Governance Theory And Practice A Cross Disciplinary Approach:

Governance Theory and Practice V. Chhotray, G. Stoker, 2008-11-12 Confusion about governance abounds. Many lack appreciation of how different traditions of thought in the social sciences contribute to our understanding. This book tackles these weaknesses head on and aims to provide a wider vision of the area examining three critical areas of practice: environmental, corporate and participatory governance.

The Global Politics of Artificial Intelligence Maurizio Tinnirello, 2022-04-24 Technologies such as artificial intelligence have led to significant advances in science and medicine but have also facilitated new forms of repression, policing and surveillance. AI policy has become without doubt a significant issue of global politics. *The Global Politics of Artificial Intelligence* tackles some of the issues linked to AI development and use, contributing to a better understanding of the global politics of AI. This is an area where enormous work still needs to be done and the contributors to this volume provide significant input into this field of study to policy makers, academics and society at large. Each of the chapters in this volume works as a freestanding contribution and provides an accessible account of a particular issue linked to AI from a political perspective. Contributors to the volume come from many different areas of expertise and of the world and range from emergent to established authors. Chapter 2 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license.

Why Politics Matters Gerry Stoker, 2017-09-16 Profound social changes have made governance and political leadership more challenging than ever. The result is that politics in the democratic world faces a crisis in the 21st century. The revised edition of this highly successful text reassesses the gap between citizen expectation and the realities of government in light of new developments.

Devolution and Localism in England David M. Smith, Enid Wistrich, 2016-04-22 Combining historical and policy study with empirical research from a qualitative study of regional elites, this book offers an original and timely insight into the progress of devolution of governance in England. With particular interest in how governments have tried and continue to engage English people in sub-national democratic processes while dealing with the realities of governance, it uses in-depth interviews with key figures from three English regions to get the inside view of how these processes are seen by the regional and local political, administrative, business and voluntary sector elites who have to make policies work in practice. Tracing the development of decentralisation policies through regional policies up to and including the general election in 2010 and the radical shift away from regionalism to localism by the new Coalition Government thereafter, the authors look in detail at some of the key policies of the incumbent Coalition Government such as City Regions and Localism and their implementation. Finally, they consider the implications of the existing situation and speculate on possible issues for the future.

Beyond Instrumentalised Politics Garrett Thomson, Scherto Gill, 2024-05-06 Political thinking tends to outline reforms to existing political institutions. In contrast *Beyond Instrumentalised Politics* argues for the need for systemic transformation. It articulates the evaluative principles for

good governance and employs these principles to argue for a new political system Because persons are non instrumentally valuable good governance requires that all people are respected equally and this necessitates a participatory democracy The book investigates how such a democracy might function through consensus based decision making and argues for a redefinition of consensus It characterises the local and national institutions required for public governance thus conceived This includes the creation of various types of spaces for deep dialogue and mutual inquiry This book demonstrates how this innovative vision would transform our current conceptions of governance *The Kurds of Turkey* Cuma Çiçek,2016-12-22 In fact Kurds in Turkey have many diverse political and ideological orientations Focusing on the elites of these informal groups national religious and economic Cuma Cicek analyses the consequences of the divisions and subsequent prospects of consensus building Using an innovative theoretical framework founded on constructivism the three I s model and various strands of sociology Cicek considers the dynamics that affect the Kurds in Turkey across issues as diverse as the central state geopolitics nationalism Europeanisation and globalisation In so doing he examines the consensus building process of 1999 2015 and presents the possible route to a unified Kurdish political state Cicek s in depth and meticulously researched work adds an indispensable layer of nuance to our conception of the Kurdish community This is an important book for students or researchers with an interest in the history and present of the Kurds and their future in Turkey and across the Middle East

