## **Making It Real Case Stories For Secondary Teachers:**

Making it Real Julie A. Gorlewski, David A. Gorlewski, 2012-09-05 This book provides no answer key If you are looking for one right answer go elsewhere Implicit in the current educational reform movement towards standards and standardization is the belief that the work of teachers is quantifiable that the hours and days of contact time between teachers and students can be reduced to a number that has meaning in short that there is one right answer Making it Real Case Stories for Secondary Teachers focuses not on the episodic nature of the standardized test but on those hours and days of contact time that represent the essence of what teachers do on a daily basis Within that context teachers are called upon to make hundreds of decisions each day decisions which require knowledge and expertise about planning learner development content knowledge student assessment and ethical practice among many others These decisions are not made easily and cannot be quantified because they take place in the complex world of human nature and human activity where values and priorities conflict and often clash The teachers administrators and students in Making it Real Case Stories for Secondary Teachers represent the day to day situations relationships conflicts and dilemmas that exist in every school No formulas are presented No secrets are revealed Rather the authors provide a template for analysis that encourages readers to place themselves in these real life school settings and consider the causes and consequences of their decisions for themselves their students and society as a whole

Through a Distorted Lens Laura M. Nicosia, Rebecca A. Goldstein, 2017-07-20 This volume examines what and how the media teach to and by whom and for what purpose in a rapidly shifting milieu of media content platforms and relations While intimately concerned with education authors move the discussion beyond the setting of formal schooling to uncover the ways in which the media contribute to individual and collective understandings of self and other and their relations to society and communities in which they move In doing so the text encourages readers to transcend exclusionary discussions of citizenship to consider participation in local and global geographies against a neoliberal backdrop that marginalizes those unable to unwilling to and excluded from competing in the free market Contributors extend their deliberations back to formal school settings to reaffirm pedagogies that rediscover the reading of texts broadly defined in the world through multimodalities In this sense the text strives to be transdisciplinary and is appropriate for use in multiple disciplines and fields of study

**Social Context Reform** Paul Thomas, Brad J. Porfilio, Julie Gorlewski, Paul R. Carr, 2014-06-20 Currently both the status quo of public education and the No Excuses Reform policies are identical The reform offers a popular and compelling narrative based on the meritocracy and rugged individualism myths that are supposed to define American idealism This volume will refute this ideology by proposing Social Context Reform a term coined by Paul Thomas which argues for educational change within a larger plan to reform social inequity such as access to health care food higher employment better wages and job security Since the accountability era in the early 1980s policy public discourse media coverage and scholarly works have focused primarily on reforming schools themselves Here the evidence

that school only reform does not work is combined with a bold argument to expand the discourse and policy surrounding education reform to include how social school and classroom reform must work in unison to achieve goals of democracy equity and opportunity both in and through public education This volume will include a wide variety of essays from leading critical scholars addressing the complex elements of social context reform all of which address the need to reconceptualize accountability and to seek equity and opportunity in social and education reform *Integrating Social Justice Education in Teacher Preparation Programs* Clausen, Courtney K., Logan, Stephanie R., 2020-06-26 Due to the increasingly diverse populations found in Pre K 12 education it is imperative that teacher educators prepare preservice teachers to meet the shifting needs of changing student populations Through the integration of social justice education teacher educators can challenge the mainstream curriculum with a lens of equity and collaborative equality Handbook of Research on Integrating Social Justice Education in Teacher Preparation Programs is a critical research book that explores the preparation and teaching methods of educators for including social justice curriculum Highlighting a wide range of topics such as ethics language based learning and feminism this book is ideal for academicians curriculum designers social scientists teacher educators researchers and students Research Anthology on Racial Equity, Identity, and Privilege Management Association, Information Resources, 2022-01-14 Past injustice against racial groups rings out throughout history and negatively affects today's society Not only do people hold onto negative perceptions but government processes and laws have remnants of these past ideas that impact people today To enact change and promote justice it is essential to recognize the generational trauma experienced by these groups The Research Anthology on Racial Equity Identity and Privilege analyzes the impact that past racial inequality has on society today This book discusses the barriers that were created throughout history and the ways to overcome them and heal as a community Covering topics such as critical race theory transformative change and intergenerational trauma this three volume comprehensive major reference work is a dynamic resource for sociologists community leaders government officials policymakers education administration preservice teachers students and professors of higher education justice advocates researchers and academicians **Rubric Nation** Michelle Tenam-Zemach, Joseph E. Flynn, 2015-04-01 What is a rubric and how are they being used in teacher education and evaluation When did rubrics become ubiquitous in the field of education What impact do rubrics have on students teachers teacher educators and the educational enterprise This book is an edited volume of essays that critically examine the phenomenon of rubrics in teacher education evaluation and education more broadly Rubrics have seen a dramatic rise in use and presence over the past twenty five years in colleges of education and districts across the country Although there is a wealth of literature about how to make rubrics there is scant literature that explores the strengths and weaknesses of rubrics and the impact the rubric phenomenon is having in reshaping education The chapters included in this edited volume will critically reflect on the contemporary contexts of rubrics and the uses and impact of rubrics in education Since rubrics have

become indelible in education it is necessary for a fuller nuanced discussion of the phenomenon Creating a book that explores these aspects of rubrics is timely and fundamental to expanding the discourse on this ubiquitous evaluation tool This book is not meant to be a series of chapters dedicated to best practices for creating rubrics nor is this text meant to present all sides of the rubric discussion Rather this text intends to offer critical polemics about rubrics that can spur greater critical discussion about a phenomenon in education that has largely been unquestioned in the literature

*Professional Issues in Secondary Teaching* Carrie Mercier, Carey Philpott, Helen Scott, 2013-02-08 How can I develop my identity as a teacher How does engaging in research benefit my own teaching practice Becoming a successful teacher in secondary education requires a strong understanding of a wide range of professional teaching issues including practical concerns such as curriculum development and learning through observation in the classroom alongside key conceptual aspects such as critical reflection and understanding the nature of learning This book addresses these issues alongside a range of additional important contemporary topics in secondary education Highlighting the importance for student teachers to enhance their development by engaging with research *Professional Issues in Secondary Teaching* is designed to support professional studies modules on secondary initial teacher education including postgraduate and employment based routes into teaching and early career teachers seeking to enhance their practice Carrie Mercier is Senior Lecturer at the University of Cumbria Carey Philpott is currently an Associate Dean in the School of Education Faculty of Humanities and Social Sciences at the University of Strathclyde Helen Scott is the Deputy Dean for Student Experience in the School of Education at the University of Northampton
