Academic Conference in Prague 2017 **Terra-Sorta-Firma** Fadi Masoud, 2021-05-15 A critical and interdisciplinary exploration of our world's continuously urbanizing and expanding coastline. For centuries, cities have grown and expanded onto previously saturated grounds, reclaiming land from estuaries, marshes, mangroves, and seabeds. While these artificial coastlines are sites of tremendous real estate, civic, and infrastructural investments, they are also the most vulnerable to the effects of climate change. *Terra Sorta Firma* documents the global extent of reclaimed coastal lands and provides a framework for comparison across varying geographies, cultures, and histories. It renders visible the ubiquity and precarity of urban coastal reclamation in an age of increased environmental and economic indeterminacy. It challenges designers, developers, policymakers, engineers, and urbanists to reconsider the design and construction of land itself and to re-imagine this most fundamental of all infrastructures along a gradient of inundation. *Christianities in Asia* Peter C.

Phan, 2011-01-21 *Christianity in Asia* explores the history, development, and current state of Christianity across the world's largest and most populous continent. Offers detailed coverage of the growth of Christianity within South Asia, among the thousands of islands comprising Southeast Asia, and across countries whose Christian origins were historically linked, including Vietnam, Thailand, China, Hong Kong, Taiwan, Japan, and Korea. Brings together a truly international team of contributors, many of whom are natives of the countries they are writing about. Considers the Middle Eastern countries whose Christian roots are deepest yet have turbulent histories and uncertain futures. Explores the ways in which Christians in Asian countries have received and transformed Christianity into their local or indigenous religion. Shows Christianity to be a vibrant, contemporary movement in many Asian countries despite its comparatively minority status in these regions. *Top 10 Hong Kong* DK Travel, 2016-11-01 Newly revised, updated, and redesigned for 2016. DK Eyewitness Travel Guide Top 10 Hong Kong [Megaprojects for Megacities](#) John Landis, 2022-12-08

Megaprojects for Megacities is a collection of 14 international case studies of transportation, urban development, and environmental megaprojects completed during the last ten years in North America, Asia, and Europe. It goes beyond the previous megaproject literature to look at how and why each project was conceived, planned, engineered, financed, and

delivered and at how particular planning and delivery practices shaped outcomes Handbook of Public Policy and Public Administration in China Xiaowei Zang,Hon S. Chan,2020-11-27 This Handbook offers a critical analysis of the major theoretical and empirical issues in public policy and public administration in China Investigating methodological theoretical and conceptual themes it provides an insightful reflection on how China is governed *2014 Annual Provincial and Regional Competitiveness Analysis for Greater China Economies* Khee Giap TAN,Randong YUAN,Sangiita W. E. I. Cher YOONG,2015-11-09 After more than three decades of rapid growth China is now entering into the New Normal Era which will be characterised by slower but sustainable quality growth for several decades to come How China will fare under the New Normal Era matters not only for itself but also for its great impact on global prosperity While presenting as the second instalment of ACI's annual tracking of the dynamics of competitiveness among 34 Greater China economies this volume also includes the results of the inaugural regional competitiveness analysis for five regions of Greater China As regional imbalance in socioeconomic advancement is a serious issue China has to face up to under the New Normal Era the results of such competitiveness analysis at provincial and regional levels offer insights for policy makers to help address concerns associated with the regional disparity in development and facilitate industry leaders and other stakeholders in identifying challenges and opportunities for sound decision making *Impact Estimation Of Exchange Rates On Exports And Annual Update Of Competitiveness Analysis For 34 Greater China Economies* Khee Giap Tan,Xuyao Zhang,Ke Mao,2019-11-15 The Chinese economy has been playing an increasingly significant role on the global stage This book is the sixth annual project of Asia Competitiveness Institute studying competitiveness at the sub national level of Greater China ACI's flagship competitiveness study not only adopts a comprehensive framework to measure competitiveness by incorporating 102 indicators under four environments and 11 sub environments but is also undertaken at the sub national level to account for the considerable disparities within a large economy like Greater China The comparative strengths and weaknesses based on the scores and rankings as well as the what if simulation analysis can be used to formulate development strategies that are specific and of practical value for each sub national economy and region The Shapley methodology adopted by ACI introduces a novel approach for the assignment of weights to the various indicators that constitute competitiveness This concept has introduced an element of objectivity in terms of the assignment of weights The findings using the Shapley value also tend to validate the robustness of results obtained from the competitiveness studies over the past years Moreover the empirical research featured in this book attempts to understand the drivers of exports of Mainland China provinces with a specific focus on real effective exchange rate movements and volatility Nowadays with the international flows of goods and capital becoming ubiquitous and comprising an important aspect of national competitiveness the role of exchange rate is drawing much more policy attention In view of this the research findings presented in this book make an important academic and policy contribution by empirically examining the relationship between exports and exchange rate Finally the timing of

