Gench, 2020-10-29 This volume explores the essential relationship between spirituality and activism in conversation with a political theology of the cross The author contends that contemplative practice and activism bear the same cruciform footprint and are integrally connected for the cross of Jesus Christ reveals both the brokenness in our lives and the corresponding brokenness in the world it also discloses the God who is always and already bringing resurrection and life out of the death tending ways of our world The cross and resurrection expose other crosses large and small that litter the landscape of our world and of our personal and corporate lives as well as places where God s resurrecting power is at work bringing life out of death and establishing footholds for the unfolding of the new creation The volume engages Paul s Letter to the Galatians and new scholarly readings of it as a rich resource for reflection on these matters and explores the fruit of the Spirit as political virtues that empower communal participation in God s restorative work in the world Providing new angles of vision on both the cross and the apostle Paul the book expands and enlivens reflection on spirituality and activism as profound and generative resources for contemporary faith and practice *Mindful America* Jeff Wilson, 2014-07-01 Thirty years ago mindfulness was a Buddhist principle mostly obscure to the west Today it is

a popular cure all for Americans daily problems A massive and lucrative industry promotes mindfulness in every aspect of life however mundane or unlikely Americans of various faiths or none at all practice mindful eating mindful sex mindful parenting mindfulness in the office mindful sports mindfulness based stress relief and addiction recovery and hire mindful divorce lawyers Mindfulness is touted by members of Congress CEOs and Silicon Valley tech gurus and is even being taught in public schools hospitals and the military Focusing on such processes as the marketing medicalization and professionalization of meditation Jeff Wilson reveals how Buddhism shed its countercultural image and was assimilated into mainstream American culture The rise of mindfulness in America Wilson argues is a perfect example of how Buddhism enters new cultures and is domesticated in each case the new cultures take from Buddhism what they believe will relieve their specific distresses and concerns and in the process create new forms of Buddhism adapted to their needs Wilson also tackles the economics of the mindfulness movement examining commercial programs therapeutic services and products such as books films CDs and even smartphone applications Mindful America is the first in depth study of this phenomenon invaluable for understanding how mindfulness came to be applied to such a vast array of non religious concerns and how it can be reconciled with traditional Buddhism in America [A Companion to Buddhist Philosophy](#) Steven M. Emmanuel,2013-01-22 A Companion to Buddhist Philosophy is the most comprehensive single volume on the subject available it offers the very latest scholarship to create a wide ranging survey of the most important ideas problems and debates in the history of Buddhist philosophy Encompasses the broadest treatment of Buddhist philosophy available covering social and political thought meditation ecology and contemporary issues and applications Each section contains overviews and cutting edge scholarship that expands readers understanding of the breadth and diversity of Buddhist thought Broad coverage of topics allows flexibility to instructors in creating a syllabus Essays provide valuable alternative philosophical perspectives on topics to those available in Western traditions *Religious Diversity—What's the Problem?* Rita M. Gross,2014-04-24 Once upon a time on grounds of both religion and common sense people assumed that the earth was flat and that the sun literally rose and set each day When newly developing knowledge made those beliefs untenable giving them up was difficult Today the belief that only one of the world's various religions is true for all people on earth is equivalent to the belief in a flat earth Both notions have become untenable given contemporary knowledge about religion Even though many people are still troubled by the existence of religious diversity today that diversity is a fact of life Religious diversity should be no more troubling to religious people than the fact that the earth is round and circles the sun This provocative book based on the author's longtime practice of Buddhism and comparative study of religion provides tools with which one can truly appreciate religious diversity as a gift and resource rather than as a deficiency or a problem to be overcome After we accept diversity as inevitable and become comfortable with it diversity always enriches life both nature and culture [Community Energy in Germany](#) Jörg Radtke,2023-05-31 In this ground breaking book Jörg Radtke offers for the first time within research a

comprehensive insight into the range of organizational structures of community energy projects in Germany and their contribution to the Energiewende Based on nationwide quantitative survey data and in depth analyses of selected case studies of solar wind and geothermal projects Radtke documents the social structure and motivations of participating citizens He examines new forms of material participation community building and co determination within the mostly volunteer led community energy projects based on the civic engagement patterns of active green citizens The author identifies a new form of individualistic participation and collective modes of action in line with new types of project oriented participation between business politics and civil society within sustainability transformation processes of the early 21st century **Radical**

