Botha, Liezel Frick, Nompilo Tshuma, 2025-09-29 *Doctoral Education in Context Perspectives from Africa* shares lived experiences and insights of doctoral supervisors from 16 different countries in Africa. The book's originality lies also in the contributors' profiles as practicing novice doctoral supervisors. All of them graduated from the Training Course for Supervisors offered by the Centre for Research on Evaluation Science and Technology CREST at Stellenbosch University in South Africa with the support of the German Academic Exchange Service DAAD German Rectors Conference HRK through the DIES Programme. The authors' commitment to doctoral supervision in their particular context is shown in each chapter. Many edited volumes bring together the voices of often established researchers; in this book we hear first hand the voices of novice supervisors who are willing to learn and share their insights and experiences in doctoral supervision. This perspective makes the unique strength and originality of the book. This book is for anyone involved in the research and practice of doctoral supervision in Africa and the global context.