The European Union as an Actor in Security Sector Reform Oya Dursun-Ozkanca,2017-09-19 This book critically analyzes the European Union s role in Security Sector Reform SSR a topical issue with regards to European security While the literature on SSR has increased significantly in the past decade too little remain in the way of comparative analyses of SSR case studies that are geared toward theory development This collection strives to push the SSR literature in that direction One key question it focuses on is whether the EU pursues a holistic approach vis vis SSR Another question the book addresses is why and how the EU activities towards SSR in conflict management peacebuilding and statebuilding have produced a wide variety of outcomes that range from the failure to reform any or all of the sub set of security sectors police justice military etc to complete and integrated reform The volume encompasses all relevant cases of SSR in terms of the financial human and political resources involved at the EU level Cases are drawn from the Balkans Kosovo Bosnia Herzegovina Africa Democratic Republic of Congo the Middle East Palestinian Territories Post Soviet Space Georgia and Asia Aceh Indonesia The end product is a welcome contribution to the literature providing both an empirically and theoretically grounded approach to the study of SSR This book was originally published as a special issue of *European Security*

Abdul Salam,Sangam Shrestha,Vishnu Prasad Pandey,Anil Kumar Anal,2017-07-17 Water energy and food are key resources to sustain life and are the fundamental to national regional and global economies These three resources are interlinked in multiple ways and the term nexus captures the interconnections The nexus has been discussed debated researched and advocated widely but the focus is often on the pairings of water energy or water food or

energy food To really benefit from the nexus approach in terms of resource use efficiency it is essential to understand operationalize and practice the nexus of all three resources As demand for these resources increases worldwide using them sustainability is a critical concern for scientists and citizens governments and policy makers Volume highlights include Contributions to the global debate on water energy food nexus Examples of the nexus approach in practice from different regions of the world Perspectives on the future of the nexus agenda Water Energy Food Nexus Theories and Practices is a valuable resource for students research scholars and professionals in academic institutions with strong interests in interdisciplinary research involving geography earth science environmental science environmental management sustainability science international development and ecological economics The volume will also be useful for professionals practitioners and consultants in NGOs government and international agencies Read an interview with the editors to find out more <https://eos.org/editors-vox-working-towards-a-sustainable-future> The Diplomatic System of the European Union

Michael Smith,Stephan Keukeleire,Sophie Vanhoonacker,2015-06-12 Over the past five years the EU has established a new system of diplomacy centred on the European External Action Service EEAS and the High Representative for Foreign Affairs and Security Policy This new system reflects a process of evolution in a changing context and has been faced by major challenges since its inception This book examines the diplomatic system of the EU locating it within the broader study of diplomacy and the European integration project The volume is structured around the interrelated themes of institutional change and the evolving practices of EU diplomacy It tracks the development of the EU s system of diplomacy with particular reference to the implementation of the Lisbon Treaty the establishment of the EEAS and the emerging practices of EU strategic and structural diplomacy Bringing together contributions from leading experts in the field this book provides an original approach to the development and operation of the EU s diplomatic system This book will be of interest to students and scholars of European Union international relations European Union politics and diplomacy *Research Handbook on Health Information Systems*

Kathleen Gray,Reeva Lederman,2025-02-12 This Research Handbook provides comprehensive explanations and examples of theoretical frameworks and practical methods to support the design and conduct of high quality health information systems research **Handbook Integrated Care** Volker Amelung,Viktoria Stein,Esther Suter,Nicholas Goodwin,Ellen Nolte,Ran Balicer,2021-07-12 This handbook shares profound insights into the main principles and concepts of integrated care It offers a multi disciplinary perspective with a focus on patient orientation efficiency and quality by applying widely recognized management approaches to the field of healthcare The handbook also highlights international best practices and shows how integrated care can work in various health systems In the majority of health systems around the world the delivery of healthcare and social care is characterised by fragmentation and complexity Consequently much of the recent international discussion in the fields of health policy and health management has focused on the topic of integrated care Integrated acknowledges the complexity of patients needs and aims to meet them by taking

into account both health and social care aspects Changing and improving processes in a coordinated way is at the heart of this approach The second edition offers new chapters on people centredness complexity theories and evaluation methods additional management tools and a wealth of experiences from different countries and localities It is essential reading both for health policymakers seeking inspiration for legislation and for practitioners involved in the management of public health services who want to learn from good practice

