Loh,2022-04-19 This book provides an insight into girls cultural identities and young femininities through an understanding of tween girls dressing in Singapore The book adopts a girl centred approach to shed light on the narratives and experiences of young Singaporean girls that have often been overlooked It draws on the conversations with young Singaporean girls aged 8 to 12 to understand how they wanted to dress from where they gained their inspiration and what the social factors were that influenced their dressing Through understanding how girls want to fashion themselves the book shows that it is imprecise to discuss issues based on the assumption that there is one dominant correct way to grow up as a young person in Singapore This book unpacks how young Singaporean girls negotiate their cultural identities through clothing that do not

simply conform to or reflect their roles as students It also shows how girlhood in Singapore is multi faceted and the values and meanings that tween girls attach to their dressing intersect at the personal social and cultural level The book offers new ways of approaching and looking at girls adult like dressing that move beyond the discourse of sexualisation In establishing a space for young Singaporean girls voices in an area that has been dominated by studies from the West this book also shows how the focus on tween girls in Asia can contribute to and advance the current state of girls studies *Encyclopaedia*

MacDonald,2017-01-23 This book explores the ways in which notions of childhood are being influenced by a rapidly expanding consumer media culture in the 21st Century It has been argued that new stages of childhood are being created and defined by children s role as consumers The concept of tween girls aged between 9 and 14 has generated the greatest debate While the fantasy world of tween offers girls a space to fashion a young feminine identity it has been widely argued that the consumer media s messages pressure tween girls to consume and adopt highly sexualised appearances and behaviours The author considers how the art of consumption for tween girls is intrinsically linked with their desire for independence and belonging and how their consumption is interwoven with other important social and cultural influences The book will be of interest to scholars and students in the fields of Childhood and Youth Studies Cultural Studies Feminist and Women s Studies and Sociology An Analytical Digest of the Law and Practice of the Courts of Common Law, Divorce, Probate, Admiralty and Bankruptcy, and of the High Court of Justice and the Court of Appeal of England Ephraim A.
