

ESSENTIAL STEPS

to *Brilliant* **CAR** **DETAILING**

Let's
SEE THE DETAILS
(You intended)

1 WASH

Wash vehicle using the two bucket method to avoid scratching your paint. Strip off old wax if needed using dish soap. If engine compartment detail is needed, do this first.

4 PREP

Wipe each section you clay to remove residue. A good idea is to further clean the paint of any residue with a post clay spritz. Some people like to wash again after clay.

7 PROTECT

WAX

After polishing, protect paint with wax or a synthetic paint sealant. Synthetic sealant can be the sole protection, but you can also layer carnauba wax over it.

10 WHEELS

Remove the wheels and clean inside out. Use older detailing clay to prep. Synthetic sealant for the wheels will help keep them clean longer. Dress your tires.

2 DRY

Dry your car using a blower - to avoid scratches and swirls. Blower is not available? Use two big and thick microfiber towels. One for drying, the other for leftovers.

5 INSPECT

Decide if the paint needs correction or swirl removal. A sharp Xenon or powerful LED lamp will help you see any imperfections in the paint and locate swirls.

8 INSIDE

Clean interiors while you wait for wax layers to cure. Vacuum and shampoo carpet if needed. Use a good quality interior trim protectant that does not leave a sticky residue.

11 GLASS

Treat windows, headlamps and tail lights with a non-abrasive sealant recommended for glass and shiny hard plastics. This adds UV protection and makes the surface slick.

3 CLAY

Clay the car using a good, clean and new clay bar lubricant. Quick detailer usually works well for this. Clay the windows, headlamps and tail lamps.

6 POLISH

If paint correction is needed, this is the part when the orbital buffer comes out. Choose your compounds and buffing pads according to polish needs.

9 FABRIC

Decide fabric treatment. Apply leather seat treatment for good appearance and protection. Apply carpet, mat and upholstery stain guard for added protection.

12 DETAILS

Don't miss the details. Clean and clay door jambs and around hood and trunk. Use synthetic sealant or wax for these areas. Apply protectant to exterior trim.

Following these detailing steps carefully will yield pro results every time.

REALLY WAXES™

Guide To Car Detailing
