Cultivating a Math Coaching Practice Amy Morse, 2009-04-14. This new resource draws on cases of coaching practice to provide grounded opportunities for communities of math coaches to strengthen their practice. It is an exciting and important resource for anyone responsible for the professional development of math coaches. Linda Ruiz, Davenport Senior Program Director of Elementary Mathematics, Boston Public Schools, MA. Written case studies of math coaching are essential tools to facilitate the professional development of our mathematics coaches who work hand in hand with over 200 schools in our district. Lance Menster, Manager of Elementary Mathematics, Houston Independent School District, TX. Deepen your understanding of math coaching practices. Given the current demands of a math teaching practice, this case-based resource helps math coaches, prospective coaches, and administrators develop their knowledge of math content, hone their coaching skills, and enhance their ability to provide professional development for teachers in Grades K-8. Field-tested in a number of school districts nationwide, this concise guide presents authentic accounts of coaching practice dilemmas and insights. The cases written by practicing math coaches emphasize developing a deep understanding of mathematics, analyzing students' ideas, and teachers' beliefs about learning and cultivating teacher learning and growth. Amy Morse provides Math activities that strengthen a coach's math content knowledge, planning activities to support thoughtful coach-teacher interactions, a detailed facilitator's guide for staff developers leading professional development opportunities for math coaches, providing a detailed agenda, specific examples of participants' questions and facilitator responses. *Cultivating a Math Coaching Practice* gives math leaders the tools to help teachers create quality math programs and bolster student achievement.

Test Driven Linda Valli, 2008-07-24. I don't always know students by face; I know them by data. An elementary curriculum specialist explains ruefully in this broad examination of how No Child Left Behind impacts schools and shapes teaching practice. Capturing the changes teachers are experiencing, especially in the areas of mathematics and reading, the authors compare and contrast three schools with diverse student populations, examining how they differ in school norms and structures, professional roles and responsibilities.

Beyranevand, 2017-05-24 Teaching mathematics is one of the most difficult and important jobs that anyone can do Mathematics is a critical part of education and an essential building block for problem solving skills that are needed in the real world However many students struggle to learn and understand mathematical concepts and educators need to do everything possible to help our students learn This book focuses on four areas necessary to be an impactful teacher of mathematics Planning Pedagogy Assessment and Relationships For each of the ideas presented in the book a brief introduction will be shared and then two different perspectives will be detailed with examples The first is Not like This which is often the traditional way of teaching mathematics or the less effective approach The second perspective is Teach Like This which is my recommended approach based upon research and my own experience as a teacher math coordinator and graduate instructor of math education **Fair Isn't Always Equal** Rick Wormeli, 2006 Differentiated instruction is a nice idea but what happens when it comes to assessing and grading students What's both fair and leads to real student learning Fair Isn't Always Equal answers that question and much more Rick Wormeli offers the latest research and common sense thinking that teachers and administrators seek when it comes to assessment and grading in differentiated classes Filled with

real examples and gray areas that middle and high school educators will easily recognize Rick tackles important and sometimes controversial assessment and grading issues constructively The book covers high level concepts ranging from rationale for differentiating assessment and grading to understanding mastery as well as the nitty gritty details of grading and assessment such as whether to incorporate effort attendance and behavior into academic grades whether to grade homework setting up grade books and report cards to reflect differentiated practices principles of successful assessment how to create useful and fair test questions including how to grade such prompts efficiently whether to allow students to re do assessments for full credit This thorough and practical guide also includes a special section for teacher leaders that explores ways to support colleagues as they move toward successful assessment and grading practices for differentiated classrooms

Conversation Starter Steve C. McCullar, 2023-02-08 Conversation Starter Let s Talk Business Teaching and Training in Churches By Steve C McCullar Are your business meetings at church unproductive Do your leadership development programs need to be developed Are you lacking experienced teachers and trainers and only using the volunteers that are available and have no program to build them up Have you ever had those tough conversations about your church s needs in the areas of business teaching and training Motivational speaker corporate trainer and business professor Steve McCullar talks about starting those conversations With over 20 years of teaching and training experience in academic and corporate settings along with experience working in ministry and developing church programs Steve uses biblical principles to start conversations Through stories humor and practical tips and strategies he demonstrates the importance of organizational alignment within the churches especially in the area of learning and development Among these pages you ll discover topics about Why Jesus was called the Master Teacher and not the Master Preacher Dealing with church folk who only want to hear but don t want to do The importance of teachers and trainers in your church Why your church meetings have increased socializing but decreased results Pastoral relationships with the teachers and trainers and pitfalls for all Teaching and Training are ministries While many shy away from what they call a corporate approach this book demonstrates through scripture how God is a businessman Be prepared to put away the thinking that the church should not operate with standard business practices But also be prepared to let go of the business practices that you encounter outside of the church as those negative unproductive and sometimes divisive practices do not have to continue within the church This book is an excellent resource for teachers trainers and even pastors because it will help to identify areas that need to be discussed Don t shy away from the conversations
