Gone to Green Series Bundle, Gone to Green, Goodness Gracious Green & Glory of Green - eBook [ePub] Judy Christie, 2014-02-04 This bundle contains *Gone to Green*, *Goodness Gracious Green* and *The Glory of Green*. *Gone to Green* When Lois goes from being a corporate journalist at a large paper in the Midwest to the owner of *The Green News*, a small twice weekly newspaper in rural North Louisiana, her orderly life starts to unravel. The paper was an unexpected inheritance from a close colleague and Lois must keep it for at least a year, bringing a host of challenges, lessons, and blessings into her life. Whether fighting a greedy, deceitful politician or rescuing a dog, she fears Lois notices the headlines in her life have definitely improved. She learns how to provide small town news in a big hearted way and realizes that life is full of newsworthy moments. When she encounters racial prejudice and financial corruption, Lois also discovers more about the goodness of real people and the importance of being part of a community. While secretly preparing the paper for a sale, Lois begins to realize that God might indeed have a plan for her life and that perhaps the allure of city life and career ambition are not what she wants after all. *Goodness Gracious Green* The charming and uncertain journalist is delighted with her decision to keep *The Green News* and excited about the possibility of romance with her good looking catfish farmer neighbor and the growth of her fresh faith and friendships. Her second year in Green has scarcely been rung in though before Lois is wrung out. The former owners of the paper want it back. The mayor's dog bites her on the face. A series of fires threaten Lois. And while her friends blossom, Lois feels wilted. Although Lois finds fresh hopes, turning stale in her second year in Green in the midst of challenges and lessons, Lois's journey still explodes with possibilities. *The Glory of Green* With wedding plans well underway, Lois Barker plots to gracefully get rid of her groom's catfish collection, stuffed ceramic woven. Her husband, to be Chris, on the other hand, has decided to get rid of something else, his homestead, which he gives to a needy Mexican family at church. Life is full of possibilities and the community of Green is tickled pink that their newspaper owner is settling down with one of their own. However, the beloved small town journalist is about to be blown away by tragedy and by the grace that enfolds her in her third year in Green, Louisiana.

Gone to Green Judy Christie, 2009-08-01 The paper was an unexpected inheritance from a close colleague and Lois must keep it for at least a year, bringing a host of challenges, lessons, and blessings into her life. After settling into a loaned house out on Route 2, she finds herself battling town prejudices and inner doubts and making friends with the most surprising people: troubled teenager Katy, good looking catfish farmer Chris, wise and feisty Aunt Helen, and a female African American physician named Kevin. simpler living Bestselling author of *It's Easy Being Green* and sustainable living expert Crissy Trask provides a prescriptive handbook for making better decisions about our homes how we get around what we eat and how we behave as consumers in order to simultaneously achieve two desirable and imperative goals to be better off financially and to do what is good for the planet Laying out steps that will yield immediate results Trask also provides explanations of bigger commitments that take time to implement but also produce much bigger savings With her practical money saving strategies and environmental know how Trask empowers readers to confidently pursue change knowing their bank accounts will grow as a result *Go Green Spend Less Live Better* shows how typical families can easily save at least 10 000 and even as much as 30 000 in the first year alone by greening up some key areas of their homes and lives Other areas covered include How green living is not exclusive but highly accessible and affordable Five reasons you will live better and save money when going green How to start reaping economic rewards right away Taking green to the next level and getting more for your money Earning rich returns on green investments The link between better health and greater wealth And much more *Border Walls Gone Green* John Hultgren, 2015-10-15 How is it that self identified environmental progressives in America can oppose liberalizing immigration policies Environmentalism is generally assumed to be a commitment of the political left and restrictionism a commitment of the right As John Hultgren shows the reality is significantly more complicated American environmentalists have supported immigration restrictions since the movement first began in the late 1800s and anti immigration arguments continue to attract vocal adherents among contemporary mainstream and radical greens *Border Walls Gone Green* seeks to explain these seemingly paradoxical commitments by examining what is actually going on in American debates over the environmental impacts of immigration It makes the case that nature is increasingly being deployed as a form of walling which enables restrictionists to subtly fortify territorial boundaries and identities without having to revert to cultural and racial logics that are unpalatable to the political left From an environmental point of view the location of borders makes little sense the Mexican landscape near most border crossings looks exactly like the landscape on the American side And the belief that immigrants are somehow using up the nation's natural resources and thereby accelerating the degradation of the environment simply does not hold up to scrutiny So Hultgren finds the well intentioned efforts of environmentalists to sustain America are also sustaining the idea of the nation state and in fact serving to reinforce exclusionary forms of political community How then should socially conscious environmentalists proceed Hultgren demonstrates that close attention to the realities of transnational migration can lead to a different brand of socio ecological activism one that could be our only chance to effectively confront the powerful forces producing ecological devastation and social injustice **The Magnificent Makers #8: Go, Go, Green Energy!** Theanne Griffith, 2024-03-12 Boom Snap Whiz Zap *The Magnificent Makers* is a fiction chapter book series filled with real science adventure and characters kids will love Every book includes two science activities kids can do at home A modern day Magic School Bus for today's kids Pablo Violet and their classmate Garry are on a field
