Knowledge of the Higher Worlds and Its Attainment Rudolf Steiner, 2016-04-24 The quintessential guide for the spiritual seeker from the deeply gifted mystic In human life joy is usually something one has not deserved through previous actions When we investigate karma by occult means we always discover that in most cases joy has not been earned and we should accept it gratefully as sent to us by the gods as a gift of the gods and to say to ourselves The joy which comes to meet us today ought to kindle in us the will to work in such a way as to take into ourselves the forces streaming to us through this joy and to apply these usefully We must look upon joy as a sort of prepayment on account for the future Love starts when we push aside our ego and make room for someone else If we do not believe within ourselves this deeply rooted feeling that there is something higher than ourselves we shall never find the strength to evolve into something higher May my soul bloom in love for all existence You will not be good teachers if you focus only on what you do and not upon who you are

[The Universe Loves a Happy Ending](#) Hans Andeweg, 2016-04-05 The Universe Loves a Happy Ending is a new work from Hans Andeweg the author of *In Resonance with Nature* The earlier book became the basis of an instrument based eco healing method this book describes a revolutionary paradigm for energetic healing called ECOintention a technology free way of healing life and ecosystems from a distance Using his own journey of discovery as a

backdrop the author guides us through a complex weave of quantum mechanics zero point energy near death experiences compassion forgiveness the Maya calendar and ancient wisdom from China and Hawaii Gradually we emerge into the light of the coherent theory of energetic healing that is ECOintention The first principle behind this work is that everything is energy and that everything is connected to everything else But what does that mean for us personally in our daily life in our connections with our fellow humans and our work and in our relationship with the earth as a whole The Universe Loves a Happy Ending answers these questions It shows how the emerging connections between quantum science and universal spiritual laws give us new tools for working with life energy and consciousness as well as for influencing events The Universe Loves a Happy Ending summarizes the practical applications of this work in ten Principles of Energetic Guardianship For those of us who act as custodians or guardians of life whether we are managers or leaders community activists or private individuals regardless of whether we operate on a small or a large scale these principles show us how to energetically charge support and guide the life systems and ecosystems that are in our care Accessibly written and with numerous color illustrations The Universe Loves a Happy Ending is an important book for anyone who acknowledges the importance of caring for the planet the environment and life at every level

A Cancer Treatment: A Journey on the Transformation away from Cancer: A Fictionalized Autobiographical Tale John L. McLure, 2015-11-09 The author is describing a cancer treatment that he feels is more humane His commitment to it brought about a transformation His participation put him in charge of his own healing A Cancer Treatment is a push to further a cause a cause that approaches the origin of cancer through the many imbalances in our human existence He confirms this science by outliving his dismal forecast by 14 Years

The Problem of Disenchantment Egil Asprem, 2018-05-31 Challenges the conventional view of a disenchanted and secular modernity and recovers the complex relation that exists between science religion and esotericism in the modern world Max Weber famously characterized the ongoing process of intellectualization and rationalization that separates the natural world from the divine by excluding magic and value from the realm of science and reason and fact from the realm of religion as the disenchantment of the world Egil Asprem argues for a conceptual shift in how we view this key narrative of modernity Instead of a sociohistorical process of disenchantment that produces increasingly rational minds Asprem maintains that the continued presence of magic and enchantment in people's everyday experience of the world created an intellectual problem for those few who were socialized to believe that nature should contain no such incalculable mysteries Drawing on a wide range of early twentieth century primary sources from theoretical physics occultism embryology radioactivity psychical research and other fields Asprem casts the intellectual life of high modernity as a synchronic struggle across conspicuously different fields that shared surprisingly similar intellectual problems about value meaning and the limits of knowledge The Problem of Disenchantment is in its entirety extraordinarily well researched argued and written representing at once the most complete and nuanced treatment of the notion of disenchantment within this network of scientific religious

philosophical and esoteric discourses and currents Nova Religio

The Imagination of Pentecost Richard Leviton, 1994 Carlo Pietzner speaks out of his own ego directed inner experiences about several motifs inherent to inner striving the problem of self in relationship to the world the disintegration of the three soul forces the transition from sense perception to spiritual perception the reality of evil the condition of loneliness and more

