Good Study Guide Andrew Northedge:

The Good Study Guide Andrew Northedge, 2005-01-01 Developing your learning skills is one of the best investments you can make. We all need to be lifelong learners now. Whether you are an experienced student or just starting out, this book will stimulate, guide and support you. It will make you think about yourself and how your mind learns. And it will change forever the way that you study. Topics include: motivating yourself and managing your time; taking full advantage of your computer; reading with concentration and understanding; developing flexible note-taking strategies; getting the most from seminars and workshops; making presentations; researching online; handling numbers and charts with confidence; writing clear, well-argued assignments; doing yourself justice in exams. For more information go to www.goodstudyguide.co.uk *Learning how to learn* The Open University, 1984-01-01 This 6-hour free course explored how to make the process of learning more effective by applying various ideas and activities to your own study. *Ace Your Exam* Andrew Northedge, 2020-12-08 This practical and reassuring guide will ensure your students pass their exams with flying colours. *Ace Your Exam* establishes a clear, simple framework for revision and helps students get to grips with what exams are all about. Part 1 begins by exploring institutional expectations and common anxieties and exam myths, before showing students how to tackle various types of exam, including essay-based exams, short-answer questions, multiple-choice questions, calculation-based exams and open-book exams. Part 2 helps readers plot an effective revision strategy for an imminent exam and equally important, a detailed strategy for optimal use of time and productive powers during the exam. Finally, Part 3 helps students put their plans into action. *Ace Your Exam* will be an essential companion to all students preparing for and taking exams. More working with charts, graphs and tables The Open University, Studying this 15-hour free course enabled you to build on skills of interpreting information represented in charts, graphs and tables. Working with charts, graphs and tables The Open University, Studying this 15-hour free course helped to develop the skills needed to interpret information represented in charts, graphs and tables. Maths for science and technology The Open University, This 15-hour free course demonstrated how to reflect on maths knowledge and to identify and learn skills needed for science and technology. **Study Skills** Roy Johnson, 1996 This is a guide to all the skills required when studying in further and higher education.
