

The Duel for North America, 1608–1763

The most momentous and far-reaching question ever brought to issue on this continent was: Shall France remain here or shall she not?

Francis Parkman, 1884

Prologue: French exploration of North America penetrated deeply into Canada and the Mississippi Valley. At first there was elbow room for both the French and the English, but wars that were ignited in Europe spread to the New World and involved the colonists of both nations in a series of bloody clashes: King William's War (1689–1697), Queen Anne's War (1702–1713), King George's War (1744–1748), and the French and Indian War (1754–1763). Continuing rivalry between the English colonists and the French traders gradually became intense, and the showdown came in 1754 in the wilds of the Ohio Valley, where young George Washington's tiny army of Virginians was forced to surrender. The French and Indian War (called the Seven Years' War in Europe) thus began inauspiciously for the British and continued disastrously for them. In 1755 General Edward Braddock's army was almost wiped out near what is now Pittsburgh. At length, a new prime minister, William Pitt, infused life into the flagging cause. In 1759 Quebec fell to the heroic General James Wolfe, and the next year Montreal capitulated. By the Treaty of 1763, France was completely and permanently ejected from the mainland of North America. Meanwhile, the British victory both provoked fresh problems with the Indians in the Great Lakes region and caused new stirrings among the American colonists.
