

The background of the cover is a microscopic view of blood. Numerous red blood cells, which are biconcave discs, are scattered throughout the field of view. Interspersed among these cells are several blue, spherical virus-like particles. These particles have a textured surface and several long, thin, spike-like projections extending from their periphery. The overall color palette is dominated by the red of the blood cells and the blue of the viruses, set against a dark, slightly purple background.
