THE KA-BAR KNIFE COMBAT MANUAL James Loriga,2020-04-02 The United States Marine Corps does not have this manual or any manual on the combat use of the Ka Bar knife This however is not because they lack a structured knife combat method for training new recruits or because the method is in any way secret or classified They have a structured method and it s not secret or classified They just don t teach from a manual Why Simply because Marine Combat Instructors have their knife combat method internalized They can teach it in their sleep they can use the knife without even waking up and they want Marine recruits to know this method in the same manner Not to learn it to internalize it To own it Because they won t have a manual with them when they need this knowledge to save their lives Learn what they already know

Street Fighting Style. Urban Survival Protocol. EUGENIA. BOROVKOVA, Oleg Nashchubskiy, 2025-01-27 The Street Knife Fighting style presented in this textbook is distinguished by its

straightforwardness pragmatism and strict emphasis on practical application This style is not focused on sports competitions or demonstration of complex techniques but on simple but real self defense in the city or survival where the price of a mistake is your life Main features and differences 1 Adaptation to street conditions The style was developed taking into account the specifics of urban conditions where the enemy can behave dishonestly attack from an ambush suddenly without warning The main goal is to teach how to defend yourself in situations where there is no time to think and the threat can come from several attackers or be hidden until the last moment 2 Survival as a Key Principle This style takes into account scenarios where fighting is not a choice but a necessity In a survival situation any mistake can be fatal Therefore the techniques are designed to minimize the likelihood of misses using natural body movements simple but effective strikes and the most pragmatic approach 3 This style is suitable for ordinary people not masters of sports The textbook is created for those who do not strive to become a master of martial arts but want to survive in a dangerous situation This is a practical guide for those who are not looking for spectacular combinations but real skills that can be quickly mastered and used effectively 4 Focus on realistic scenarios Here you will not find idealized techniques that work only on the training ground We consider the real world limited space elements of surprise the possibility of using improvised objects and the variability of the enemy's actions This style of martial art is not for the arena not for spectators and not for demonstration This is a style that will become your support in a situation where the question is about life and death We believe that the knowledge presented here can help you protect yourself your loved ones and survive if life puts you in front of this need Put 'Em Down, Take 'Em Out! Don Pentacost, 2016-10-28 Forget what you've seen in movies and on television a knife attack is usually fast furious and often fatal When it comes to increasing your chances of surviving even the best martial arts schools are no match for the hard lessons learned in brutal institutions like Folsom Prison Folsom alum Don Pentecost's no nonsense guide cuts through the Hollywood myths and covers valuable information like Defending yourself against an attack Going on the offensive Training methods to maximize your chances of survival If it's true that as a poet once said prison is like high school with knives then facilities like Folsom are the Ivy League of violence Serving a sentence at Folsom is like earning a PhD in staying alive Don Pentecost has done the time so you don't have to d *The 10 Best Knife Fighting Techniques* Sammy Franco, 2017-12-02
