The Language Teaching Matrix Jack C. Richards, 1990-02-23 For use in courses on language teaching methodology and teacher preparation this book also

serves as an invaluable source for courses in language curriculum development materials development and teaching practice The author views effective language teaching as a network of interactions involving the curriculum methodology the teacher the learner and instructional materials hence the metaphor of a matrix Each chapter discusses and examines the theoretical and practical dimensions of a central issue in language teaching Among the topics covered are curriculum development designing instructional materials teaching listening speaking reading and writing the nature of effective teaching self monitoring in teacher development and language and content Richards presents key issues in an accessible and highly readable style and shows how teachers and teachers in training can be involved in the investigation of classroom teaching and learning The emphasis is not on prescriptions but rather on developing effective teaching through understanding the various factors that interact in second language learning and in the second language classroom **Course Design** Fraida Dubin, Elite Olshtain, 1986-09-26 Course planning and development in the context of current theories of language learning

Developing Materials for Language Teaching Brian Tomlinson, 2023-07-27 Viewing current developments in materials development through the eyes of developers users and researchers from all over the world this book applies principles to practice It provides a comprehensive coverage of the main aspects and issues in the field as well as critical overviews of recent developments in materials development and acts as a stimulus for innovation Now revised and updated to take account of developments over the last decade this 3rd edition features 8 new chapters covering materials use blended learning multimodality intercultural competence communicative competence the practical realisation of theoretical principles in the development of digital materials the teaching of right to left languages and the commodification of grammar Fully updated chapters with contemporary examples and considering teaching second and foreign languages other than English New pedagogical resources with the addition of tasks and further readings for each chapter New online resources 2 new chapters on producing videos on teacher development courses and materials development on teacher training courses and 2 updated chapters on development courses for teachers and simulations in teacher development alongside a range of additional tasks and further reading suggestions **Materials development for TESOL** Freda Mishan, 2015-06-03 Materials development has become much more important in the field of TESOL in the last twenty years modules on materials development are now commonplace on MA TESOL courses around the world The overall aim of the book is to introduce readers to a wide range of theoretical and practical issues in materials development to enable them to make informed and principled choices in the selection evaluation adaptation and production of materials The book aims to show how these choices need to be informed by an awareness of culture context and purpose *Exploring Language Pedagogy through Second Language Acquisition Research* Rod Ellis, Natsuko Shintani, 2013-07-31 Routledge Introductions to Applied Linguistics is a series of introductory level textbooks covering the core topics in Applied Linguistics primarily designed for those beginning postgraduate studies or taking an introductory MA course as well as advanced undergraduates Titles in the

series are also ideal for language professionals returning to academic study. The books take an innovative practice to theory approach with a back to front structure. This leads the reader from real world problems and issues through a discussion of intervention and how to engage with these concerns before finally relating these practical issues to theoretical foundations. Additional features include a glossary of key terms and discussion questions. Following the back to front approach of the series, the book takes problematic issues in language pedagogy as its starting points. These are then examined in terms of second language acquisition. Each chapter begins with a look at the pedagogical proposals found in teacher guides and then asks: Do these proposals accord with what we know about how languages are acquired? Pedagogical topics covered include teaching methods, syllabus design, explicit instruction, comprehension versus production based instruction, task based instruction, authentic materials, the role of the learners' first language in the classroom, error correction and catering for individual differences. Including a glossary of key terms and questions for discussion at the end of each chapter and assuming no prior knowledge of second language acquisition, this is the ideal text for all students studying language teaching methods, language teacher education, English teaching methodology and second language acquisition modules in advanced undergraduate and postgraduate graduate TESOL and Applied Linguistics courses.

English for Specific Purposes Tom Hutchinson, Alan Waters, 1987-01-29. The main concern is effective learning and how this can best be achieved in ESP courses. This book discusses the evolution of ESP, the role of the ESP teacher, course design, syllabuses, materials, teaching methods and evaluation procedures. It will be of interest to all teachers who are concerned with ESP. Those who are new to the field will find it a thorough practical introduction while those with more extensive experience will find its approach both stimulating and innovative.

Beyond Training Jack C. Richards, 1998-02-13. Beyond Training examines the nature of second language teacher development and how teachers' practices are influenced by their beliefs and principles. It seeks to move discussion of language teacher development beyond the level of training which reflects a technical view of specific teaching practices. Instead, it takes a more holistic approach to teacher development built on the notion of the teacher as critical and reflective thinker. The argument pursued throughout is that teacher education needs to engage teachers not merely in the mastery of techniques but in an exploration of the knowledge, beliefs and attitudes that underlie their teaching practices.
