Post Modern Investment Garry B. Crowder,Thomas Schneeweis,Hossein B. Kazemi,2012-11-08 Debunking outdated and inaccurate beliefs about investment management and reveals the new realities of the post modern financial markets There have been a lot of big changes in the investment world

over the past decade and many long cherished beliefs about the structures and performance of various investments no longer apply Unfortunately the news seems not to have reached many thought leaders and investment professionals who persist in trying and failing to apply 20th century thinking to 21st century portfolio management Nowhere is this more true than when it comes to the subject of alternative investments Written by an all star team of investment management experts this book debunks common myths and misconceptions about most classes of alternative investments and offers valuable advice on how to develop investment management and asset allocation strategies consistent with the new realities of the ever changing world of alternative investments Covers most alternative asset classes including private equity real estate managed futures hedge funds commodity indices and more Debunks long held assumptions about the structure and performance of various investment classes that continue to dominate the industry Explores the implications for investment managers of the proliferation of international marketable securities and global financial markets Provides an overview of both the micro and the macro aspects of each alternative investment class

What's Luck Got to Do with It? Joseph Mazur, 2010-05-17 The hazards of feeling lucky in gambling Why do so many gamblers risk it all when they know the odds of winning are against them Why do they believe dice are hot in a winning streak Why do we expect heads on a coin toss after several flips have turned up tails What s Luck Got to Do with It takes a lively and eye opening look at the mathematics history and psychology of gambling to reveal the most widely held misconceptions about luck It exposes the hazards of feeling lucky and uses the mathematics of predictable outcomes to show when our chances of winning are actually good Mathematician Joseph Mazur traces the history of gambling from the earliest known archaeological evidence of dice playing among Neolithic peoples to the first systematic mathematical studies of games of chance during the Renaissance from government administered lotteries to the glittering seductions of grand casinos and on to the global economic crisis brought on by financiers trillion dollar bets Using plenty of engaging anecdotes Mazur explains the mathematics behind gambling including the laws of probability statistics betting against expectations and the law of large numbers and describes the psychological and emotional factors that entice people to put their faith in winning that ever elusive jackpot despite its mathematical improbability As entertaining as it is informative What s Luck Got to Do with It demonstrates the pervasive nature of our belief in luck and the deceptive psychology of winning and losing Some images inside the book are unavailable due to digital copyright restrictions

The Fearful Rise of Markets John Authers, 2012-09-26 Concise relevant and perceptive this book should be read by all those interested in the way markets operate be they investors analysts or policy makers From the Foreword by Mohamed A El Erian CEO and co CIO of PIMCO and author of When Markets Collide A must read for anyone concerned about how we can avoid recurring debt induced busts in the years ahead or anyone who wonders how to invest if when the crisis returns Authers insights on the global financial crisis are profound Robert D Arnott Chairman Research Affiliates LLC In a crowded field of works on the financial crisis Authers work is unique in both its insight and style Robert R Johnson Ph D CFA Senior

Managing Director of the CFA Institute John Authers has combined his journalistically honed FT skills with great insights. Serious investors and policy makers should read this book. David R Kotok, Chairman and Chief Investment Officer of Cumberland Advisors, John masterfully drives a stake through the myth of global economic decoupling. One chapter and example at a time. A must read in today's economy. Vitaliy Katsenelson, Director of Research at Investment Management Associates Inc, author of *Active Value Investing: Making Money in Range Bound Markets*, Award winning Financial Times journalist John Authers explains the multiple roots of repeated financial crises. He explains why it is that investment bubbles now form all at once all across the world and why so many markets that were once considered disconnected are now able to collapse all at the same time. He offers a strategy for preventing future financial disasters. Market bubbles are growing ever bigger ever more terrifying. As soon as one ends the next one seems already to be inflating. Multiple markets once disconnected are aligning in ways that are increasingly unpredictable and uncontrollable. Something has changed. What can we do about it? *The Fearful Rise of Markets* explains how the world's markets became synchronised, how they formed a bubble, how they all managed to crash together and then rebound together and what can be done to prevent another synchronised bust in future. From post Depression regulation and the 1954 recovery from the Great Crash through the innovations and missteps that led to the collapse of Lehman Brothers in 2008 to the markets rally of 2009, *The Fearful Rise of Markets* details massive shifts in the way our money is invested and in the global balance of economic power.
