Conservation in the 21st Century: Gorillas as a Case Study T.S. Stoinski, H. D. Steklis, P.T. Mehlman, 2009-07-09 Like other fields of science wildlife conservation is a changing field Threats facing wild populations of apes and other species say 20 years ago are likely not the same ones most pressing today and even where threats have remained unchanged more effective means of addressing them may be available now Conservation scientists have learned from many years of experience and both theoretical and technological advances today provide conservation tools not available in the past This volume identifies the primary problems faced in conserving wild populations of gorillas throughout Africa pinpointing new approaches to solving these problems and outlining the increased role that zoos can play in gorilla conservation It includes expertise of field scientists in a variety of disciplines to discuss current conservation threats novel approaches to conservation and potential solutions

Great Apes and Humans Benjamin B. Beck, Tara S. Stoinski, Michael Hutchins, Terry L. Maple, Bryan Norton, 2014-05-27 The great apes gorillas chimpanzees bonobos and orangutans are known to be our closest living relatives Chimpanzees in particular share 98 percent of our DNA and scientists widely agree that they exhibit intellectual abilities long thought to be unique to humans such as self awareness and the ability to interpret the moods and identify the needs of others The close relation of apes to humans raises important ethical questions Are they better protected in the wild or in zoos Should they be used in biomedical research Should they be afforded the same legal protections as humans *Great Apes and Humans* is the first book to present a spectrum of viewpoints on human responsibilities toward great apes A variety of field biologists academic scientists zoo professionals psychologists sociologists ethicists and legal scholars consider apes in both the wild and captivity They present sobering statistics on the declining numbers of wild apes specifically discussing the decimation of great ape populations due to wild game consumption They explore the role of apes in the educational missions of zoos as well as the need for sanctuaries for wild ape orphans and former research subjects After examining the social division between apes and humans from historical evolutionary and cognitive perspectives they conclude by reviewing the current moral and legal status of great apes as well as how apes cognitive skills inform these issues Although this provocative book contains many different opinions the uniting concern of the contributors is the safety and well being of great apes Only by continuing the dialogue so clearly presented here can we hope to ensure their future
