Material is arranged logically for learning basic tonal relationships, phrases, and common shapes and motions in melodies. Chapters contain a short explanatory section, exercises in the melodic pattern to be studied, melodic analysis, and melodies for sight singing.

Sight Singing for Beginners, Level 1 I. J.

Farkas, 2016-11-30. Learn the basics of sight singing in 7 days with this innovative book. Sight Singing for Beginners Level I is a comprehensive and progressive audio course for group or self study. It is an effective method in a variety of situations including self study, private music lessons for singers in school, college, church, and community choirs. This course is a compact introduction to the basics of sight singing and adds more complicated elements one by one. There are sight singing examples and exercises used in each chapter with a recorded vocal example to check yourself. To listen to a selected exercise, click on the Hear button on supported devices or visit goo.gl/L9ezwA online. You can hear the example with a metronome to help you understand the rhythm. The note set, which is all the notes used in the example, is given above each example block. When you sing, try to grasp an entire phrase as a musical entity, avoiding note to note singing. You should practice a melody several times if necessary until ease and fluency are achieved. It is helpful to beat time as you sing or you may use standard conducting patterns. This book recommends singing in Solfege fixed Do system for sight singing music; any other system will work as well. The system applies standard syllables to the notes: Do, Re, Mi, Fa, Sol, La, Si, Do. Singing with solfege syllables makes it easier to hear and remember the sound of intervals and facilitates developing perfect pitch. In this system, the pitch C is always Do. Knowing how to read music will give you the confidence you need to improve as a singer/musician. Give yourself time to learn to sight sing. It takes a lot of practice and patience to develop a strong foundation in reading rhythms and sight singing melodies.

Tonal Sight-Singing, the Book Asaf Peres, 2013-03-11. Tonal Sight Singing the Book is the first of a series of three textbooks that attempt to guide the aspiring musician in confronting the challenges of sight singing, mainly when dealing with large intervallic skips. This is done through a series of exercises and melodies that are focused on specific scale degrees and allow us to get to know them and their role within the tonal system intimately in order for us to free ourselves from the need to calculate adjacent intervals. This book focuses mainly on the diatonic collection and dedicates a chapter to each of the diatonic scale degrees in major and minor. The future books will take a look at the altered chromatic scale degrees as well as the subtleties of local harmony and how it affects our perception of each scale degree.
