Hope For A Global Ethic Shared Principles In Religious Scriptures:

Hope for a Global Ethic Brian D. Lepard, 2005 **Hope for a Global Ethic** Brian D. Lepard, 2005 In a groundbreaking book that calls on the world's religions to look at what they have in common author and scholar Brian Lepard offers hope to a world community that has become dangerously fractionalized by economic social religious and political differences In *Hope for a Global Ethic* Lepard cogently argues that different societies have much more in common than they might otherwise think beginning with a profound historic and lasting belief in religion and that our fearful and often suspicious view of other people may be overcome by exploring what is shared in these religions *Hope for a Global Ethic* moves significantly beyond ideology to discuss the values that all people have shared through the faiths of the world It is these values that offer hope in our fearful disordered and terrorized world **The Global Ethic and Law** Bradley Shingleton, Eberhard Stolz, 2016-10-20 As a fundamental institution of human societies law is a deeply influential factor in individual and social activity Yet its normative status is controversial particularly in pluralistic secularized societies Is law essentially the result of legislative creation and juridical interpretation or can and should it reflect ethical values and imperatives If it can what are the sources of those imperatives and how do they achieve the necessary degree of social consensus in religiously diverse societies that are increasingly globalized and globalizing as a consequence of culture commerce communication and immigration *The Global Ethic and Law Intersections and Interactions* contributes to the consideration of these questions Its contributors include academics from the U S A and Europe as well Hans Kueng the author of the 1993 Declaration Towards a Global Ethic adopted by the Parliament of World Religions and Stephan Schlenker General Secretary of the Global Ethic Foundation of Tuebingen Germany *The World's Religions after September 11* Arvind Sharma, 2008-11-30 This set is an unprecedented examination of religion's influence on modern life an honest assessment of how religion can either destroy us or preserve us and a thorough exploration of what steps might be necessary for all religions to join together as a force for good Convening on the fifth anniversary of the terrorist attack on the World Trade Center the global congress *The World's Religions after September 11* explored the negative and positive possibilities of the religious dimensions of life The presentations from the congress have been pulled together in this set which addresses religion's intersection with human rights spirituality science healing the media international diplomacy globalization war and peace and more This comprehensive set includes contributions from such well known scholars of religion as Arvind Sharma and a host of others from all the world's religious traditions This set is an unprecedented examination of religion's influence on modern life an honest assessment of how religion can either destroy us or preserve us and a thorough exploration of what steps might be necessary for all religions to join together as a force for good Because of the attack on the World Trade Center on September 11 2001 the very concept of religion underwent a paradigm shift Instead of standing for virtue and piety peace and harmony the word religion also came to be inextricably associated with evil aggression and terror People around the world began to question whether the religious

