Guide To Letter Writing To Daughter:

The Daughter's Dilemma Paula Marantz Cohen, 2025-10-01 The Daughter's Dilemma breaks new ground in literary studies through its application of family systems theory to the analysis of nineteenth century domestic novels Cohen argues for structural correspondences between families and novels as systems seeking closure they are governed by certain analogous laws She argues further that the father daughter dyad is the pivotal structure by which the nuclear family and the domestic novel were able to define themselves as closed systems The study treats novels by Samuel Richardson Jane Austen Emily Bronte George Eliot and Henry James and places them in the context of the writers individual family experiences Drawing on recent work in literary and feminist criticism anthropology history and psychoanalysis as well as family systems theory Cohen seeks to critique the limitations of these theoretical models even as she employs them to illuminate the texts under discussion The study's approach leads to insights about the contemporary family and about the present state of literature and literary criticism Cohen concludes by suggesting that the modern period marked the demise of an ideology favoring closed systems The result has been both a nostalgia for those systems and a redefinition of experience and relationship as open and subject to endless interpretation Such an ideological reformulation helps explain the present insistence by literary theorists on the inescapability of the text and the reality of representation Letter to My Daughter:

Fathers Margareth Lanzinger, 2016-02-05 The book examines the topic of paternal authority as it developed over a long period of time The focus is on the power of fathers as manifested within a complex fabric of legal social economic political and moral aspects In early modern times a father's power was based upon his personal and legal position as the one responsible for the family and the household in the sense of an economic unit as well as on his moral authority over all those

who belonged to said household At the same time the father was subject to public control and his legal status was characterized not only by power but also by obligations This status was modelled after the figure of the pater familias as conceived of in Roman law a concept that remained relevant up into the nineteenth century though not without changes Ultimately the figure of the pater familias came to overlap with the modern era perception of fathers disempowerment The chapters of this book analyse the public responsibility of fathers in the case of an adulterous daughter legal acts of emancipation by which a son could gain independence from his father and various opinions with regard to indulgent fathering paternal authority over married sons and provisions set out in wills This book was originally published as a special issue of The History of the Family

The Material Letter in Early Modern England J. Daybell, 2012-04-24 The first major socio-cultural study of manuscript letters and letter writing practices in early modern England Daybell examines a crucial period in the development of the English vernacular letter before Charles I's postal reforms in 1635, one that witnessed a significant extension of letter writing skills throughout society. Letters Between Mothers and Daughters Barbara Caine, 2018-02-02 There are now many studies of family letters in Europe but most of them focus on marital letters and letters between parents, especially mothers and their sons. Little attention has been paid to the letters to and from daughters. This volume seeks to begin filling that gap by exploring the continuities and changes evident in the letters written between mothers and daughters over several centuries. Some of these changes reflect the history of letters and the ways that they were written and delivered, especially the move from the use of scribes and couriers in the medieval and early modern period which made both the writing and reading of letters a public affair to the use of pens and the situation in which letters were able to be written in private and read only by the person to whom they were addressed. But the letters also reveal the changing nature of the mother and daughter relationship as the formal and more distant ties evident in the early period in which dynastic and other matters were often more important to a mother than her daughter's personal happiness were replaced by closer and more intimate ties and a concern with particular personalities and individual needs. This book was originally published as a special issue of *Women's History Review*. **God's Little Daughters** Ji Li, 2015-06-01 *God's Little Daughters* examines a set of letters written by Chinese Catholic women from a small village in Manchuria to their French missionary Father Lin or Dominique Maurice Pourqui who in 1870 had returned to France in poor health after spending twenty-three years at the local mission of the Soci  t   des Missions   trang  res de Paris (MEP). The letters were from three sisters of the Du family who had taken religious vows and committed themselves to a life of contemplation and worship that allowed them rare privacy and the opportunity to learn to read and write. Inspired by a close reading of the letters, Ji Li explores how French Catholic missionaries of the MEP translated and disseminated their Christian message in northeast China from the mid-19th to the early 20th centuries and how these converts interpreted and transformed their Catholic faith to articulate an awareness of self. The interplay of religious experience, rhetorical skill and gender relations revealed in the letters allow us to reconstruct the neglected voices
