page_id 57800 **The Laws of Innkeepers** John E. H. Sherry, 1993 Here is the new completely updated and expanded edition of the indispensable handbook used throughout the hospitality industry since *The Laws of Innkeepers* first appeared in 1972. Containing all the legal information essential to the successful operation of modern hotels, motels, inns, bed and breakfasts, clubs, restaurants, and resorts, the book has been extensively revised by John E. H. Sherry to accommodate the far-reaching changes that have occurred since the publication of the revised edition in 1981. Sherry, a practicing lawyer and professor of hotel administration, carries over from the highly praised earlier editions detailed information on the rights and responsibilities of host and guest alike. He cites actual cases ranging from the amusing and the bizarre to the tragic as examples and spells out in precise and readily understandable terms exactly what state and federal law says. Broadening the scope of the book to keep up with recent legal developments, the author includes many new case decisions and summaries from various jurisdictions. Three chapters devoted to employment law, environmental law, and land use and catastrophic risk liability are among the highlights of the new material. These new sections present recent rulings and case law on such timely topics as age disability and AIDS discrimination as well as sexual harassment, government regulation of toxic and hazardous substances, and hotel and resort development and acts of God and the Public Enemy and terrorism.

Hospitality, Home and Life in the Platform Economies of Tourism Maartje Roelofsen, 2022-05-20 This book explores how digital platforms in the realm of tourism and hospitality have shaped social and material worlds. Based on extensive ethnographic fieldwork with hosts and guests, the book analyses the impacts of platforms on the scale of the city, the home, and the everyday life of individuals. The book first situates platforms within the broader history of digital developments in tourism and questions what is essentially new about these socio-technical formations. The following chapters demonstrate how platforms have affected urban housing, challenged the tourism sector, and transformed understandings of hospitality and home. This is illustrated through a case study of Airbnb's development and impact in Sofia, Bulgaria. The final chapters of the book reflect on the political dimensions of datafication processes and digital systems of measurement that underpin the platform's workings, showing how the platform economies of tourism benefit their users in highly uneven ways.