A Dark Muse Gary Lachman, 2009-09-09 The occult was a crucial influence on the Renaissance and it obsessed the popular thinkers of the day But with the Age of Reason occultism was sidelined only charlatans found any use for it Occult ideas did not disappear however but rather went underground It developed into a fruitful source of inspiration for many important artists Works of brilliance sometimes even of genius were produced under its influence In *A Dark Muse* Lachman discusses the Enlightenment obsession with occult politics the Romantic explosion the futuristic occultism of the fin de siècle and the deep occult roots of the modernist movement Some of the writers and thinkers featured in this hidden history of western thought and sensibility are Emanuel Swedenborg Charles Baudelaire J K Huysmans August Strindberg William Blake Goethe Madame Blavatsky H G Wells Edgar Allan Poe and Malcolm Lowry

The Guardian of the Threshold and the Philosophy of Freedom Sergei O. Prokofieff, 2011 The mystery of the Guardian and the Threshold he protects belong among the central most significant themes on the path of modern initiation For without the encounter with the Guardian the Threshold to the spiritual world can never be crossed in full consciousness The consequence would then be that for all the experiences in the realm on the other side of the Threshold there can be no certainty as to the truth of their contents from the preface Just as an entire plant is contained in seminal form in its seed the whole of Anthroposophy can be discovered in Rudolf Steiner's central work *The Philosophy of Freedom* *Intuitive Thinking as a Spiritual Path* a book that lays the foundation for a modern scientific path to the spiritual world Given the centrality of the Guardian of the Threshold to modern initiation one may ask where this theme can be found in *The Philosophy of Freedom* Sergei Prokofieff presents his insights to this little researched question in the first part of this volume In the second part he investigates the connection of *The Philosophy of Freedom* to the content of Rudolf Steiner's research into to what he called *The Fifth Gospel* Prokofieff's thoughtful commentary sheds new light on the connection between Rudolf Steiner's early work and what he developed later in life Study of the relevant texts reveals that the roots of Steiner's early work lie in the same spiritual reality the Christ impulse as that of the later Anthroposophy he would develop

Modern Esoteric Spirituality Antoine Faivre, Jacob Needleman, 1992 An insightful and substantive compilation on the subject of esotericism that will guide you through the labyrinth of gnosticism

The Dedalus Book of the Occult Gary Lachman, 2003 The occult was a crucial influence on the Renaissance and it obsessed thinkers like Isaac Newton Works of brilliance sometimes even of genius were produced under the influence of occultism Yet not too infrequently it also opened the door on a peculiar kind of madness *The Dedalus Book of the Occult* celebrates the influence of occult thought and sensibility on some of the central poets and writers of the last two centuries beginning with the Enlightenment obsession

