumar, 2021-09-07 In this incisive account leading scholar of Islamophobia Deepa Kumar traces the history of anti Muslim racism from the early modern era to the War on Terror Importantly Kumar contends that Islamophobia is best understood as racism rather than as religious intolerance An innovative analysis of anti Muslim racism and empire Islamophobia argues that empire creates the conditions for anti Muslim racism which in turn sustains empire This book now updated to include the end of the Trump s presidency offers a clear and succinct explanation of how Islamophobia functions in the United States both as a set of coercive policies and as a body of ideas that take various forms liberal conservative and rightwing The matrix of anti Muslim racism charts how various institutions the media think tanks the foreign policy establishment the university the national security apparatus and the legal sphere produce and circulate this particular form of bigotry Anti Muslim racism not only has horrific consequences for people in Muslim majority countries who become the targets of an endless War on Terror but for Muslims and those who look Muslim in the West as well

Sharmin Sadequee, 2025-07-02 Dominant scholarship identifies Islamophobia as a form of racism where race and religion have become conflated in social structures These important analyses form a complex ideological social political and historical construction However the authors in this volume argue that current scholarship does not account for the relationship between secularism and race in social structures in theorizing Islamophobia Advocating for a decolonial approach to better theorize the phenomenon *Secularism Race and the Politics of Islamophobia* intervenes in this area of scholarship to call attention to the ways secularism is embedded in and drives the disciplinary institutions of the State such as law political groups government entities and bureaucracies to authorize racism and the racialization of Muslims and Islam Highlighting the extent and nature of contemporary scholarly debates as well as public efforts to counter Islamophobia the contributors to this collection address and deepen awareness of its present day formations in secular neoliberal societies Scholars and students from anthropology sociology law political science and beyond will benefit from this interdisciplinary study

The Struggle of Entertainment and Neoliberal Postcolonial Capitalist Politics in "New" Saudi Arabia Anas M. Alahmed, 2022-07-07 Anas M Alahmed argues that the Entertainment Authority of Saudi Arabia created in 2016 was meant to introduce a new Saudi to the Western outsider audience and that the new Saudi state is on a mission to transform the country from a traditional and conservative kingdom to a new state dedicated to social modernization and openness Alahmed contends that globalization and the neoliberalism capitalist mode of politics have reinforced the transformation of

cultural production into global entertainment production Therefore the author shows how the entertainment sector relies heavily on reproducing the Western culture of entertainment production and depends on Western businesses to bring entertainment into the country instead of investing in local entertainment businesses which forces the state to adopt neoliberal capitalism The author provides evidence on how the new modernity of Saudi Arabia has become a political tool through which neoliberal capitalists can create positive relationships with Western capitals as part of the postcolonial struggle of neoliberalism in the Global South Alahmed argues that there is a connection between the role of geopolitical power in globalization and postcolonial studies that explains the struggles of indigenous cultures related to providing their own production to society

Muslim American Politics and the Future of US Democracy Edward E. Curtis IV, 2019-12-03 Reveals the important role of Muslim Americans in American politics Since the 1950s and especially in the post 9 11 era Muslim Americans have played outsized roles in US politics sometimes as political dissidents and sometimes as political insiders However more than at any other moment in history Muslim Americans now stand at the symbolic center of US politics and public life This volume argues that the future of American democracy depends on whether Muslim Americans are able to exercise their political rights as citizens and whether they can find acceptance as social equals Many believe that over time Muslim Americans will be accepted just as other religious minorities have been Yet Curtis contends that this belief overlooks the real barrier to their full citizenship which is political rather than cultural The dominant form of American liberalism has prevented the political assimilation of American Muslims even while leaders from Eisenhower to Obama have offered rhetorical support for their acceptance Drawing on examples ranging from the political rhetoric of the Nation of Islam in the 1950s and 1960s to the symbolic use of fallen Muslim American service members in the 2016 election cycle Curtis shows that the efforts of Muslim Americans to be regarded as full Americans have been going on for decades yet never with full success Curtis argues that policies laws and political rhetoric concerning Muslim Americans are quintessential

American political questions Debates about freedom of speech and religion equal justice under law and the war on terrorism have placed Muslim Americans at the center of public discourse How Americans decide to view and make policy regarding Muslim Americans will play a large role in what kind of country the United States will become and whether it will be a country that chooses freedom over fear and justice over prejudice

[Race, Popular Culture, and Far-right Extremism in the United States](#) Priya Dixit, 2022-10-25 This book analyzes key popular culture artifacts linked with United States far right extremism to illustrate how extremists use various narrative strategies to legitimate their interests and goals and to justify violent actions Recognizing these narrative strategies and how they are used partly explains the back and forth moves between mainstream politics and the far right of ideas and issues that used to remain within far right circles The main objective of this book is to

Contemporary Anti-Muslim Politics Kenneth J. Long,2017-02-15 Contemporary Anti Muslim Politics provides a succinct but potent critique of the policies of Western nations toward Muslims particularly the aggressive foreign policies of the United States and the exclusionary domestic policies of Europe These policies have already claimed millions of Muslim lives For decades policies that rely on war exclusion and ghettoization have triggered conflict escalation The actions of groups such as the Islamic State and Boko Haram are reactions to this history Their tactics exacerbate negative stereotyping of Muslims generally and Western military strategies cause many Muslims to pursue survivalist politics that enable and strengthen such groups Anti Muslim politics in Western nations takes many forms beyond war and exclusion including racialization stereotyping sacrilegious cultural assaults mass media scapegoating and even tolerance which implies something unpalatable in need of toleration The gridlock brought by pluralism and constitutionalism both in Europe and the United States serves few people well but it has locked Muslims into an especially abusive status quo

