Many users of the popular professional development book *The Power of Protocols* discovered that protocols are also very useful for online teaching. This new book by three of the same authors focuses on using protocols to enhance learning with their students in multiple environments including online, a growing sector of the educational world. *Going Online with Protocols* lays out the diverse challenges faced by teachers and by facilitators in the online world and provides readers with strategies to tackle them. The authors provide online adaptations for such traditional protocols as the Tuning Protocol, the Collaborative Assessment Conference, and the Consultancy Protocol. They also offer entirely new protocols unique to online environments. This dynamic resource combines a rich theoretical background with step by step illustrations of powerful protocols along with tips on how and when to use them.