and secular dimensions of modern life can be reconciled whether the different religions of the world can ever coexist in harmony Indeed the very future of religion itself has sometimes seemed to be uncertain or at least suspect **The World's Religions** Arvind Sharma,2010-10-01 This wide ranging reader combines some of the best and most valuable contemporary perspectives from leading and significant writers teachers and thinkers who together address critical challenges and opportunities for the world s religions in a post 9 11 world Edited by Arvind Sharma and organized by topic the essays in this reader consider broad questions such as What influence does religion have on contemporary life The thematic arrangement of topics includes diverse religious perspectives on war terror peace human rights pluralism diversity gender spirituality the interreligious dialogue international diplomacy and globalization Customary International Law Brian D. Lepard,2010-01-11 Customary international law although long recognized as a primary source of international law remains replete with enigmas both conceptual and practical These include how to determine the existence of opinio juris the function of the state practice requirement the definition of jus cogens customary norms and the relationship between customary international law and ethics In part because of these enigmas the subject has generated a wide ranging literature However no recent book length work has attempted to articulate a comprehensive theory of customary international law that can effectively resolve these questions This book sets out to accomplish this goal Its approach is unique in a number of ways For example it is multidisciplinary and draws insights from fields such as legal theory philosophy political science and game theory In addition it is anchored in a sophisticated ethical framework and explores at length the interconnections between customary international law and ethics In the Glory of the Father Brian D. Lepard,2008 Author Brian Lepard draws upon his childhood religious experiences and his study of the Bible and other holy books to recount his spiritual journey and discovery of the Baha i Faith He describes in some detail the lives of the central figures of the Baha i Faith the Bab Who heralded the coming of Baha u llah Baha u llah the Prophet Founder of the Baha i Faith and Abdu l Baha the son and successor of Baha u llah Lepard explores the similarities between the Baha i and Christian views of the station of Jesus Christ biblical interpretation and the nature of God and he discusses whether it is possible to build the Kingdom of God on earth and how biblical prophecy has been fulfilled through the coming of Baha u llah This book is aimed at Christian readers who have heard of the Baha i Faith and are interested in learning more about the relationship between the teachings of Christianity and the teachings of the Baha i Faith Book jacket *Parochialism, Cosmopolitanism, and the Foundations of International Law* M. N. S. Sellers,2011-11-14 This book examines the boundary between parochial and cosmopolitan justice Parochialism and cosmopolitanism are two faces of international law which recognizes our common humanity by protecting us in our differences Essays in this book ask to what extent law should recognize or support the political historical cultural and economic differences among nations Nine lawyers and philosophers from five continents consider whether certain states or persons deserve special treatment exemptions or heightened duties under international law Contributors draw the line

between international law national jurisdiction and the private autonomy of persons World Religions in America, Fourth Edition Jacob Neusner, 2009-10-07 The fourth edition of World Religions in America continues its lauded tradition of providing students with reliable and nuanced information about America's religious diversity while also reflecting new developments and ideas Each chapter was updated to reflect important changes and events and current statistics and information New features include a timeline of key events and people for each tradition sidebars on major movements or controversies personal stories from members of various faiths a theme based organization of subjects more subheads three new chapters exploring America's increasing religious diversity and suggestions for further study Freedom of Thought and Its Relation to Freedom of Expression WIESŁAW WACŁAWCZYK, 2019 Unlike freedom of speech freedom of thought seems to be a natural attribute of humans After all thoughts are by contrast to words both inaudible and invisible and therefore they appear to be beyond the grasp of censors In fact the conviction that thoughts are really free is deeply rooted in different languages For example the famous Latin maxim Cogitationis poenam nemo patitur appears in English as Thoughts are toll free in German as Gedanken sind Zoll frei and in Polish as Myśli są wolne od cła In sum this maxim says that nobody can be punished for his thoughts no matter how iniquitous they may be Even though the assertion seems true the problem is not so simple as it looks From the Introduction **Constructing Moral Concepts of God in a Global Age** Myriam Renaud, 2022-07-29 Constructing Moral Concepts of God in a Global Age focuses on what people say and think about God rather than on arguments about God's existence It advances a theological method or step by step approach to explore and reframe personal convictions about God and the worldviews shaped by those convictions Since a moral God is more likely to foster a moral life this method integrates an ethical check to ensure that understandings of God and their associated worldviews are validly moral The proposed method builds on the work of twentieth century theologian Gordon Kaufman during the Kantian phase of his work It anticipates a person like God who hears prayers loves without end and comforts in times of hardship To accommodate today's pluralistic and globalized world the ethical check integrated in the method is a widely collaborative and vetted global ethic the Parliament of the World's Religions Declaration Towards a Global Ethic This volume of constructive philosophical theology is written for seminary students educators clergy study groups and anyone interested in delving more deeply and systematically into understandings of God whether their own or those of others Life, Death and Immortality Terrill G. Hayes, Betty Fisher, 2006 The Journey of the Soul begins and ends by answering the weightiest questions we can pose about our reality as human beings What is the purpose of life What is death How do we attain true happiness What is the soul and how does it develop What is the nature of the afterlife Will we know and recognize our loved ones Answers to these questions and more are found in this profound and comforting collection of readings meditations and prayers from the Baha'i writings **The Heroic Female Spirit** Phyllis Peterson, 2006 In the tradition of Joseph Campbell these stories employ many of the moral virtues found in every religion The heroes in each tale strive to