with occult politics through the Romantic explosion the paradoxically decadent and futuristic occultism of the fin de siècle and the deep occult roots of the modernist movement Swedenborg Baudelaire Huysmans and Strindberg are only some of the names to feature in this hidden history of western thought Esoteric Astrology for the New Age, Vol 1: The Esoteric Foundations Bodo Balsys, 2023-09-14 There is a vast amount of esoteric information to further present to the world's disciples In the field of astrology this is especially needed The information here is based upon Alice Bailey's Esoteric Astrology and extends this work with additional esoteric information This is in line with what I have already published in my former books and presents a line of esoteric reasoning that most students of this doctrine have yet to discover These astrological volumes are the foundation for many revelations to come This volume presents the basis to comprehending the vast reaches of this science For enlightened beings astrological knowledge is the lore of the universe and this astrology governs the manifestation of cosmic Law The evolution of humanity is a progression and so also the evolutionary attainment of Hierarchy Hierarchy must move with the times and offer disciples more advanced esoteric lore and their higher scientific verities than was possible before This is one such presentation from the vast store of Hierarchical ken that hopefully many will gain succour from **How to Know Higher Worlds** Rudolf Steiner, 2021-02-23 This book is a manual for the attainment of knowledge of higher more spiritual worlds It opens new perspectives on the essential tasks of life Not everyone can immediately achieve spiritual vision but the discoveries of those who have it can be health giving life nourishment for everyone This process is facilitated by this manual From 1899 until his death in 1925 Steiner articulated an ongoing stream of experiences that he claimed were of the spiritual world experiences he said had touched him from an early age on Steiner aimed to apply his training in mathematics science and philosophy to produce rigorous verifiable presentations of those experiences Steiner believed that through freely chosen ethical disciplines and meditative training anyone could develop the ability to experience the spiritual world including the higher nature of oneself and others Steiner believed that such discipline and training would help a person to become a more moral creative and free individual free in the sense of being capable of actions motivated solely by love **Knowledge of the Higher Worlds** Rudolf Steiner, 2011-06 Rudolf Steiner Press has published a new series of re edited re typeset and re designed editions of the classic authorized translations of Rudolf Steiner's foundational books Each volume of this series is printed in a limited edition of 1 000 copies and sewn bound in high quality cloth finished with colored end papers and includes a book mark ribbon Steiner's foundational handbook for spiritual and personal development has grown more modern with time though his methods remain clearly distinguishable from many current paths of inner work First Steiner's method is based on the clarity of thought normally associated with scientific research Instead of denying clear thinking his aim is to extend it beyond its present limitations Second Steiner recognizes as do all genuine paths that the way to spiritual experience is arduous and dangerous and calls for self control in thought word and action The human being comprises a unity and we cannot develop knowledge without a corresponding

development of feeling and will Steiner predicted that humanity would begin to experience a longing for forms of experience that transcended intellectual materialistic thinking More than a hundred years after the first publication of this book countless means are offered for achieving transcendental experience including Eastern meditation practices channeling remote viewing and astral projection Moreover there has been a huge increase in the number of people who report various suprasensory perceptions such as near death experiences and meetings with angels In this context Steiner s key spiritual guidebook is needed more than ever given its unique precise instructions for inner training its protective exercises and its indications for staying grounded and centered Knowledge of the Higher Worlds begins with the preconditions for personal development and guides the reader through the stages of initiation its practical aspects and its effects Esoteric Astrology for the New Age, Vol 2: Cosmological Astrology Bodo Balsys,2025-01-08 This book will set the stage for the new cosmological understanding for our local universe from the astrological perspective The background for proper comprehension is my The Constitution of Shambhala plus Bailey s A Treatise on Cosmic Fire and Esoteric Astrology The focus is upon the Mother of the World s department and the disastrous events that happened upon the moon in that far distant past when it harboured a human kingdom The key individuals that went aberrant then through grievous sex magical practices have either since been converted upon the earth to become the Hierarchy of Enlightened Being or else are the forces of evil the dark brotherhood that have presently taken over planetary affairs That ancient history is traced to the next globe in our earth Scheme in the fifth Round that will bear a human kingdom The astrological conditions that set the stage for this is first established viewed from above down rather than from the normal earth centred astrology The focus is upon the activities of the former Logos of the moon Chain which was a Taurean dispensation ruled by the Mother s department Explained is His subsequent fall and incarnation upon the earth coupled with a similar though lesser fall of Sanat Kum ra He did so to properly monitor the consequent dangerous situation upon the earth because of the vast number of evil entities from the moon that subsequently incarnated to admix with the earth s indigenous humanity The events producing the great flood that sank the Atlantean continent have their true genesis here **National Union Catalog** ,1956 Includes entries for maps and atlases