this publication makes it indispensable to include some dedicated discussions of the trade disputes between the US and China. Several topics would be discussed in this book including China's protection on Intellectual Property Rights, its violation of World Trade Organisation rules, challenges to its economic growth, the development of its three regional megalopolises and how to mitigate the impact and ramification of its trade war against the US. This book attempts to identify the growing concerns in the US-China trade tension and provide suggestions for China's development in the future. **Report of the**

General Committee of the Hongkong General Chamber of Commerce ... Presented to the Members at the Annual Meeting Hong Kong General Chamber of Commerce, 1912 **China's Economic Zones** Lu Zhiguo Tao Yitao, 2012-03-01

A thorough examination of the establishment and development of China's Special Economic Zones (SEZ). These eight SEZs marked a major milestone in China's gradual market-oriented reform process and the developmental fluctuations of these zones offers an in-depth understanding of the complexities and difficulties of reform. They also provide critical insight into China's thirty years of economic and social transformation. This book is a valuable and practical resource for governments, academics and policy advisors looking for an insight into and analysis of how the Special Economic Zone strategy played a key role in the transformation of China's economy. Globalizing China - Social and Governance Reforms Ka Ho

Mok, 2022-12-30 Unlike most books which consider China's transformation and globalization over the last four decades by focusing on China's economic growth, this book examines how the Chinese regime has handled the increasingly complex sociopolitical and socio-economic challenges generated as a result of the country's economic growth and transformation. Challenges arising both from within the country and also from the external political environment. Based on extensive original research, the book outlines how China's economic development has generated social and governance pressures, discusses the government's social, educational and governance reforms and highlights how China's development experiences which differ from the Western economies with democratic political regimes have drawn increasing attention from other countries in the developing world as an example to follow. **Macau** Christina Miu Bing Cheng, 1999-06-01

Macau on the threshold of the twentieth-first century is perhaps a harbinger of a new urban culture. Having been nurtured by the sharply contrasting legacies of China and Portugal, this unique city manages to meld cultural differences and avoid the destructiveness of ethnic clashes. It is thus likened here to the Roman deity Janus who is usually depicted with two faces looking in opposite directions. By concentrating on the ambivalent history of Macau, the author reveals the historical reality of cultural vacillation between two political entities and the emergence of a creole minority, the Macanese. With a judicious use of English, Chinese and Portuguese sources, she has provided a pathbreaking multi-focal perspective of the last Portuguese outpost in Asia. In light of the decolonization of Macau in December 1999, the author's analysis challenges the easy assumptions of the causal sequence: colonialism, postcolonialism and opens up an interdisciplinary purview of a local instance in cross-cultural studies.

European Destiny, Atlantic Transformations Scott B. MacDonald, 2020-02-13 With the fall of its centuries-old empire

in 1974 1975 Portugal embarked on a transitional period that reconciled a long tradition of acting out national interests overseas with the need to integrate itself into Western Europe The result has been a deemphasis on various Atlantic and colonial linkages and the forging of a new and highly successful European identity within the framework of the European Community In *European Destiny Atlantic Transformations* Scott B MacDonald offers a comprehensive analysis of Portugal s foreign policy and its highly successful venture in economic and political transformation Although Portugal is firm in its commitment to a European destiny it has not turned its back on relations with the United States and its former colonies hi Africa and Asia MacDonald traces the evolution of U S Portuguese cooperation along economic cultural and military lines and shows how NATO has played a pivotal role in the process This was most recently underscored when the U S made extensive use of the Azores during the Gulf War against Iraq Likewise in its ties with the Lusophone countries formerly under its control Cape Verde Guinea Bissau S o Tom and Princip Portugal has sought to improve political relations and act as a peacemaker in regional conflicts such as those in East Timor Angola and Mozambique The scope of MacDonald s work takes in issues posed to Portugal by new foreign policy concerns that range from the breakup of the Soviet Union to the rise of Islamic fundamentalism in North Africa and the Middle East He points out that in a world of rapidly shifting political and economic alignments Portugal provides a representative model of a relatively small nation that has undergone successful economic reform while deepening its commitment to its new democratic system As such the Portuguese model is instructive for newly emerging democracies of Eastern Europe and Latin America *European Destiny Atlantic Transformations* is an important addition to the literature on post Cold War politics It will be read by historians economists and foreign policy specialists