Order and Disorder in the 21st Century Danielle Ireland-Piper, Leon Wolff, 2020-08-18 With a diverse group of contributors from law business and the social sciences this book explores the line not only between order and disorder in global affairs but also chaos and control continuity and change the core and the margins The key themes include global crises and the role of international law norms and institutions the challenge of pluralism to regulatory clarity and critical assessments of taken for granted systems and values such as capitalism centralised government de militarisation and the separation of powers The book divides into two key parts The first part Conceptions considers the diverse way in which order disorder can be conceived in global governance and regulation The second part Case Studies groups chapters around five topic areas citizens capitalism conflict crime and courts The authors here build on the themes presented in the first part by embedding them within specific areas of international regulation such as international criminal law maritime law or finance regulation jurisdictions and regions such as Australia Canada China Japan and South Asia and subject matter such as water resources citizenship statelessness and public interest litigation This blend of contemporary subject matter empirical studies multi disciplinary perspectives and academic theories provides a comprehensive analysis to current and emerging debates in the broader global community In utilizing interdisciplinary studies to draw out common issues and alternative solutions the book will appeal to a wide readership among academics and policy makers

The Political Power of the Business Corporation Stephen Wilks, 2013-01-01 The large business corporation has become a governing institution in national and global politics This study offers a critical account of its political dominance and lack of democratic legitimacy

Interactive Political Leadership Eva Sørensen, 2020-01-09 Building on recent theories of interactive governance and political leadership Interactive Political Leadership develops a concept of interactive political leadership and a theoretical framework for studying the role of elected politicians in the age of governance The purpose of the theoretical framework is to inspire and guide empirical research into how elected politicians perform political leadership in a society where citizens and other stakeholders play an active role in making and implementing political decisions and what barriers challenges and dilemmas they encounter in relation to the performance of interactive political leadership The research framework draws extensively on recent theories of interactive governance and political leadership and other new developments in political science and public administration research Moreover it finds inspiration in current tendencies and embryonic examples of interactive political leadership performed by elected politicians operating at different levels of governance in Western liberal democracies The basic assumption is that political legitimacy is

essential for the survival of a political system and that interactive political leadership stands out as a promising way of securing what political scientists denote as input throughput output and outcome legitimacy in the age of governance Hence interactive political leadership aims to establish a bridge between representative democracy and emergent forms of political participation to promote political learning and accountability to strengthen the political entrepreneurship of elected politicians and to advance the political system's implementation capacity through resource mobilization The book develops 20 propositions that sets the agenda for a new and much needed field of empirical research into political leadership in the age of governance

Regional Resilience, Economy and Society Christine Tamásy, Javier Revilla Diez, 2016-04-08 There has been a great deal of restructuring of rural places and communities under globalisation highlighting the interaction of local and global actors to produce new hybrid socio economic relations Recent research highlights the heterogeneity of globalisation in which rural places are different to each other but also different to how they were in the past Bringing together an interdisciplinary team of academics and comparative case studies from Europe West and East and Asia this book explores and discusses opportunities and challenges associated with globalising rural places and identifies possibilities for policy and practical intervention by rural development actors Special attention is paid to multi scalar processes through which rural places are reshaped through globalisation Taking a geographical approach the book produces new critical work

on the interdependence between globalisation and rural spaces It is organised into five sections Part I focuses on Global Rural Linkages showing the multifaceted interrelation between actors at different geographical scale and demonstrating that globalisation is not only external to rural spaces Part II on Rural Entrepreneurship and Labour Markets explores the potential of business start ups in rural spaces which are not only necessity driven Part III Rural Innovation and Learning shows that rural places are also places for innovation and learning Part IV on Rural Policies and Governance argues that regional policies for rural places should promote side activities to maintain social capital and that regional policy should take a more integrative perspective between urban and rural spaces in order to explore complementary development paths The concluding chapter New Approaches to Rural Spaces discusses new approaches to globalising rural places in relation to the preceding chapters published in this book

Strengthening International Regimes Daniel Serwer, 2024-03-25 This book is intended to examine the history of radiation protection up to the present from the perspective of regime theory with a view to elucidating what this case teaches about how a strong regime in a controversial area can form and maintain itself This is a particularly relevant issue at present when the overall international rules based order is under threat and scientific authority doubted There are significant parallels between the international radiation protection regime and efforts to slow climate change stop the proliferation of nuclear weapons manage the applications of artificial intelligence control the use of drones and confront the risks posed by pandemics While each has its own dynamics all these issues involve the interaction of scientific discovery and expertise with the societies that generate them Learning what works and what does not is vital if we are to limit harm and ensure survival of humanity on a shrinking and warming planet
