Hope In Troubled Times A New Vision For Confronting Global Crises:

Hope in Troubled Times Bob Goudzwaard, Mark Vander Vennen, David Van Heemst, 2007-05 Provides hope for real world solutions to life threatening problems such as global poverty environmental destruction and terrorism [Hope in Troubled Times](#) Bob Goudzwaard, Mark Vander Vennen, David Van Heemst, 2007-05-01 We want to have it all financial strength secure homes clean air and water for our children With the latest technological advances available we deserve to have every dilemma resolved Isn't that the way it's supposed to work *Hope in Troubled Times* dares to say no Poverty terrorism and overtaxed land are planetary problems that make even believers despair But the authors point to Christ as the source of hope Our choice is obvious We work together learning to live unselfishly or we watch civilization sink further into the abyss With a foreword by renowned human rights activist Archbishop Desmond Tutu *Hope in Troubled Times* provides real world solutions to life threatening problems The authors show that with God's guidance we can knock down the idols that stunt clear thinking *Trajectory of the 21st Century* Lawrence J. Terlizese, 2009-01-10 *Trajectory of the Twenty first Century* explores what many prophets of the twentieth century such as Oswald Spengler Paul Tillich Aldous Huxley Jacques Ellul and others have predicted would transpire in the current century Their vision included an out of control technological system and a return to religious sentiment that will ultimately undermine the system to which it is reacting This book aims to accurately present their positions and draw certain logical conclusions from them that pertain to the course of history in our time The book's theme argues that modernity is a secularized version of millennial Christianity which reaches its fullest development in the twenty first century and will regress into what Russian philosopher Nicholas Berdyaev called the new Middle Ages or a new religious period This will mean the twilight of modern technological society as its values of rationalism give way to a post-rationalist society Ironically decline will come through further technological advance Omnicide threatens through religious world war driven by transcendent values and modern weaponry Jihadist thinking and posthumanist technology both establish the omnicidal mentality New technologies such as genetic engineering and artificial intelligence created under millennial inspiration to reach for immortality could potentially bring an end to the human species either through a slow steady obsolescence or through environmental catastrophe The titanic forces of technological progress and regress are on a direct collision course in the twenty first century [Portraits of Global Christianity](#) Gina A. Zurlo, 2023-03-29 *Living in Light of the Global Body of Christ* Books on global Christianity have been growing substantially in the last ten years The importance of studying Christianity beyond White Western history and theology has taken on a special relevance in an increasingly globalized world The study of Global Christianity is about recognizing the diversity of Christians around the world in terms of their cultures languages ethnicities worldviews and approaches to the faith World Christianity is about making global local connections and providing Christians the opportunity to learn from one another to enhance their faith and broaden their perspectives Most World Christianity books are written for scholarly audiences only However *Portraits of*

Global Christianity moves beyond that sphere and into the lives of Christians who have learned about and continue to experience the global church in their everyday lives No other global Christianity book on the market provides this kind of self understanding on the relationship between World Christianity and individual experience In doing it aims to make a unique contribution to the field This book is geared toward a general Christian audience and is written in an accessible style with attractive full color charts maps and graphs to make quantitative data on Christianity and other religions come alive The reflections and essays in this book in honor of Todd M Johnson provide readers with concrete examples of how knowledge and experience of Christianity worldwide has fundamentally changed their worldviews perspectives of the faith and vocational callings It encourages readers to reflect on their attitudes toward people who do not look like them or live out the faith like them to more seriously consider the growth of Christianity in the global South and its impact on their own lives and seek opportunities to reach across ethnic class and gender boundaries for the sake of Christian hospitality discipleship and friendship

Subversive Christianity, Second Edition Brian J. Walsh, 2014-09-01 Where is Western culture going What should Christians think about it Those who already ask these questions often come up with confused answers Those who do not are arguably living in a fool s paradise or a fool s hell In this second edition of Subversive Christianity Brian Walsh returns to the themes of cultural discernment that he unpacked more than twenty years ago In a new Postscript Walsh revisits Francis Fukuyama Bruce Cockburn and the prophet Jeremiah and asks Where are we now In light of 9 11 and the world economic crisis of 2008 how do we discern the times and what does that discernment tell us about the calling of the church

