*The Maya Forest Waterlands* Hanna Laako, Edith Kauffer, 2025-02-12 This book examines the entanglements and blurred edges of nature conservation and geopolitical relations in the borderlands of the trinational Maya Forest Maya Forest is an umbrella term for transboundary conservation developed by scientists and conservationists in the 1990s to protect the threatened rainforest in the borderlands of Mexico Belize and Guatemala Currently the Maya Forest is a biodiversity hotspot composed of a network of protected areas and heritage sites However issues related to water land and forests have often been treated as separate political units and not as part of the same history Written by two authors with decades of hands on experience in this region this book sheds light on the complex dynamics by which conservation and natural resource management geopolitically shape borderlands such as the Maya Forest The book introduces the novel concept of forest waterlands as borderlands and fluid edges which are now subject to concern by conservationists These are entangled spaces in which conservation peoples and politics interact connect and disconnect with the nexus of waters forests and lands The book sheds light on the building and mapping of the Maya Forest ecoregion with particular attention to water as an often neglected but unifying element It showcases how the Maya Forest is a distinct region characterized by transformations entangled with the Maya trails of biological stations the shared history of chicleros chewing gum hunters fluid international rivers and transboundary basins and various geopolitical discrepancies It offers a contemporary glimpse into the Maya Forest s intertwined bio and geopolitics which urge us to rethink borders and boundaries This book will be of great interest to students and scholars of

**Abingdon Old Testament Commentaries: Ruth** Prof. Judy Fentress-Williams, 2012-06-01 From the Introduction Described by Goethe as the most charming little whole of antiquity Ruth has long been recognized for its literary quality This beautifully composed narrative continues to attract readers across generations and boundaries of gender class and ethnicity In fact the beauty of the book often distracts from the practical nature of the narrative For all of its appeal Ruth is after all a story about family and survival The marriage between Ruth and Boaz is a levirate marriage The goal of this practice is to ensure the continuation and stability of the family line Thus this charming little whole has as its subject preservation of life in the face of death and upholding memory to ward off the loss of identity This story of survival is short it consists of four chapters with elements of loss and recovery famine and harvest barrenness and fruitfulness life and death These elements afford the book a broad appeal as it speaks to various stages and seasons of life all the while upholding the power of faithfulness against an ever changing backdrop Named after one of the major characters the book of Ruth tells the story of Naomi of Bethlehem and her family in the days when the judges ruled So much of what happens in Ruth happens where no one can see Ruth binds herself to Naomi in the in between place of Moab and Judah No one is there to witness it Similarly Ruth asks Boaz for redemption in the middle of the night when we presume everyone else is asleep These events allow for the inclusion of Ruth as Boaz's people first as a gleaner and then as a wife The pattern of what happens away from our observation and then bursts forth where we can see it draws on the images of planting and harvest conception and birth On a theological level it suggests that even in the famine times God is planting seed preparing for the next harvest even when we cannot see it We must assume then that whatever we know or recognize about the work of God is only a small piece of the larger whole We cannot know it all Chapters Introduction A Dialogue of Determination Terms of Endearment A Cloaked Covenant A Dialogue of Identity Conclusion