reshape and improve the world around them showing the qualities of the heroic female spirit at work Myths and legends have traditionally been the domain of men and boys The gallant hero is almost always male In *The Heroic Female Spirit A Collection of Tales* women and girls are at the center of each story discovering their inner gifts defying restrictive customs and creating peace between seemingly implacable foes These young women demonstrate that heroic qualities are not only the domain of young men and boys but rather these qualities are within each of us regardless of gender Lights of the Spirit Gwendolyn Etter-Lewis, Richard Walter Thomas, 2006 This groundbreaking work uncovers the role played by black people in the emergence of the Bah i faith in North America Drawing on a wide range of sources including personal essays letters and journals it offers a fascinating glimpse into the lives of some extraordinary individuals **The Power of Prayer** Pamela Brode, 2006 Faced with raising two children with disabilities and the loss of her own eyesight Brode experienced seemingly insurmountable hardships in her personal life Through her discovery of the power of prayer she rose to meet the challenges confronting her family with remarkable strength and fortitude Inspired by her own experiences Brode set out to collect stories from others who had firsthand experience with the transformative power of prayer The result is *The Power of Prayer Make a Joyful Noise* a heartwarming collection that demonstrates how prayer can assist us in overcoming individual challenges and in effecting social change This book will appeal to anyone interested in the practical application of prayer meditation and spirituality *American Book Publishing Record* ,2005 **The Catholic Periodical and Literature Index** ,2007 *Religious Diversity, State, and Law* Joseph Marko, Maximilian Lakitsch, Franz Winter, Wolfgang Weirer, Kerstin Wonisch, 2022-10-17 Globalisation migration and de secularisation have fundamentally transformed the concepts of religion state and law during the last decades The main goal of this interdisciplinary approach is to clarify the multifaceted theoretical and practical challenges of religious diversity and socio political pluralism in Europe In twenty two chapters the contributions to this volume revisit basic concepts structures and institutional settings such as sovereignty the dogma of the separation of state church and or religion human and minority rights gender and religion varieties of fundamentalisms interreligious dialogue and peacebuilding and not least religious education **American Theological Inquiry, Volume Seven, Issue Two** Gannon Murphy, 2014-10-01 *American Theological Inquiry* ATI reaches thousands of Christian scholars clergy and other interested parties primarily in the U S and U K The journal was formed in 2007 by Gannon Murphy PhD Theology Univ Wales Lampeter Presbyterian Reformed and Stephen Patrick PhD Philosophy Univ Illinois Eastern Orthodox to open up space for Christian scholars who affirm the Ecumenical Creeds to contribute research throughout the broader Christian scholarly community in America and the West The purpose of ATI is to provide an inter tradition forum for scholars who affirm the historic Ecumenical Creeds of Christendom to constructively communicate contemporary theologies developments ideas commentaries and insights pertaining to theology culture and history toward reforming and elevating Western Christianity ATI seeks a critical function as much or more so as a quasi ecumenical one The purpose is not to erase

or weaken the distinctives of the various ecclesial traditions but to widen the dialogue and increase inter tradition understanding while mutually affirming Christ s power to transform culture and the importance of strengthening Western Christianity with special reference to Her historic creedal roots Theologians would be theologians and the theologically attentive will want to check out American Theological Inquiry Richard John Neuhaus 1936 2009 First Things

Tracing The Way Hans Küng, 2006-08-31 Tracing the Way is the product of a lifetime of experience In researching and compiling this book Hans Kung has traveled to every corner of the globe in search of God in his many guises Kung casts an analytical eye over the major world religions and offers a view of the present and what that means when measured against the past Kung surveys as succinctly as possible the historical stages of each world religion and analyses their major paradigms and paradigm shifts For the present can be understood only in the light of constellations from the past which have persisted side by side with each other Tracing the Way attempts to understand the religions as objectively as possible and discusses the social political and historical contexts of the many forms of belief that exist today