The Crisis of Evangelical Christianity Keith C. Sewell, 2016-04-26 In the broad context of Christianity as it developed over two millennia and with special reference to the last three centuries this discussion finds that Evangelicalism has repeatedly offered a reduced and distorted understanding of the faith The evangelical outlook is much less scriptural than evangelicals generally assume When it comes to appreciating the order of creation our calling to develop integral Christian thinking and living the religious significance of culture and the coming of the kingdom reductionist Evangelicalism struggles with its only rarely acknowledged deficiencies As a result we have all too often ended up with a Christianity shorn of its cosmic scope and wide cultural implications and restricted to institutional church life and the cultivation of private spiritual experience The consequences are frequently enervating and corrosive Without disregarding what is important in the past evangelicals are here challenged to take the Bible much more seriously and thereby transcend the limitations of their habitual reductionism Evangelicals are encouraged to embrace an integral and full orbbed understanding of Christian discipleship that will equip the faithful to address the deep and complex challenges of the twenty first century

Historical and Multidisciplinary Perspectives on Hope Steven C. van den Heuvel, 2020-07-20 This open access volume makes an important contribution to the ongoing research on hope theory by combining insights from both its long history and its increasing multi disciplinarity In the first part it recognizes the importance of the centuries old reflection on hope by offering

historical perspectives and tracing it back to ancient Greek philosophy At the same time it provides novel perspectives on often overlooked historical theories and developments and challenges established views The second part of the volume documents the state of the art of current research in hope across eight disciplines which are philosophy theology psychology economy sociology health studies ecology and development studies Taken together this volume provides an integrated view on hope as a multi faced phenomenon It contributes to the further understanding of hope as an essential human capacity with the possibility of transforming our human societies Beyond the Modern Age Bob Goudzwaard, Craig G. Bartholomew, 2017-05-23

Modernity according to Bob Goudzwaard and Craig Bartholomew is not a single ideology but rather a tension between four worldviews In conversation with students from around the world and drawing upon a variety of sources and disciplines the authors propose ways to transcend modernity and address global crises **Christian Faith, Philosophy & International Relations**, 2019-10-29 International relations are in constant turbulence Globalisation the rise and fall of superpowers the fragilisation of the EU trade wars real wars terrorism persecution new nationalism and identity politics climate change are just a few of the recent disturbing developments How can international issues be understood and addressed from a Christian faith perspective In this book answers are presented from various Christian traditions Neo calvinism Catholic social teaching critical theory and Christian realism The volume offers fundamental theological and Christian philosophical perspectives on international relations and global challenges case studies about inspiring Christian leaders such as Robert Schuman Dag Hammarskjöld Abraham Kuyper and prophetic critiques of supranational issues

Everything Must Change Brian D. McLaren, 2009-08-31 How can the life and teachings of Jesus impact the most critical global problems in our world today For the last twenty years Brian McLaren has been unable to escape this life shaping question In *Everything Must Change* he unveils a fresh and provocative vision of Jesus and his teachings and how his message of hope can ignite purpose and passion to change the economic environmental military political and social crises that have overtaken our world The Good News is more than a ticket to heaven It is an invitation to personal change and a radical challenge for global transformation Imagine what would happen if we believed that God's will really could be done on earth and not just in heaven if the world's leading nations spent less on weapons and more on making peace alleviating poverty and caring for creation if a renewed understanding of Jesus and his message sparked a profound spiritual awakening in a global movement of faith hope and love If you are hungry for a fresh vision of what it means to be a person of faith *Everything Must Change* shows what would happen when Jesus Good News collides with a world in need **The Wiley Blackwell Companion to World Christianity** Lamin Sanneh, Michael McClymond, 2016-05-23 The Wiley Blackwell Companion to World Christianity presents a collection of essays that explore a range of topics relating to the rise spread and influence of Christianity throughout the world Features contributions from renowned scholars of history and religion from around the world Addresses the origins and global expansion of Christianity over the course of two millennia Covers a wide

