Sevenster,2014-04-09 Preliminary Material J N Sevenster Introduction J N Sevenster Chapter One Literary Sources J N Sevenster Chapter Two Archeological Material J N Sevenster Conclusions J N Sevenster Indexes J N Sevenster **National Union Catalog** ,1980 Includes entries for maps and atlases **Networks of Music and Culture in the Late Sixteenth and Early Seventeenth Centuries** David J. Smith,Rachelle Taylor,2016-04-29 Peter Philips c 1560 1628 was an English organist composer priest and spy He was embroiled in multifarious intersecting musical social religious and political networks linking him with some of the key international players in these spheres Despite the undeniable quality of his music Philips does not fit easily into an overarching progressive view of music history in which developments taking place in

centres judged by historians to be of importance are given precedence over developments elsewhere which are dismissed as peripheral. These principal loci of musical development are given prominence over secondary ones because of their perceived significance in terms of later music. However, a consideration of the networks in which Philips was involved suggests that he was anything but at the periphery of the musical, cultural, religious and political life of his day. In this book, Philips's life and music serve as a touchstone for a discussion of various kinds of network in the late sixteenth and early seventeenth centuries. The study of networks enriches our appreciation and understanding of musicians and the context in which they worked. The wider implication of this approach is a constructive challenge to orthodox historiographies of Western art music in the Early Modern Period.

Supplements to Novum Testamentum Jan Nicolaas Sevenster, 1968 **Ariel**, 1964 The National Union Catalogs, 1963-1964 *Queer Jewish Groups in Europe (1972-1990s)* Jan Wilkens, 2025-03-31 In the 1970s, queer Jews became excited by the developments of the Gay Liberation Movement in both the US and Europe. Until then, they were not able to express their queerness in Jewish communities and hoped for new inclusive spaces. Yet they quickly realized that the movement was not as welcoming as anticipated. Thus, they started to organize. In February 1972, the world's first queer Jewish group became publicly visible in London with its symposium, 'The Jewish Homosexual in Society'. The Jewish Gay Group began tackling the exclusion of non-heteronormative Jews in British Jewish and queer communities. Soon after, two more queer Jewish groups formed: Beit Haverim (House of Friends) in Paris and Sjalhomo (a neologism of shalom and homosexual) in Amsterdam. Besides their goal of emancipation, these groups brought together their members based on shared experiences as both Jewish and queer, opening up much needed spaces for social encounters. The groups also established a Europe-wide support network that enabled international collaboration for more than a decade. This study archives these groups' histories and that of their network. By doing so, it broadens prevalent narratives of Europe's post-World War II Jewry and queers, the discipline of Jewish History.

Human Rights or Religious Rules? Johannes A. van der Ven, 2010-03-08 The relation between religion and human rights is a contested one as they appear to compete with one another. Religion is often considered to represent a tradition of heteronomy and subordination in premodern times. Human rights emerged from early modern and modern times and stand for principles like human dignity, autonomy, equality. The first question in this book is how to define religion, its meaning, functions and structures, and how to study it. The second question is how to understand religion from its relation with human rights in such a way that justice is done to both religion and human rights. These questions are dealt with using a historical and systematic approach. The third question is what the impact of religion might be on attitudes towards human rights, i.e. human rights culture. For an answer, empirical research is reported among about 1000 students, Christians, Muslims, and nonreligious, at the end of secondary and the beginning of tertiary education in the Netherlands.

Gabriël Brink,2025-10-01 Since the time of Adam Smith scholars have tried to understand the role moral sentiments play in modern life an issue that became especially urgent during and after the 2008 global financial crisis Previous explanations have ranged from the idea that modern society is built on moral values to the notion that modernisation results in moral decay The essays in this interdisciplinary volume use the example of Dutch society and a wealth of empirical data to propose a novel theory about the ambivalent relation between contemporary life and human nature In the process the contributors argue for the need to reject simplistic explanations and reinvent civil society **Studia semitica neerlandica** ,1955

Landscape and Religion from Van Eyck to Rembrandt Boudewijn Bakker,2017-07-05 Offering a corrective to the common scholarly characterization of seventeenth century Dutch landscape painting as modern realistic and secularized Boudewijn Bakker here explores the long history and purpose of landscape in Netherlandish painting In Bakker s view early Netherlandish as well as seventeenth century Dutch painting can be understood only in the context of the intellectual climate of the day Concentrating on landscape painting as the careful depiction of the visible world Bakker s analysis takes in the thought of figures seldom consulted by traditional art historians such as the fifteenth century philosopher Dionysius the Carthusian the sixteenth century religious reformer John Calvin the geographer Abraham Ortelius and the seventeenth century poet Constantijn Huygens Probing their conception of nature as the first Book of God and art as its representation Bakker identifies a world view that has its roots in the traditional Christian perceptions of God and creation Landscape and Religion from Van Eyck to Rembrandt imposes a new layer of interpretation on the richly varied landscapes of the great masters In so doing it adds a new dimension to the insights offered by modern art historical research Further Bakker s explorations of early modern art and literature provide essential background for any student of European intellectual history