The Routledge International Handbook on Fear of Crime Murray Lee, Gabe Mythen, 2017-12-01 The Routledge International Handbook on Fear of Crime brings together original and international state of the art contributions of theoretical empirical policy related scholarship on the intersection of perceptions of crime victimisation vulnerability and risk This is timely as fear of crime has now been a focus of scholarly and policy interest for some fifty years and shows little sign of abating Research on fear of crime is demonstrative of the inter disciplinaryity of criminology drawing in the disciplines of sociology psychology political science history cultural studies gender studies planning and architecture philosophy and human geography This collection draws in many of these interdisciplinary themes This collections also extends the boundaries of fear of crime research It does this both methodologically and conceptually but perhaps more importantly it moves us beyond some of the often repeated debates in this field to focus on novel topics from unique perspectives The book begins by plotting the history of fear of crime s development then moves on to investigate the methodological and theoretical debates that have ensued and the policy transfer that occurred across jurisdictions Key elements in debates and research on fear of crime concerning gender race and ethnicity are covered as are contemporary themes in fear of crime research such as regulation security risk and the fear of terrorism the mapping of fear of crime and fear of crime beyond urban landscapes The final sections of the book explore geographies of fear and future and unique directions for this research Converting to Islam Amy Melissa Guimond, 2017-06-16 This text aims to discover the shared lived experiences of white American female converts to Islam in post 9 11 America It explores the increasingly hostile social climate faced by Muslim Americans as well as the spiritual social physical and mental integration of these women into the Muslim American population In the United States rates of conversion to Islam are rapidly increasing alongside Islamophobic sentiment and hate crimes against Muslims For a period of time there was a lull in this negative sentiment However in light of the Paris terror attacks the increased prominence of ISIS ISIL and the influx of refugees from Syria anti Muslim rhetoric is once again on the rise This volume analyzes how a singular collection of female converts have adapted to life in the United States in the shadow of 9 11

History of Police Brutality in America Thomas Aiello, 2023-04-11 This handbook offers a comprehensive historical overview and analysis of police brutality in US history and the variety of ways it has manifested itself. Police brutality has been a defining controversy of the modern age brought into focus most readily by the murder of George Floyd in Minneapolis and the mass protests that occurred as a result in 2020. However, the problem of police brutality has been consistent throughout American history. This volume traces its history back to Antebellum slavery through the Gilded Age, the Progressive Era, the two world wars, and the twentieth century to the present day. This handbook is designed to create a generally holistic picture of the phenomenon of police brutality in the United States in all of its major lived forms and confronts a wide range of topics including Race, Ethnicity, Gender, Police reactions to protest movements, particularly as they relate to the counterculture and opposition to the Vietnam War, Legal and legislative outgrowths against police brutality, The representations of police brutality in popular culture forms like film and music, The role of technology in publicizing such abuses and the protest movements mounted against it. The Routledge History of Police Brutality in America will provide a vital reference work for students and scholars of American history, African American history, criminal justice, sociology, anthropology, and Africana studies. Biopsychosocial Perspectives on Arab Americans Sylvia C. Nassar, Kristine J. Ajrouch, Florence J. Dallo, Julie Hakim-Larson, 2023-08-01 The biopsychosocial study of Arab Americans yields compelling insights into innovative theoretical and applied initiatives. In the context of a growing population of Arab Americans coupled with the current tenure of xenophobia and exposed structural racism in the US, clinical and community practitioners must be attuned to their clients of Arab ancestry whose experiences, development, and health concerns are distinctly different than that of their White counterparts. This second edition, with its uniquely interwoven sections of culture, psychosocial development, and health and disease, provides a rich overview of timely critical topics. The audience for the text includes counselors, social workers, psychologists, nurses, psychiatrists, sociologists, and any other public and mental health practitioners, researchers, and policy makers who work with and on behalf of clients and patients of Arab descent. The authors represent a team of leading experts spanning disciplines of sociology, clinical mental health, and community public health. This edition draws on leading experts in Arab American health and sociology who document the complexity of this population's immigration and acculturation experience. It offers critical and current research that speaks to the centrality of context and diversity in treating Americans of Arab descent. Contributors explore the complex and limited racial framework within which Arabs in the U.S. form their identities and the impact of structural racism on their lives and health. This collection offers practitioners much needed insights on a population often hidden or rendered invisible by data limitations and yet misrepresented by cultural stereotypes. Helen Hatab Samhan, Former Executive Director, Arab American Institute Foundation. Nassar, Ajrouch, Hakim-Larson, and Dallo's breakthrough work in the area of culturally competent health care has been inspiring across interdisciplinary fields.

and to the communities they serve Their work on Arab American health issues in particular has greatly improved clinical practice at the community and national levels I heartily recommend taking the time to become familiar with their important body of work and this latest text Ismael Ahmed Former Michigan State Director of Health and Human Services
