It's one of the best Photoshop software. This book has the best tutorials and hacks that will help a brand new user to get started with Lightroom Classic. Lightroom Classic is one of Adobe's premier software suites for photographers. Lightroom Classic has a built-in tone curve and it's not all that bad. The downside is that you can only use it for correcting white balance, which makes color correcting your images more difficult. Luckily, you can access the color correction options in the 3rd Party section of Lightroom Classic. You can also add a new palette to your Lightroom Classic workspace by using the add new palettes icon in the toolbar. Use it to drag a new palette onto your library, and you can easily remove it again. It's really handy to have. But that's not all Lightroom can do. You can set folders to be hidden or you can organize your files in various ways. Lightroom Classic offers capabilities to photographers to make adjustments to their pictures and create amazing photos. This book also discusses how to customize your Lightroom Classic workspace for the ultimate workflow and customization experience, plus many more tutorials to ace your photo editing skills. This book will show you how to take full advantage of Lightroom Classic with interesting topics such as: Taking a look at the interface, Want a better workflow, Customize your workspace now, Using the catalog, Organizing the catalog, How to organize your lightroom catalog using new folder library folders, Avoid multiple catalogs, merge them as one, What differs the lightroom from the lightroom classic, Using the context panel, Using the layer management assistant, What image formats does lightroom classic support, Other important options in lightroom, Lightroom cc settings for both lightroom cc and classic cc, Importing photos, Customizing import options, Using auto import, Setting up tethering, Accessing the library module, Using picture lock library module's command bar, Using the command bar in the library module, Using compare view, How to find your best photos using compare view in lightroom, Making use of collections, Necessity of the collections, The collection sets, Using the collection panel, This is how to create a collection, Utilizing smart collections, Difference between smart collections and collections group, Where are smart collections available, Color label customization, Guide on using templates, Lightroom classic templates, Using keywords, Using lightroom's levels adjustment brush to add light to shadows, Using lightroom's contrast tools to make shadows more realistic, Painter tool usage, Using filter bar, Using people view, Enabling people view in lightroom, How to adjust the people view effect in lightroom, Quick develop and auto tone, How to enable the quick develop button in lightroom classic, How to enable the auto tone button in lightroom, How to use quick develop and auto tone in lightroom classic, Merging photos with HDR panorama, Presets, how to install, Advanced tips, how to configure presets, Presets in lightroom, Making use of color grading, And many more.
