A History of Uyghur Buddhism Johan Elverskog,2024-06-18 Today most Uyghurs are Muslims For centuries however Uyghurs were Buddhists By around 1000 CE they like many of their neighbors had decisively turned toward the Dharma and a golden age of Uyghur Buddhism flourished under the Mongol empire Dwelling along the Silk Road in what is now northwestern China they stood at the center of Buddhist Eurasia linking far flung regions and traditions But as Muslim power grew Uyghur Buddhists converted to Islam rewriting their past and erasing their Buddhist history This book presents the first comprehensive history of Buddhism among the Uyghurs from the ninth to the seventeenth century Johan Elverskog traces how the Uyghurs forged their distinctive tradition considering a variety of social political cultural and religious contexts He argues that the religious history of the Uyghurs challenges conventional narratives of the meeting of Buddhism and Islam showing that conversion took place gradually and was driven by factors such as geopolitics climate change and technological innovation Elverskog also provides a nuanced understanding of lived Buddhism focusing on ritual practices and materiality as well as the religion s entanglements with economics politics and violence A groundbreaking history of Uyghur Buddhism this book makes a compelling case for the importance of the Uyghurs in shaping the course of both Buddhist and Asian history

The Making of a Savior Bodhisattva Shi Zhiru,2007-08-14 In modern Chinese Buddhism Dizang is especially popular as the sovereign of the underworld Often represented as a monk wearing a royal crown Dizang helps the deceased faithful navigate the complex underworld bureaucracy avert the punitive terrors of hell and arrive at the happy realm of rebirth The author is concerned with the formative period of this important Buddhist deity before his underworldly aspect eclipses his connections to other religious expressions and at a time when the art mythology practices and texts of his cult were still replete with possibilities She begins by problematizing the reigning model of Dizang one that proposes an evolution of gradual sinicization and increasing vulgarization of a relatively unknown

Indian bodhisattva Ksitigarbha into a Chinese deity of the underworld. Such a model the author argues obscures the many faceted personality and iconography of Dizang. Rejecting it, she deploys a broad array of materials: art, epigraphy, ritual texts, scripture, and narrative literature to recomplexify Dizang and restore as much as possible from the fragmented historical sources what this figure meant to Chinese Buddhists from the sixth to tenth centuries. Rather than privilege any one genre of evidence, the author treats both material artifacts and literary works, canonical and noncanonical sources. Adopting an archaeological approach, she excavates motifs from and finds resonances across disparate genres to paint a vibrant, detailed picture of the medieval Dizang cult. Through her analysis, the cult far from being an isolated phenomenon is revealed as integrally woven into the entire fabric of Chinese Buddhism, functioning as a kaleidoscopic lens encompassing a multivalent religious-cultural assimilation that resists the usual bifurcation of doctrine and practice or elite and popular religion. The Making of a Savior Bodhisattva presents a fascinating wealth of material on the personality, iconography, and lore associated with the medieval Dizang. It elucidates the complex cultural, religious, and social forces shaping the florescence of this savior cult in Tang China while simultaneously addressing several broader theoretical issues that have preoccupied the field. Zhuru not only questions the use of sinicization as a lens through which to view Chinese Buddhist history, she also brings both canonical and noncanonical literature into dialogue with a body of archaeological remains that has been ignored in the study of East Asian Buddhism.

Buddhism Donald S. Lopez, 2025-01-07 One of the world's leading scholars of Buddhism presents the story of its dramatic journey across the globe from 2,500 years ago to the present day. Over the course of twenty-five centuries, Buddhism spread from its place of origin in northern India to become a global tradition of remarkable breadth, depth, and richness. In this ambitious book, Donald S. Lopez Jr. draws on the latest scholarship to construct a detailed and innovative history of Buddhism, not just as a chronology through the centuries or as geographic movement across a map, but as a dense matrix of interconnections. Beginning with the life and teachings of the Buddha, Lopez shows how a set of evolving ideas and practices traveled north and east to China, Korea, Japan, Mongolia, and Tibet; south and southeast to Sri Lanka, Burma, Thailand, Cambodia, Laos, Vietnam, and Indonesia; and finally westward to Europe and the Americas. He provides insights on questions that Buddhism has asked and answered in different times and different places: about apocalypse, art, identity, immortality, law, nation, persecution, philosophy, science, sex, war, and writing. Vast in its erudition and expansive in its vision, this is the most complete single-volume history of Buddhism in its full historical and geographical range.

The Weather in Proust Eve Kosofsky Sedgwick, 2011-12-20 At the time of her death in after a long battle with cancer Eve Sedgwick had been working on a book on affect and Proust and on the psychoanalyst Melanie Klein This volume edited by Jonathan Goldberg brings together a collection of her last work Dynamics of Interregional Exchange in East Asian Buddhist Art, 5th-13th Century Dorothy C. Wong, 2022-10-10 This volume examines the various patterns of trans regional exchanges in Buddhist art within East Asia China Korea and Japan in the medieval period from the fifth to the thirteenth

centuries A traditional approach to the study of East Asian Buddhist art revolves around the notion of an artistic relay India was regarded as the source of inspiration for China and China in turn influenced artistic production in the Korean peninsula and Japan While this narrative holds some truth it has the implicit baggage of assuming that art in the host country is only derivative and obscures a deep understanding of the complexity of transnational exchanges The essays in this volume aim to go beyond the conventional query of tracing origins and mapping exchanges in order to investigate the agency of the receivers with contextual case studies that can expand our understanding of artistic dialogues across cultures The volume is divided into three sections In Section I Transmission and Local Interpretations the three chapters by Jinchao Zhao Li kuei Chien and Hong Wu all address topics of transnational transmission of Buddhist imagery their figural styles and subsequent alterations or adaptations based on local preferences and interpretations Buddhism had important impacts on East Asian countries in the political dimension especially when the religion and certain Buddhist sutras and deities were believed to have state protecting properties The chapters by Dorothy C Wong Imann Lai and Clara Ma in Section II Buddhism and the State attend to the political aspect of Buddhism in visual representation Section III Iconography and Traditions includes chapters by Sakiko Takahashi Suijun Ra and Tamami Hamada that closely study the cross border transmission of and subtle variations in iconography and style of specific Buddhist deities notably deities of esoteric strands that include the Thousand Armed Avalokite vara Bodhisattva of Compassion