Mindfulness James K. Rowe, 2023-10-26 Radical Mindfulness examines the root causes of injustice asking why inequalities along the lines of race class gender and species continue to exist Specifically James K Rowe examines fear of death as a root cause of systemic inequalities and proposes a more embodied approach to social change as a solution Collecting insights from powerful thinkers across multiple traditions including Black radicals Indigenous resurgence theorists terror management theorists and Buddhist feminists Rowe argues for the political importance of seemingly apolitical practices such as meditation and ritual On their own these strategies are not enough but integrated into social movements that are combating structural injustices mind body practices can begin transforming the embodied fears that feed endless fuel to supremacist ideologies and yet are not targeted by most political actors Radical Mindfulness is for academics activists and individuals who want to overcome supremacy of all kinds but are struggling to understand and develop methods for attacking it at the roots **Not Quite Nirvana** Rachel Neumann, 2012-09-18 The book is a memoir of how a skeptical fast talking New Yorker became Thich Nhat Hanh's editor turned forty realized she was aging and slowly and reluctantly started to absorb

Buddhism and Whiteness Emily McRae, George Yancy, 2019-05-13 The motivation behind this important volume is to weave together two distinct but we think complementary traditions the philosophical engagement with race whiteness and Buddhist philosophy in order to explore the ways in which these traditions can inform correct and improve each other This exciting and critically informed volume will be the first of its kind to bring together essays that explicitly connect these two traditions and will mark a major step both in understanding race and whiteness with the help of Buddhist philosophy and in understanding Buddhist philosophy with the help of philosophy of race and theorizations of whiteness We expand upon a small but growing body of work that applies Buddhist philosophical analyses to whiteness and racial injustice in contemporary U S culture Buddhist philosophy has much to contribute to furthering our understanding of whiteness and racial identity the mechanisms that create and maintain white supremacy and the possibility of dismantling white supremacy We are interested both in the possible insights that Buddhist metaphysical epistemological and ethical analyses can bring to understanding race and whiteness as well as the potential limitations of such Buddhist inspired approaches In their chapters contributors draw on Buddhist philosophical and contemplative traditions to offer fresh insightful and powerful perspectives on issues regarding racial identity and whiteness including such themes as cultural appropriation mechanisms of racial injustice and racial justice phenomenology of racial oppression epistemologies of racial ignorance liberatory practices with regard to racism Womanism and the intersections of gender based raced based and sexuality based oppressions Authors make use of both contemporary and ancient Buddhist philosophical and contemplative traditions These include various Asian traditions including Theravada Mahayana Tantra and Zen as well as comparatively new American Buddhist traditions

Reincarnation Thich Nhat Hanh, Phap Luu, 2025-10-28 Every moment is a moment of rebirth And because the future is made of the present we must live so that we have peace freedom and happiness in this moment In this book with characteristic clarity and simplicity Thich Nhat Hanh offers deep reflections on reincarnation or continuation Using intuitive examples a teapot parents and children banyan trees and more Thich Nhat Hanh breaks down what it means to go beyond the notions of birth and death Influenced by what and how we consume our actions of thought speech and body are our true continuation Moving into the future as the totality of our actions we can see ourselves as more than this body and mind When we free ourselves from a limited conception of who we are when we let go of self attachment we make possible a true understanding of rebirth

Applied Mysticism Richard H. Jones, 2025-03-01 Examines how mystical practices and experiences are being applied in secular contexts today Today is an

exciting time for mysticism Interest in mysticism today often involves what Aldous Huxley called applied mysticism that is taking mystical practices and experiences out of their traditional contexts where the focus was on the total transformation of the individual and applying them often within a secular framework to help other people with more limited this worldly problems such as a person's well being in society or general social change Neuroscientists are taking mystical experiences seriously studying meditators and psychedelic subjects to gain knowledge of how the brain works Cognitive scientists are exploring mystical altered states of consciousness to expand the spectrum of consciousness states in particular whether there is a state of pure consciousness Buddhist meditation is being taken out of its religious contexts and adapted by psychotherapists to help with problems such as depression or addiction The use of psychedelics in psychotherapy is also gaining traction while New Age thinkers are extolling the alleged merger of post Newtonian science with mysticism Mystical ideas are being adapted to problems on the social level for example in socially engaged Buddhism This is the first book to explore all these varieties of applied mysticism together and to examine the current state of the field with a focus on philosophical issues in a readily accessible manner

The Dharma and Socially Engaged Buddhist Economics Joel Magnuson, 2022-03-17 This book defends and articulates an Engaged Buddhist approach to economics as a response to the destructive effects of global capitalism The author posits that Buddhist understandings of the distortions of greed aversion and ignorance can be read to apply not only to mental states but also to socio political ones and that such a reading suggests rational responses to current social and environmental challenges The book proposes that we engage both inner and outer modes of transformation through which to free ourselves from our current human made dysfunctional systems the former by examining the workings of our own minds the latter by criticizing and reforming our economic systems Since traditional Buddhism provides few sources to build a Buddhist economic vision this work brings together Buddhist notions of skillful practice John Dewey's pragmatic principles for social provisioning and institutional economics The author provides two case studies for experiments in Buddhist based socioeconomic policies Thailand and Bhutan Of special interest is the implied parallel between worldviews emerging from modern socially engaged Buddhism and Dewey's notion of a human existential drive to shape the world in collectively beneficial ways
