Hopkins, 2015-11-15 Nicholas Hawksmoor 1662-1736 is one of English history's greatest architects outshone only by Christopher Wren under whom he served as an apprentice A major figure in his own time he was involved in nearly all the grandest architectural projects of his age and he is best known for his London churches six of which still stand today Hawksmoor wasn't always appreciated however for decades after his death he was seen as at best a second rate talent From the Shadows tells the story of the resurrection of his reputation showing how over the years his work was ignored abused and altered and finally recovered and celebrated It is a story of the triumph of talent and of the power of appreciative admirers like T S Eliot James Stirling Robert Venturi and Peter Ackroyd all of whom played a role in the twentieth century recovery of Hawksmoor's reputation Religion and Art in the Heart of Modern Manhattan Aaron Rosen, 2017-07-28 When

you're in New York the sculptor Louise Nevelson once said you're in perpetual resurrection She might have said the same thing about St Peter's Lutheran Church set in the heart of midtown Manhattan In the 1970s the church made a radical move scrapping its neo gothic building for a sleek modern structure in the shadow of a skyscraper The transformation was not just architectural Inside Nevelson created a shimmering chapel while over the years artists and designers such as Willem de Kooning Kiki Smith and Massimo and Lella Vignelli produced works for the sanctuary This fusion of modern art architecture and design was complemented by an innovative jazz ministry including funerals for Billy Strayhorn and John Coltrane and

performances by Duke Ellington and other jazz legends For the first time this volume examines the astounding cultural output of this single church Just as importantly the story of St Peter s serves as a springboard for wider reflections on the challenges and possibilities which arise when religion and art intersect in the modern city Working from a wide range of disciplines including art history theology musicology and cultural studies a distinguished group of scholars demonstrate that this church at the center of New York City deserves an equally central place in contemporary scholarship

Romanesque Tomb Effigies Shirin Fozi, 2021-03-12 Framed by evocative inscriptions tumultuous historical events and the ambiguities of Christian death Romanesque tomb effigies were the first large scale figural monuments for the departed in European art In this book Shirin Fozi explores these provocative markers of life and death establishing early tomb figures as a coherent genre that hinged upon histories of failure and frustrated ambition In sharp contrast to later recumbent funerary figures none of the known European tomb effigies made before circa 1180 were commissioned by the people they represented and all of the identifiable examples of these tombs were dedicated to individuals whose legacies were fraught rather than triumphant Fozi draws on this evidence to argue that Romanesque effigies were created to address social rather than individual anxieties they compensated for defeat by converting local losses into an expectation of eternal victory comforting the embarrassed heirs of those whose histories were marked by misfortune and offering compensation for the disappointments of the world Featuring numerous examples and engaging the visual historical and theological contexts that inform them this groundbreaking work adds a fresh dimension to the study of monumental sculpture and the idea of the individual in the northern European Middle Ages It will appeal to scholars of art history and medieval studies

 Borngässer, Bruno Klein, 2022-02-17 Gothic style and contemporary architecture worldwide Although largely overlooked in
 studies of architectural history church architecture in a Gothic idiom outlived its 19th century momentum to persist
 worldwide throughout the 20th century and into the new millennium Global Gothic presents a first systematic worldwide
 understanding of Gothic in contemporary architecture both as a distinct variation and as a competitor to recognized modern
 styles The book s chapters critically discuss Gothic s various manifestations over the past century describing and illustrating
 approaches from Gothic Revival living traditions in the former British Empire and original Gothic appropriation in Latin
 America to competitions of European builders in former Asian and African colonies The focus is also on the special
 appropriations in North America China and Japan as well as contemporary solutions that tend to be transnational in style
 With contributions from renowned architecture experts from around the world Global Gothic provides an overview of this
 cultural phenomenon and presents a wealth of stunning material much of it little known Richly illustrated in full color it

 Architecture and Sexuality in the Circle of Horace Walpole* Matthew M. Reeve, 2020-07-15 Gothic Architecture and Sexuality
 in the Circle of Horace Walpole shows that the Gothic style in architecture and the decorative arts and the tradition of
 medievalist research associated with Horace Walpole 1717 1797 and his circle cannot be understood independently of their
 own homoerotic culture Centered around Walpole s Gothic villa at Strawberry Hill in Twickenham Walpole and his
 Strawberry Committee of male friends designers and dilettantes invigorated an extraordinary new mode of Gothic design and
 disseminated it in their own commissions at Old Windsor and Donnington Grove in Berkshire Lee Priory in Kent the Vyne in
 Hampshire and other sites Matthew M Reeve argues that the new third sex of homoerotically inclined men and the new
 modern styles that they promoted including the Gothic style and chinoiserie were interrelated movements that shaped
 English modernity The Gothic style offered the possibility of an alternate aesthetic and gendered order a queer reversal of

the dominant Palladian style of the period Many of the houses built by Walpole and his circle were understood by commentators to be manifestations of a new queer aesthetic and in describing them they offered the earliest critiques of what would be called a queer architecture Exposing the role of sexual coteries in the shaping of eighteenth century English architecture this book offers a profound and eloquent revision to our understanding of the origins of the Gothic Revival and to medievalism itself It will be welcomed by architectural historians as well as scholars of medievalism and specialists in queer studies
