Horticultural Therapy And The Older Adult Population:

Horticultural Therapy and the Older Adult Population Suzanne Wells, 2014-02-04 Horticultural Therapy and the Older Adult Population is the guidebook you've been waiting for since the American Horticultural Therapy Association's AHTA 1981 publication. With an updated collection of chapters in the area of horticultural therapy and older adults ranging from a review of relevant literature to descriptions of existing horticultural therapy programs, this book will stimulate networking and information sharing among horticultural therapists and other professionals working with older adults, spur new ideas, and foster continuing research in the field. The book's importance is recognized internationally, and it is soon to be published in Japanese. In *Horticultural Therapy and the Older Adult Population*, you will find chapters on garden designs to enhance the horticultural therapy experience, descriptions of existing horticultural therapy programs for older adults, and new research to evaluate the effectiveness of horticultural therapy with this population. Whether you're an established horticultural therapist, a nursing home administrator, or a gerontology educator, this book will help you design gardens, set up and evaluate programs, and develop curriculum. *Horticultural Therapy and the Older Adult Population* also includes the results of a survey sent to all registered members of AHTA who work with the older adult population. The survey responses provide information about the institutions and the population served, programming activities, program staffing, program evaluation, and funding. Another beneficial feature of the book is a resource-packed bibliography. Prepared as a service to horticultural therapists and others working with older adults, it covers the most relevant publications, giving you more places to find inspiration and ideas for improving care to the elderly through horticultural therapy.

Complementary and Alternative Medicine for Older Adults Elizabeth R. Mackenzie, Birgit Rakel, 2006-02-22 The field of Complementary and Alternative Medicine (CAM) is expected to grow tremendously in the next few years. In addition to an increase in the general population, the baby boomer generation is quickly entering retirement and will likely take advantage of CAM increasingly as it ages. Although CAM research as applied to aging is just beginning, and health professionals receive no special training in CAM, aging in the United States population still continues to employ it. For diagnoses that accompany aging, such as cancer, neurological diseases, psychiatric disorders, and physical disabilities, CAM has often been used in addition to or in place of unsuccessful conventional methods of treatment. This new and up-to-the-minute compendium of reliable and authoritative information on complementary and alternative therapies seeks to provide information that older adults may use as they seek to improve their health and quality of life. Covering dietary, means, physical, mental, and spiritual methods of treatment and various types of therapies, this handbook is the most comprehensive and up-to-date resource on complementary and alternative medicine available today. Each chapter or article includes: Brief definition of modality; Anecdotal reports of usefulness; Discussion of scientific evidence for and against modality; List of resources that reader can use to find further information; Examples of therapies covered include: Art, Music, Massage, Acupuncture, Meditation, Homeopathy, Ayurveda.

Aromatherapy **The Profession and Practice of Horticultural Therapy** Rebecca L. Haller, Karen L. Kennedy, Christine L. Capra, 2019-01-15 The Profession and Practice of Horticultural Therapy is a comprehensive guide to the theories that horticultural therapists use as a foundation for their practice and provides wide ranging illustrative models of programming This book aims to enhance understanding and provide insight into the profession for both new and experienced practitioners It is directed to students in the field along with health care and human service professionals to successfully develop and manage horticultural therapy programming The book is organized into four sections an overview of the horticultural therapy profession theories supporting horticultural therapy use models for programs and tools for the therapist Areas of focus include Overview of the profession including the knowledge skills and abilities needed to practice Discussion of related people plant endeavors and theories supporting horticultural therapy Issues within the profession of horticultural therapy including employment models professionalism and ethics and credentials Characteristics and implementation of therapeutic vocational and wellness program models Accommodations and adaptive techniques to best serve the needs of all participants Strategies for assessment and documentation for horticultural therapy intervention Issues for managing programs including how horticultural therapy programs collaborate with other disciplines determining program costs and budget managing staff and growing spaces and conducting program evaluations Horticultural therapy serves the needs of the whole individual when practitioners have a broad and deep comprehension of the theories techniques and strategies for effective program development and management The Profession and Practice of Horticultural Therapy provides relevant and current information on the field with the intent to inspire best practices and creative effective programs *Therapeutic Landscapes* Clare Cooper Marcus, Naomi A Sachs, 2013-09-20 This comprehensive and authoritative guide offers an evidence based overview of healing gardens and therapeutic landscapes from planning to post occupancy evaluation It provides general guidelines for designers and other stakeholders in a variety of projects as well as patient specific guidelines covering twelve categories ranging from burn patients psychiatric patients to hospice and Alzheimer s patients among others Sections on participatory design and funding offer valuable guidance to the entire team not just designers while a planting and maintenance chapter gives critical information to ensure that safety longevity and budgetary concerns are addressed

Horticultural Therapy Methods Rebecca L. Haller, Christine L. Capra, 2025-04-29 Horticultural Therapy Methods Connecting People and Plants in Health Care Human Services and Therapeutic Programs was the first text to describe the processes and techniques used to provide horticultural therapy interventions and the rationale for their use The first edition was written to positively impact the professional practice of horticultural therapy and provide an array of strategies for horticultural therapy treatment Prior to its publication the topics had only been addressed by other allied professions but had not been specifically tailored for horticultural therapy The second edition updated the material added essential information on planning treatment sessions and provided techniques to address treatment issues for mental health physical health