range of themes relating to Christianity including women worship sacraments music visual arts architecture and many more Explores the development of Christian traditions over the past two centuries across several continents and the rise in secularization **Kicking at the Darkness** Brian J. Walsh,2011-12 Bestselling author Brian Walsh engages with the theologically rich catalog of musician Bruce Cockburn in an effort to ignite a renewed Christian imagination New Dictionary of Theology Martin Davie,Tim Grass,Stephen R. Holmes,John McDowell,Thomas A. Noble,2016-04-27 This classic one volume reference work is now substantially expanded and revised to focus on a variety of theological themes thinkers and movements From African Christian Theology to Zionism this volume of historical and systematic theology offers a wealth of information and insight for students pastors and all thoughtful Christians **Healthy Christian Minds** Elmer John Thiessen,2024-09-19 We live in polarizing times In this book Elmer Thiessen dares to suggest that the solution to the deep divides in our contemporary world and in the church is not to be found in more information more education more rationality or more critical thinking Instead we need to cultivate intellectual virtues such as the love of knowledge and truth intellectual humility and committed openness The penultimate chapter treats intellectual virtues that are more relational in nature intellectual forbearance fairmindedness and intellectual courage The book explores the biblical and theological grounding of each intellectual virtue and reveals its practical importance for our fractious times making use of concrete examples throughout Each of the central chapters begins with a questionnaire aimed at promoting self examination and stimulating reflection about the virtues and vices under consideration This is a book for the thoughtful Christian reader aimed at transforming the way we think The Power of the Church Michael R. Wagenman,2020-11-20 It is fascinating that in all the media reports and discussions of the church s abuse of power in the early years of the twenty first century few if any seemed to notice that the accusation of the church s misuse of power presupposed a shared understanding of the positive use of power within the church that had been violated Rather than an interest in the sociological aspect of this question this book examines the more ontological and normative aspects of it That is it investigates and discerns the foundational theological framework of culture and society and the location and purpose of the church within them As a cultural force and societal institution what does the church constructively bring to the human community **The Liturgy of Politics** Kaitlyn Schiess,2020-09-08 A generation of young Christians are weary of the political legacy they ve inherited Could it be that the church s politics are shaped by its habits and practices Contending that we must recognize the formative power of the political forces around us Kaitlyn Schiess urges the church to recover historic Christian practices that shape us according to the truth of the gospel **Sola Scriptura in Asia** Yongbom Lee,Andrew R. Talbert,2018-11-09 The echo of Luther s hammer resounds in Asia five hundred years after the Wittenberg controversy the cross is a flashpoint in China Korea seeks ecclesiastical reform the mystical union thrives in Laos even Kant whispers in old Batavia The diversity of ideas and influences of the Reformation is as broad and fascinating as the continent resisting reduction to the postcolonial movement

and demonstrating an affinity with Protestant foundations that somehow remains uniquely Asian This volume brings together the reflections of Christian academics from the continent to offer a sample of the theological work that remains largely inaccessible to the broader scholarly community with contributions in the fields of theology biblical studies philosophy and Christian higher education If the quincentennial of the Reformation has revealed anything it is the inauguration of Asia as the locus of biblical and theological scholarship for the next five hundred years *"God Is Dead" and I Don't Feel So Good Myself* Andrew Shutes-David, Christopher J. Keller, Jon Stanley, 2010-01-01 In this pertinent and engaging volume leading Christian philosophers theologians and writers from all over the denominational map explode the black and white binaries that characterize both sides of the New Atheism debate They transcend the self assured shouting matches of this latest expression of the culture wars by engaging in rigorous polychromatic Christian reflection that considers the extent to which the atheistic critique both new and old might help the church move toward a more mature faith authentic spirituality charitable witness and peaceable practice With generous openness and ferocious wit this collection of essays interviews memoir poetry and visual art including contributions from leading intellectuals activists and artists such as Stanley Hauerwas Charles Taylor John Milbank Stanley Fish Luci Shaw Paul Roorda Merold Westphal and D Stephen Long provides substantive analysis incisive critique and a hopeful way forward for Christian dialog with atheist voices Contributors Andy Barnes Peter M Candler Jr Becky Crook Brad Davis Courtney Druz Stanley Fish Brandi Gentry s Larry Gilman Stanley Hauerwas Robert Inchausti Ronald A Kuipers D Stephen Long Charles T Mathewes John Milbank Randal Rauser Dan Rhodes Paul Roorda Christine Sine Luci Shaw Jon Stanley Ben Suriano Charles Taylor and Merold Westphal *Seeking Stillness or The Sound of Wings* Hector Acero Ferrer, Michael DeMoor, Peter Enneson, Matthew Klaassen, 2021-03-11 Seeking Stillness or The Sound of Wings pays tribute to Lambert Zuidervaat one of the most productive Reformational philosophers of the present generation by picking up the central concerns of his philosophical work art truth and society and working with the legacy of his published concern to see what more can be understood about our world in light of that legacy Zuidervaat is an internationally recognized expert in critical theory especially the work of Theodor Adorno and a leading systematic philosopher in the reformational tradition His research and teaching range across continental philosophy epistemology social philosophy and philosophy of art with an emphasis on Kant Hegel Marx Heidegger Gadamer and Habermas He is currently developing a new conception of truth for an allegedly post truth society At the Institute for Christian Studies 2002 2016 Zuidervaat held the Herman Dooyeweerd Chair in Social and Political Philosophy and served as founding Director of the Centre for Philosophy Religion and Social Ethics He was also an Associate Member of the Graduate Faculty and Full Professor status only in the Department of Philosophy at the University of Toronto and a member of the Advanced Degree Faculty at the Toronto School of Theology Zuidervaat is currently a Visiting Scholar in the Department of Philosophy at Calvin University in Grand Rapids Michigan Seeking Stillness or The Sound of Wings seeks to promote new scholarship
