Knickerbocker, 2017-03-15 Young adults are actively looking for anything that connects them with the changes happening in their lives and the books discussed throughout Literature for Young Adults have the potential to make that connection and motivate them to read It explores a great variety of works genres and formats but it places special emphasis on contemporary works whose nontraditional themes protagonists and literary conventions make them well suited to young adult readers It also looks at the ways in which contemporary readers access and share the works they're reading and it shows teachers ways to incorporate nontraditional ways of accessing and sharing books throughout their literature programs In addition to traditional genre chapters Literature for Young Adults includes chapters on literary nonfiction poetry short stories and drama cover art picture books illustrated literature and graphic novels and film It recognizes that while films can be used to complement print literature they are also a literacy format in their own right and one that young adults are particularly familiar and comfortable with The book's

discussion of literary language including traditional elements as well as metafictional terms enables readers to share in a literary conversation with their students and others when communicating about books. It will help readers teach young adults the language they need to articulate their responses to the books they are reading. *Balancing the Common Core Curriculum in Middle School Education* James H. Bunn, 2017-01-09. This book examines the idea of good education which is thought to include a scientific and technical component, a mathematical component, a writing component, and an ethical and aesthetic component. Bunn proposes a new three-way intersection in these teachings: the basic sciences and mechanics of leveraging on a seesaw, the basic formulations of patterning an algebraic equation, and the basic rules for writing a sentence in English. In all three forms of inquiry, balance is the mainstay through which problems in US middle school education are brought together and analyzed.

A Guide to Best Practice in Special Education, Health and Social Care Rona Tutt, Paul Williams, 2023-05-08. *A Guide to Best Practice in Special Education, Health and Social Care* explores and explains the changes in governmental policies across the education, health, and social care services and what they mean for young individuals, parents, and professionals. In a period of significant change, many practitioners need to understand the government's plans for bringing about a more efficient, effective, and sustainable system to meet the needs of young people and their families. Without trawling through reviews, green papers, white papers, and bills, this book not only explains the significance of recent events but provides practical examples in the form of conversations and case studies about how parents and professionals are making change happen. With decades of experience, Rona Tutt and Paul Williams delve deep into the separate origins of the three strands: the SEND Review, the review of children's social care, and the Health and Care Act 2022. The book explores how pupils in different types of schools can have their needs met more effectively, how to make better use of available resources, and how to create a culture of mutual respect across all the three services. *A Guide to Best Practice in Special Education, Health and Social Care* not only fills in gaps in readers' knowledge about the working of all three services but provides innovative examples of how change is happening at ground level. People of all age groups working in schools and seeking to enhance their knowledge will find it to be an essential read. It will also be of interest to parents and professionals from across health and social care.
