

# 1989 Geo METRO SERVICE MANUAL

## FOREWORD

This manual contains procedures for diagnosis, maintenance adjustments, minor service operations, and overhaul procedures for the Geo METRO.

The Section Index on the contents page enables the user to quickly locate any desired section. At the beginning of each section containing more than one major subject is a Table of Contents, which gives the page number on which each major subject begins. When necessary, an index is placed at the beginning of each major subject within the section.

Summaries of Special Tools, when required, and Specifications are found at the end of major sections.

When reference is made in this manual to a brand name, number, or specific tool an equivalent product may be used in place of the recommended item.

This manual should be kept in a handy place for ready reference. If properly used, it will enable the technician to better serve the owners of these vehicles.

All information, illustrations, and specifications contained in this literature are based on the latest product information available at the time of publication approval. The right is reserved to make changes at any time without notice.

**NOTICE:** When fasteners are replaced, always reinstall them in the same location from which they were removed. If a fastener needs to be replaced, use the correct part number. Some fastener specifications are not available. If the correct part number cannot be determined, a fastener of equal size and strength for design may be used. Fasteners that are not correct, and those requiring thread locking compound will be marked with the correct torque value must be used where installing fasteners that require it. If the above conditions are not followed, parts or system damage could result.
