## **Guide For Attribute Blocks:**

**Guide to Math Materials** Phyllis J. Perry, 1997-02-15 Now it's easy to locate the materials you need to implement the new NCTM math standards. Organized by such math topics as problem solving, estimation, number sense and numeration and geometry and spatial relationships, this book shows users where to find manipulatives and materials such as attribute blocks, pattern blocks, clocks, scales, multilink cubes and prisms, calculators and sorting toys. It also lists specialized math books, computer software and a host of other learning materials e.g. activity cards, puzzles, posters, games, reproducibles. The author briefly describes each product, cites grade level when given, and explains possible applications. Products of exceptional quality and value are highlighted and the addresses of publishers and suppliers are given. A real time saver! Grades K-4

## **Analytical Thinking for Advanced Learners,**

**Grades 3-5** Emily Hollett, Anna Cassalia, 2022-07-29 Analytical Thinking for Advanced Learners Grades 3-5 will teach students to think scientifically, systematically and logically about questions and problems. Thinking analytically is a skill which helps students break down complex ideas into smaller parts in order to develop hypotheses and eventually reach a solution. Working through the lessons and handouts in this book, students will learn strategies and specific academic vocabulary in the sub skills of noticing details, asking questions, classifying and organizing information, making hypotheses, conducting experiments, interpreting data and drawing conclusions. The curriculum provides cohesive scaffolded lessons to teach each targeted area of competency followed by authentic application activities for students to then apply their newly developed skill set. This book can be used as a stand alone gifted curriculum or as part of an integrated curriculum. Each lesson ties in both reading and metacognitive skills, making it easy for teachers to incorporate into a variety of contexts
